User Guide

MobiFren GBH–S700/S710

– It delivers premium sound, together with the convenience of wireless technology, retractable earphone and built–in speaker. This stylish design improves your dignity and make it easier your mobile life.

– MSTS™ Tuning Technology together with lossless compression codec apt–X enables you to enjoy music with premium Hi Fi sound like as CD in wireless and is born to dream for all smart phone users to enjoy MobiFren Bluetooth headset happily.

MobiFren GBH-S700/S710 Features

· **Retractable type of Bluetooth headset**
　- With reel type of earphone cable, it's easy to store earphone cable and control the length easily.

· **Built-in stereo speaker**
　- With built-in speaker, you can use it as speaker phone and listen the music via speaker, without wearing the earphone.

· **Supporting Micro SD card**
　- You can use it as MP3 Player via built-in Micro SD slot.

· **Premium Sound (MSTS™ Tuning Technology & apt-X codec)**
　- MSTS™ Tuning Technology together with lossless compression codec apt-X enables you to listen premium Hi-Fi stereo sound.
　- With built-in DSP chip, it enables optimal call quality by noise reduction and echo cancellation.

· **Vibration on incoming call**
　- The headset alarms you by vibration if there's incoming call.

· **Anti phone loss mode**
　- If your mobile phone is out of ranges from the headset, it alarms you by vibration for 1 minute to prevent the loss of your mobile phone.

· **Supporting Android application**
　- You can use many kinds of useful functions if you download the application at Google play store.

　　※ **If you install Android application, you can use the below features.**

·Caller ID TTS	If you press any button of the headset on incoming call, your mobile reads you the caller's name.
·SNS message TTS	If there's new message of SNS or Line, it reads you the message, together with vibration.
·Mobi Health (only with S700)	It counts steps, walking distance and measures calorie consumption like as pedomester.
·SOS function	If you press any button of headset for 3 times in emergency, it connects to SOS.
·Find mobile phone	If you can not remember well where you placed mobile phone, it helps you to find out your mobile phone by pressing headset button.
·Hot call	If you register the number in advance that you call frequently, you can call easily by pressing headset button.
·Last Call (Instant call for the latest number)	You can call to the lastest number directly.
·Camera Remote control	It enables to play as a remote control when you take a picture. It's helpful when you take a self picture or group picture.

· **Multi Point**
　- It enables to pair up to 8 Bluetooth enabled devices and you can use 2 devices simultaneously.

· **Supporting Bluetooth 4.0**

· **Voice prompt**
　- It guides you by voice when you operate the headset.

· **Firmware upgrade**
　- available the latest firmware for optimized usage

　※ **Features of this product depend on your mobile phone.**
　　Check your mobile's user manual for further information.

4. Getting started with your MobiFren

GBH-S700/S710 is easy to use for everyone.

1. Pairing to your mobile phone

* Before you use MobiFren GBH-S700/S710, you need to pair it with your
mobile phone or Bluetooth enabled devices.

1) Pairing on first purchasing

※ Entering into pairing mode with Bluetooth headset

- On first purchasing, the headset enters into pairing mode automatically when the power is on.
And blue LED is continuously on. (You need to pair in your mobile within 2 minutes.)

※ Pairing by mobile phone

Way 1. Pairing with MobiFren App. (Available with only Android phone)

① Install "MobiFren_S7" from Google play store.
② Press the first menu " Pair (Connect) headset", then it goes to Bluetooth setting.
③ Activate Bluetooth and search headset.
④ Select "GBH-S700 or S710" from the searched devices, then it pairs.
 ※ Pairing will be more easy with MobiFren_S7 application.

Way 2. Pairing with mobile phone setting

① Activate Bluetooth function in your mobile phone according to phone manual and
search GBH-S700 or GBH-S710 and select, then, it shows "Pairing".
(Some mobile phones need pass key(PIN), then, enter 0000.)
② If pairing is successful, it shows that " Connected to phone and media audio" and
blue LED glitters for 5 times. Now, it's ready to use.

2) Pairing to other device

※ Entering into pairing mode with Bluetooth headset.

① Deactivate the Bluetooth function of the connected device if there's connected device.
② Press (MFB) button for 4 seconds to turn off.
③ Press (MFB) button for 2 seconds, then, the headset turns on and enters into pairing mode.

※ Pairing by mobile phone

① Follow the pairing procedure of way 1 or way 2 on first purchasing.
② If the pairing is successful, it shows that " Connected to phone and media audio" and
blue LED glitters for 5 times. Now, it's ready to use.

 ※ The headset is power off, if you press(MFB) for 4 seconds, it goes to pairing mode.

※ Useful tip (3 ways to go Bluetooth setting)

① Menu button, Setting, Bluetooth on wallpaper.
② Drag down the screen and press Bluetooth icon.
③ Run MobiFren_S7 app. and select the menu "Pair (Connect) headset".
