User's Guide

SAFETY WARNINGS AND GUIDELINES

- This device has no user serviceable parts. Do not attempt to open, service, or modify this device.
- Do not use this device while operating a motor vehicle, heavy equipment, walking in traffic, or any other situation in which situational awareness is a key to safety.
- This device contains a rechargeable battery and electronic circuits. It should only be disposed of in accordance with local laws and regulations.
- Charge the battery before first use and at least once every three months to ensure the battery remains fresh and capable of holding a full charge.
- Avoid allowing the battery to become fully discharged. Always recharge the battery when the low battery audible indication is heard.

CAUTION

Please only use the included charging cable to charge this headset. Use of unauthorized or incompatible cables or adapters may shorten the lifespan of and/or damage the battery and internal components. Do not attempt to remove or alter the battery or internal components in any way.

TECHNICAL SUPPORT

Monoprice is pleased to provide free, live, online technical support to assist you with any questions you may have about installation, setup, troubleshooting, or product recommendations. If you ever need assistance with your new product, please come online to talk to one of our friendly and knowledgeable Tech Support Associates. Technical support is available through the online chat button on our website www.monoprice.com during regular business hours, 7 days a week. You can also get assistance through email by sending a message to tech@monoprice.com

Driver Unit	Ø40mm
Sensitivity	105dB/1mW(S.P.L at 1KHz)
Impedance	32Ω
Frequency Range	20Hz-20KHz
Rated Power	10mw
Max. Power	20mw

FCC Statement

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
