Specification

- Bluetooth LE button
- Operating Temp: -20℃±2℃ ~ 50℃±2℃
- Approx. Weight: 20g
- Bluetooth version: Bluetooth V4.0
- Battery: Li battery
- Battery life: 180 days

Federal Communication Commission Interference Statement

Model: FP2

FCC ID. : XTS-FP2

THIS DEVICE COMPLIES WITH PART 15 OF THE FCC RULES. OPERATIONS IS SUBJECT TO THE FOLLOWING TWO CONDITIONS: (1) THIS DEVICE MAY NOT CAUSE HARMFUL INTERFERENCE AND (2) THIS DEVICE MUST ACCEPT ANY INTERFERENCE RECEIVED, INCLUDING INTERFERENCE THAT MAY CAUSE UNDESIRED OPERATION

The changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

To comply with the FCC RF exposure compliance requirements, no change to the antenna or the device is permitted. Any change to the antenna or the device could result in the device exceeding the RF exposure requirements and void user's authority to operate the device.

FCC INFORMATION

The Federal Communication Commission Radio Frequency Interference Statement includes the following paragraph:

The equipment has been tested and found to comply with the limits for a Class B Digital Device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instruction, may cause harmful interference to radio communication. However, there is no grantee that interference will not occur in a particular installation. If this equipment dose cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on , the user is encouraged to try to correct the interference by one or more of the following measures:

--Reorient or relocate the receiving antenna.
--Increase the separation between the equipment and receiver.
--Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
--Consult the dealer or an experienced radio/TV technician for help.

The user should not modify or change this equipment without written approval form Mobility Sound Technology LTD. Modification could void authority to use this equipment.

USER MANUAL

CHARGING AND BATTERY

Charging of the Bluetooth Finger Pick is done via the Type-C USB connector. Use a standard USB connection or charger supporting: 5V - 1A.

During charging, the LED shows a solid Red color. When the battery is fully charged, the LED either turns off.

If during operation the battery level goes low the LED show a solid Red color to indicate the battery need to be recharged.
With a fully charged battery, the expected operational time is above 3 months.

POWER ON AND OFF

To power ON the Finger Pick you have to press and hold the POWER button for 2 seconds. When powered ON Blue LED flash twice.

When powered ON, Finger Pick goes in Pairing Mode for 120 seconds, after Pairing Mode is timeout, Finger Pick goes power off.

To turn OFF the device you have to press and hold the power button for 2 seconds until the BLUE LED solid ON, then release power button
