Genre icon help : You can check the icon names by genre.

8. Melon (cont'd)

With the wired/wireless integrated service provided by Melon, you can search content, streams or downloads MP3 music content.

Melon MP3

You can download 'Melon Player' program from SKT, save, play, send and manage MP3 files. Contact the service provider or visit Melon homepage (www.melon.com) for further information of 'Melon Player'.

About SKT Melon Player?

Melon player is the free exclusive PC software operating in PC. You can download, save, play, send or manage MP4 files (DCF files).

❶ Downloading Melon Player

1) Access Motorola (http://www.mymotorola.co.kr), subscribe, and log in.

2) Select the Download Center in 'MOTOPRODUCT Product Information', and click Melon MP3 Player.

3) If there is no USB driver program installed in the PC, click 'USB Driver Download' on the MP3 Player installation Guide. (Make sure to connect the phone with PC before installing the USB driver.)

Click DOWNLOAD of the model ▶ Click Save on the file downloading message box ▶ Select a folder and click Save ▶ Execute the file in the folder and click install ▶ Click OK on the installation complete window

※ An erro may occur when installing a USB driver depending on the enviroment of PC. Click Error in Driver Installation on the installation guide window and check the description.

4) Connect the phone with PC with the 5PIN USB data cable.

※ The PC with automatically recognize the phone and install the program. If an error occurs in recognizing the phone, click Error in Driver Installation on the installation guide window and check the description.

5) Contact the Melon homepage (http://www.melon.com), download a Melon player program, and install it on PC.

※ Click 'DOWNLOAD start' in Melon MP3 Player on the Motorola homepage.

Click DOWNLOAD Start ▶ Click Save on the file downloading message box ▶ Select a folder and click Save ▶ Click the file in the saved folder ▶ Click Execute on the file open window ▶ Install Melon Player ▶ Finish installation

❷ Downloading MP3 files

1) Access the Melon homepage (www.melon.com) and subscribe to it as a member.

2) In case of saving an MP3 file in the mobile phone, make sure to turn on the mobile phone, and connect it to PC via a 5PIN USB data cable before executing the Melon Player.

3) After executing the Melon Player, try log-in.

4) After selecting a desired song, you can enjoy music with an MP3 player or send this MP3 file to the mobile phone.

※ To send file to the phone, SKT integrated USB driver is required. (See Melon homepage Customer Center for further information.)

※ When sending an MP3 file to the phone via PC, do not remove the 5PIN USB data cable by force. Such act may cause malfunction of the phone.

※ Service fee is charged for downloading MP3 files to PC or saving MP3 files to the phone. The fee will be charged based on SKT's Melon.

❸ Playing MP3 files

➡ You can check the MP3 file downloaded to the phone via 'Melon box'. (Melon Contents, see p70)

➡ Only MP3 files with extension 'DOF' can be played in the phone.

※ This service is available for the customers who have an integrated ID issued from SKT membership site T-World (http://www.tworld.co.kr)

※ In case of downloading or listening MP3 files on PC, it is not necessary to connect the phone.

※ It is possible to send PC-downloaded MP3 files to the phone again. However, it is impossible to send files from the phone to PC again.

※ To send MP3 files to the phone, make sure that you have an MP3-only phone and have the mobile phone authorized. (Contact the service provider or see Melon homepage Customer Center for further information.)

9. T MAP

With the satelite-based GPS function, you can use various navigations services including traffic information, location and route guide, and other driver convenience services.
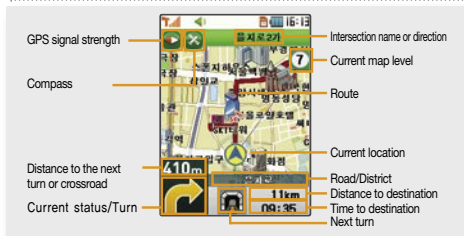

Before Using T MAP

Press (Menu OK) ▶ Select T MAP

➡ You can move to T MAP by pressing and holding [button] button on standby screen.

➡ You can use the T MAP service on the electronic map.

➡ The phone may fail to detect the accurate location in the underground or thrnel where GPS signal is blocked.

➡ If the vehicle vibrates severely, there can be a vibration on the screen.

Note

• It is dangerous to use the phone while driving a car. Make sure to check the navigation information before driving a car.

• If the information from T MAP service is different from that on the road, make sure to follow the traffic regulations and actual road situation.

• A service fee is charged when you use the T MAP service. Contact the service provider or visit T MAP homepage (http://tmap.tworld.co.kr) for service and other further information.
