Maintenance
Battery Information
This pager is designed to operate on one 'AAA'-size alkaline battery. The correct time and any stored message will remain intact for up to one minute after the battery is removed.
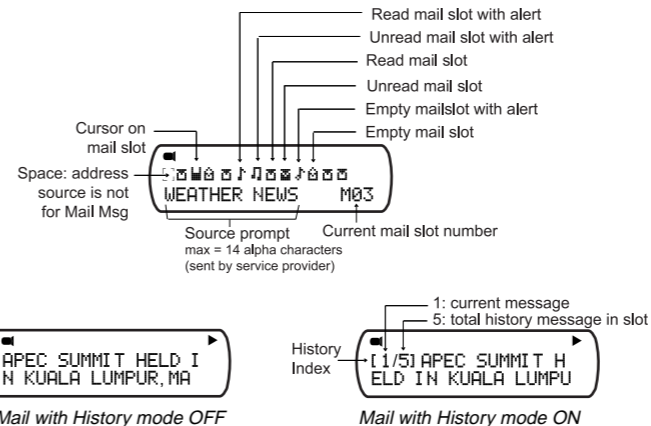

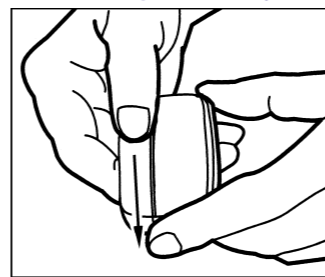

18

To install or replace a battery:

- Place the pager face down in the palm of your hand.
- Push with a click to unlock the battery door and slide it out as shown.
- Slide a new battery into the battery compartment. Ensure that pager is OFF and the battery polarity is correct.
- To close battery cover, the dot on the cover must be aligned to the dot on the battery casing.

☞ Do not press any button while replacing the battery.
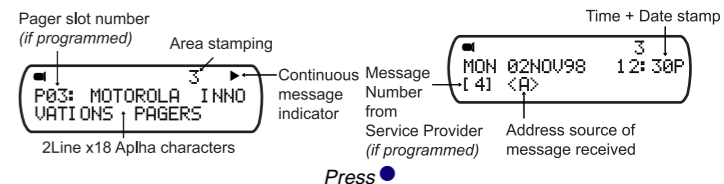

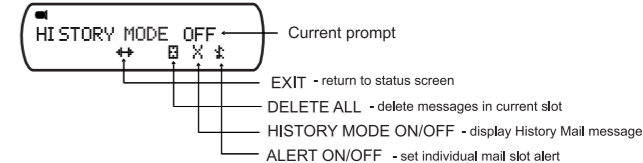

Care of your Pager
To maintain the fine optical quality of your pager's display screen, please do not subject the pager to extreme temperatures or moisture. To clean the pager housing, use a soft, non-adhesive cloth moistened with a mild soap and water solution. Wipe the surface with a second cloth moistened with clean water. Do not immerse the pager in water. Do not use any other cleaning solutions.

19

Repair and Maintenance
Your pager, if properly handled, will give you many years of trouble-free service. However, if servicing is required, Motorola's Service Organisati0on, staffed with specially trained technicians, offers, conveniently located repair and maintenance facilities throughout the world. Please contact your paging service provider for more information.

Patent Information
This Motorola product is manufactured under one or more Motorola U.S. patents. A partial listing of these patents is provided on the inside surface of the battery door. Other U.S. patents covering this product are pending.
