

Size:115x160mm

Specification

- 1 Working voltage:3.4—4.2V
- 2 Charging power supply: DC5V/500MA
(Battery indicator LED is red when charging. Turns off when fully charged).
- 3 Low power warning: When voltage is lower than 3.5V, two beeps will sound and LED battery indicator light will flash blue. Before shutting down, beeps will become more frequent.
- 4 Speaker functions via Bluetooth and Line-In mode
Bluetooth working range $\leq 10M$
Speaker functions via the included 3.5mm cable when connected to device.

Operation

Turn on speaker vis the switch located on the bottom of the device.

Speaker will default to Bluetooth mode when switched on without the 3.5mm cable connected. The LED indicator light will flash blue indicating the device is in pairing mode.

A. Bluetooth Mode - Pair to "Greedo":

1. The blue flashing LED indicator indicates pairing mode. Once a connection with media device is established, the flash will slow, remaining blue.
2. "-" Button: Short click skips to previous track. Press and hold to decrease volume.
3. "⏸" Button: Pause/play music/answer incoming calls with a short click.
4. "+" Button: Short click to next track. Press and hold to increase volume.

B. 3.5mm Line-in mode:

1. Insert one end of included 3.5mm cable to Line-in port, connecting other end to device's Line-in port. (LED is stable blue light. Line-in function does not support answering of incoming calls).
2. "⏸" Button: Short click to pause/play music
3. "-" / "+" Button: decreases/increases volume.

FCC STATEMENT :

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

RF warning statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
