Hi!

# THANK YOU!

## **Dear Misa Customer,**

Congratulations on becoming a proud owner of Misa robotic product.

Misa Robotics LLC based in Delaware USA is on a mission to accelerate quality of life improvement for humans with affordable, and easy-to-use Robotics and Automation products.

Misa is widely known for creating the eponymous robot, social robot for the home. Misa is built to interact and communicate with the people around him, and it uses advanced Natural Language Understanding (NLU) along with speech to forge relationships with his family.

Misa is the next generation social family robot. Smart, interactive, and uniquely mobile – Misa can play with your kids, handle your schedule, and keep your home safe. Misa blends into your family and is a Friend, a Teacher, a Helper, a Camera man, a Home mak-er, an Entertainer and more. With his unique personality and playful nature Misa interacts with the world around it, making it a helpful, fun and unforgettable addition to any household. It can see, hear, teach, speak, relate and help like a personal assistant to daily tasks easier. With the unique parent app, you can move the Misa Robot in the House to monitor Kids, Send Messages, Video Call, Parental Control Functions, Set Alarms, Teach Good Habits, Play Stories, Play Music & Video's, and much more. Engage your child's learning with this app and Misa's onboard voice controls!

It would be our pleasure to receive feedback and suggestions you may have for improvements in the product you are using.

**FCC Caution:**

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
