

Wireless Charging Car Holder

INSTRUCTION MANUAL

Please read all instructions carefully and retain for future use.

Getting Started

- Remove the product from the box.
- Please retain all packaging after you have checked and counted all the parts and contents against the list.

Package Contents

- Wireless Charging Car Holder
- Micro-USB cable
- Instruction manual

Key Features

- Convenient, hassle-free wireless charging & a great-looking charging holder.
- Charge your phone simply by placing it on the holder. No need to attach a cable to the phone.
- Suitable for phones compatible with the wireless-charging technology.

INSTRUCTIONS FOR USE

- Install the holder in the desired place
- Connect the micro-USB end of the cable to the micro-USB port on the holder and the USB type-A end to the USB DC 9V/5V source inside your car. A red light on the holder will come on.
- Place your phone on the holder; wireless charging of the phone will start immediately, with the red light turning blue.
- Suitable for mobile phone $\leq 6.1''$

IMPORTANT: Some phone cases do not allow wireless charging due to their thickness and design. If your phone model is compatible with wireless charging but you're unable to charge it wirelessly, please remove your phone case and try again.

Specifications

Input: DC 9V/1.67A, 5V/2A

Output: DC 9V/1A, 5V/1A

Frequency: 110.1- 205 KHz

FCC STATEMENT :

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

This device may not cause harmful interference, and

This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
