INSTRUCTION MANUAL

A preliminary draft copy of the Users Manual follows:

congratulations

Morrison brings all your conversations, friends, and favorite stuff into focus, so you spend less time managing your life and more time living it.

- **Everybody in.** Synchs all your friends' contact info the first time you pick it up, and continues updating your device, so you don't have to.
- **Cut to the chatter.** Streams any message, from anywhere, right to Morrison—no apps, no menus.
- **Social secretary.** Lets you do just about anything—upload, download, post—on Facebook, MySpace and Twitter.
- **Relax, already.** Backs it all up too.
- **Google too.** Download thousands of cool apps from Google—search (of course), map, chat, play and surf to your heart's content.

Caution: Before using your phone for the first time, please read "Legal & Safety" on page 49.

DRAFT

more information

You always have help. You can tap the **Help Center** in your app tray, or visit **www.motorola.com/support**.

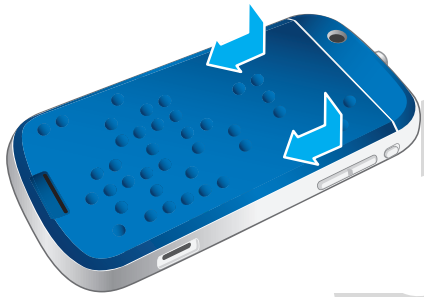
let's go

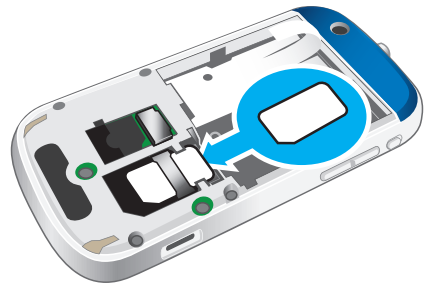
let's get you up and running

assemble & charge

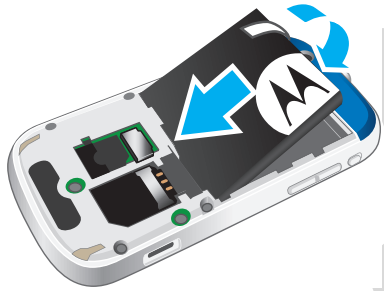
❶ cover off



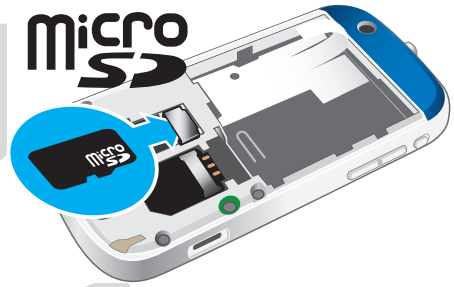
❷ SIM in



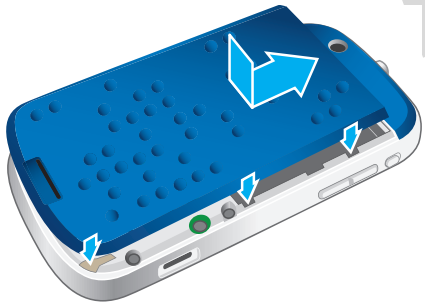
❸ battery in



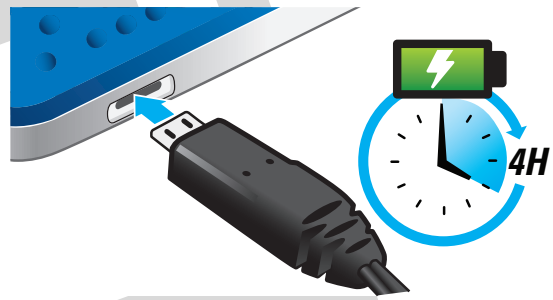
❹ microSD in (already installed)



❺ cover on



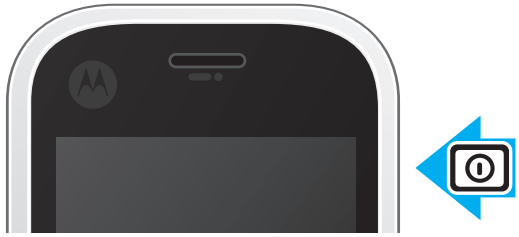
❻ charge up



Caution: Please see "Battery Use & Safety" on page 49.

DRAFT

turn it on & off



To turn on your phone, press (on the right side).

To turn off your phone, press and hold , then tap **Power off** in the menu that opens.

register & import contacts

The first time you turn on Morrison and register, MOTOBLUR will sync your contacts—from your SIM card, email, and social network accounts—into one list. From then on, MOTOBLUR will keep your contacts updated. When somebody gets a new number or updates their status, you'll know it.

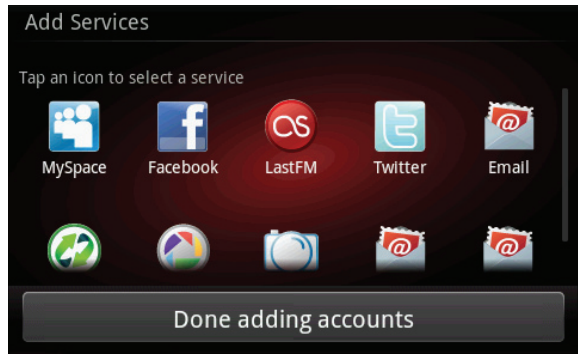
Note: MOTOBLUR registration is secure, and should only take a few minutes (depending on how many email or social networking accounts you want to add). For more, see "your MOTOBLUR account" on page 19.

1. The first time you turn on Morrison, select your language (tap **Next**), then read the Welcome (tap **Next**).
2. To create your MOTOBLUR account, choose **Register a new account** and enter the info.

   If you already created a MOTOBLUR account, choose **Use an existing account** and enter your info.

DRAFT

❸ After you register, you can add your **Facebook**, **MySpace**, **Twitter**, or other accounts. Your phone downloads your friends and contacts when you sign in.



Note: If you don't have social networking accounts, visit Facebook, MySpace, or Twitter Web sites to find out more. To add accounts anytime, see "add accounts" on page 20.

❹ When you finish signing in, your phone shows your home screen. To import the contacts from your SIM card, tap **Contacts**, then press > **Settings** > **Import from SIM card**. Tap **OK** to confirm.

Wi-Fi connect

If you want to use a wireless computer network for even faster Internet access, press > **Settings** > **Wireless controls** > **Wi-Fi settings**. Tap **Wi-Fi** to search for and connect to wireless networks. For more, see "Wi-Fi" on page 48.

cool content & more

Browse and download thousands of the coolest apps on the planet from Google, so you can search (of course),

DRAFT

map, chat and play to your heart's content. On top of that, you get a full HTML browser too, so you can surf in style.

Download new apps with "Android market" on page 43. Your phone comes with a microSD memory card installed—you can load it up with photos, videos, or music from your computer.

security

Everything you do on Morrison is backed-up on MOTOBLUR, so quit worrying. Even if you lose your device, MOTOBLUR can help you find it, lock it, or wipe it. And when you get your next MOTOBLUR product, your stored info makes it a snap to set up with just a username and password.

DRAFT

touchscreen & keys

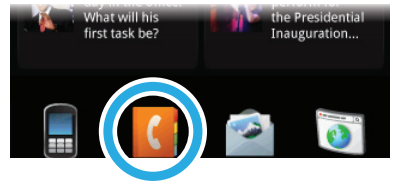
a few essentials

touch tips

Try these actions to touch and move things in the touchscreen:

tap

To choose an icon or option, *tap* it. For example, from your home screen, you can tap **Contacts**.



tap & hold

To open special options, *tap and hold* an icon or other item. For example, in the home screen, tap and hold a chip to show the options **Setup**, **Move**, and **Delete**.

drag

To move an icon or a list item, you can *drag* it. For example, in the home screen, tap and hold a chip to show its options, then tap **Move**. Drag the chip to a new spot, then tap **Done**.

DRAFT

flick

To quickly scroll through lists, or pull things up, down, left, or right, *flick* (drag quickly) across the touchscreen.

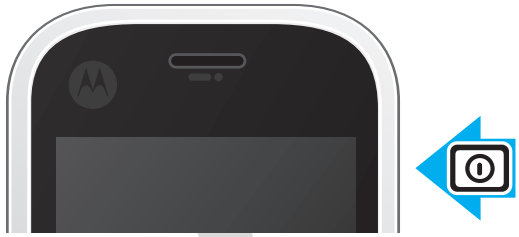
In the home screen, quickly flick the main panel left or right to open other panels.

Panel Map
When you flick panels left or right, this bar shows which one you're on.

Flick the icons from the bottom of the touchscreen upward to open the full menu.

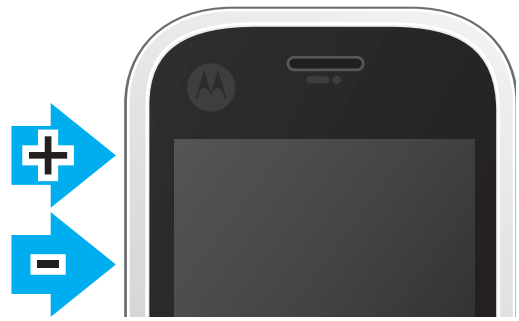
sleep & wake up

To save your battery, prevent accidental taps, or when you want to wipe smudges off your touchscreen, put the touchscreen to sleep by pressing ⏻. To wake up the touchscreen, just press ⊞, ⌂, or ↺, or open the phone.



adjust volume

Press the volume keys to change the ring volume (in the home screen), or the earpiece volume (during a call).



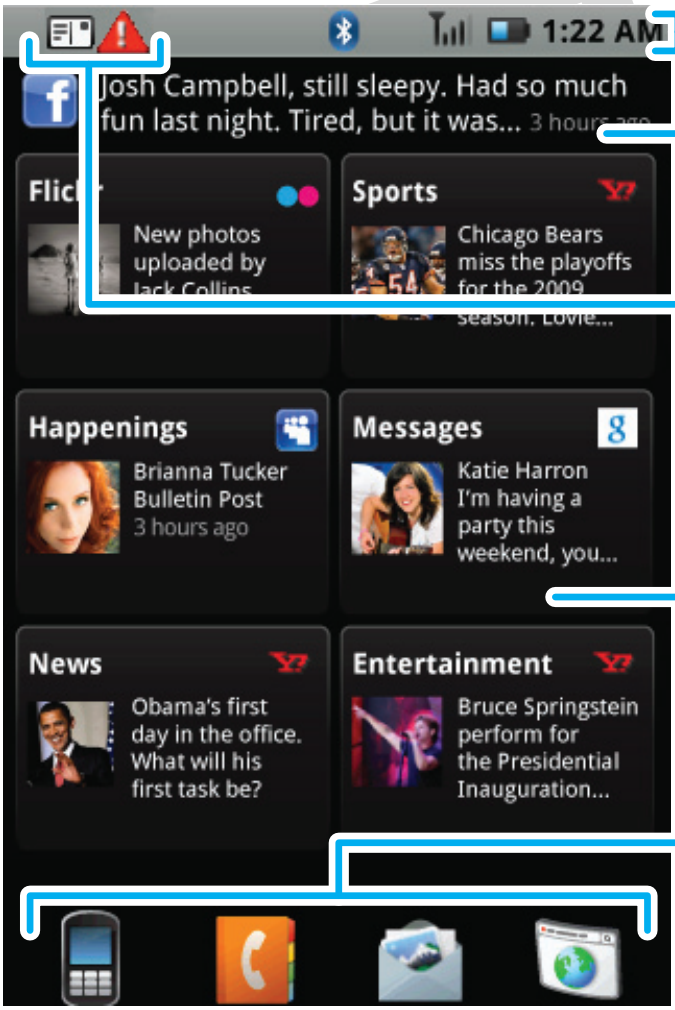
DRAFT

home screen

quick access to the things you need most

home screen quick start

The *home screen* gives you all your latest information in one place. It's what you see when you turn on the phone or press from a menu. It's basically like this:



Status Indicators

Your Online Status
Tap to change your status.

Notifications
Flick this bar down to see details about new notifications.

Chips
Tap to open, or tap & hold to move or set up.

Shortcuts
Tap to open. Flick up to open the app tray.

MOTOBLUR integrates all your communications—from Gmail to Facebook, Twitter to MySpace—pulling together the threads you're following, the people you're friending and every story, link or video you're sharing into a single stream that you view any way you choose.

Tip: Customize your home screen in "personalize" on page 30.

chips

In your home screen, *chips* show you news and message updates.

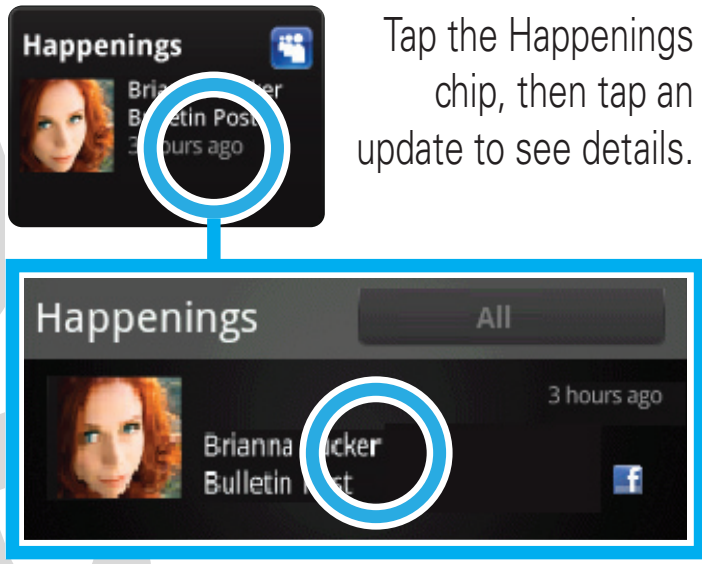
Tip: Flick the home screen left or right to open other *panels* (pages of chips).

To open a chip, tap it. To add or move chips, press > **Manage**. There are chips for **Happenings**, **Messages**, **Weather**, and **News**.

DRAFT

happenings chip

The **Happenings** chip shows the latest update from your social networks. Tap the chip to open a list of updates. Tap an update for details, or flick it left to see other updates.



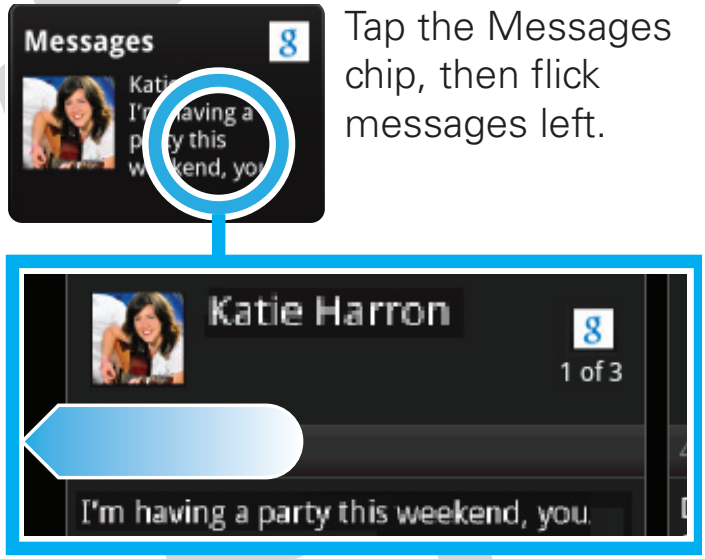
Tap the Happenings chip, then tap an update to see details.

set up or delete the happenings chip

Tap and hold this chip, then tap **Setup** or **Delete**. To add social networks in **Setup**, see "add accounts" on page 20.

messages chip

The **Messages** chip shows your latest email, message, or IM. Tap the chip to open the message, then flick left to open older messages.



Tap the Messages chip, then flick messages left.

DRAFT

set up or delete the messages chip

Tap and hold this chip, then tap **Setup** or **Delete**. To add email accounts in **Setup**, see "add accounts" on page 20.

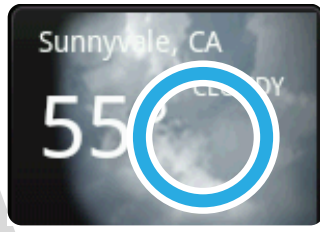
news chips

News chips show you the latest unread headline, and can have different names (like **Sports** or **Entertainment**). Tap a chip for the full story.

set up or delete news chips

Tap and hold a chip, then tap **Setup** or **Delete**. In **Setup**, you can change the chip's name or add more RSS feeds for this chip. When you open the news chip, flick left to see other headlines all the chip's feeds.

weather chips



Tap a weather chip for the daily forecast. Then, tap the chip again for the detailed forecast.

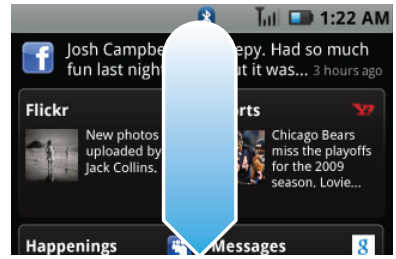
set up or delete weather chips

Tap and hold a chip, then tap **Setup** or **Delete**. In **Setup**, you can change the location or add more locations for this chip. When you open the weather chip, flick left to see other locations you added.

DRAFT

status & notifications

At the top of the screen, icons tell you about messages and phone status. For details, flick down the icon bar.



- E-mail
- Text or picture message
- Message error
- IM
- Voicemail
- Calendar event set
- Alarm set
- Song playing
- Data syncing
- microSD card full
- Undisplayed notifications
- Call in progress
- Call missed
- Call on hold
- Call forward on
- Speakerphone on
- Ring is silent
- Ring is on vibrate
- Phone muted
- GPS on/working
- Uploading/downloading
- Content downloaded
- GSM/roaming/no signal
- GPRS connected/active
- EDGE connected/active
- 3G connected/active
- Wi-Fi connected/available
- Battery charge
- Battery charging
- Wireless off
- Bluetooth on/connected
- SIM card missing
- Network signal strength

Tip: To see today's date, tap and hold the status bar.

app tray

app tray quick start

The app tray shows you all of your applications. To open it from the home screen, press . To close it, press again.

Tip: To find an app in the app tray, you can open your phone and type the app name.

DRAFT

social networking

my life, your life

your MOTOBLUR account

When you first turned on your phone, you registered for a MOTOBLUR account that manages your messages, contacts, and more ("register & import contacts" on page 7). You can log into this account from a computer upload contacts, manage the account, get help, or even locate your phone: **ws-cloud1-qa1.blurdev.com/blur-services-1.0/web/**

view accounts & update status

Morrison lets you do just about anything on Facebook, MySpace, and Twitter right from the full touchscreen—post photos as soon as you snap them, or blast your status across all your social networks at once. MOTOBLUR makes the connections, whether you're posting, surfing, or squawking.

After you add a social networking account, you'll see your status in your home screen, along with your friends' updates ("happenings chip" on page 15).

To update your status, just tap it and enter text.

DRAFT

To stop seeing your status, press > **Hide status**.

add accounts

Find it: > **Accounts** > > **New Account**

Tip: After you sign in, you'll have the friends and contacts from the account in your phone's **Contacts** list.

Note: If you don't have **Facebook**, **MySpace**, or other accounts, visit their Web sites to find out more.

remove accounts

Find it: > **Accounts**

Tap an account, then tap **Delete**.

DRAFT

calls

it's good to talk

calls quick start

dialing options

Find it: Dialer

Speed Dial List
Tap to open, then press to add or edit.

Delete
Tap to delete a digit you entered.

Frequent Call List
Tap to open, then tap an entry to call.

Recent Calls
Tap to open, then tap an entry to call.

Open Your Contacts

Voice Dial

in-call options

Call Timer

Mute
Tap to mute or unmute the call.

Dialer
Tap to dial a second call.

Speakerphone
Tap to turn the speakerphone on or off.

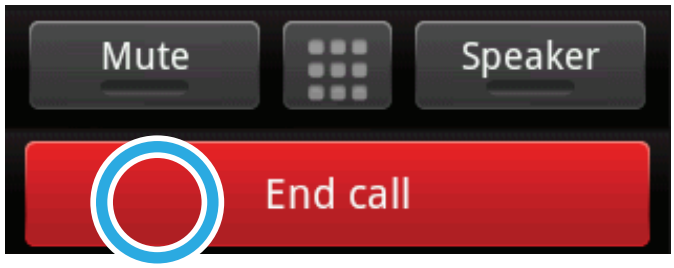
During a call, press to choose **Hold**, **New Call**, **Use Bluetooth**, or to wake up the touchscreen if it's dark.

make & answer calls

To make a call, tap **Dialer**, enter a number, then tap **Dial**.

To answer a call, tap **Answer**.

end calls



Tap **End call**.

Tip: If you close the call display during a call, flick down the status bar and tap **Current call** to reopen it.

emergency calls

Your service provider programs one or more emergency phone numbers, such as 911 or 112, that you can call under any circumstances, even when your phone is locked or the SIM card is not inserted.

Note: Check with your service provider, as emergency numbers vary by country. Your phone may not work in all locations, and sometimes an emergency call cannot be placed due to network, environmental, or interference issues. Do not solely rely on your wireless phone for essential communications, such as medical emergencies.

1. Tap (if your phone is locked, tap **Emergency Call**).
2. Enter the emergency number.
3. Tap **Dial** to call the emergency number.

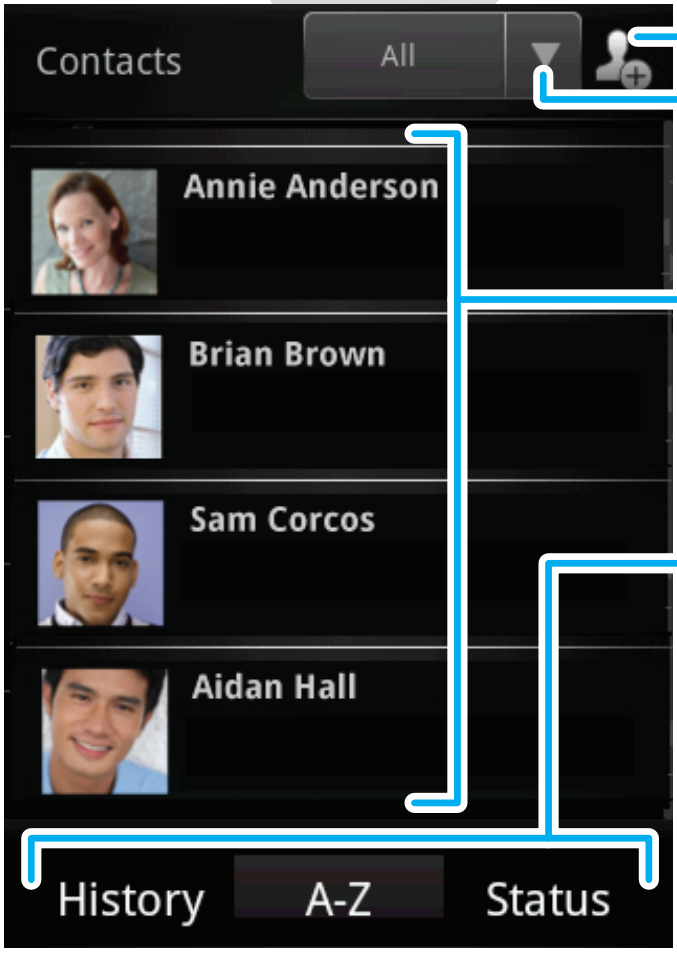
DRAFT

contacts

contacts like you've never had before

contacts quick start

Find it: Contacts



Create Contacts

Filters
Choose the list source (like All, Favorites, or Facebook).

Contacts List
Tap to view contact information. Tap & hold to edit, delete and more.

Views
Tap a list view, or flick the display right or left, to show:
History - recently used
A-Z - list without status
Status - list with status

Tip: To search the list, just type a name.

view contacts

With Morrison, you'll know what everybody's up to and when. Every time you pick up a call, check a message or look up a friend's contact info, sure, you'll see their name and number, but you'll see their social network status and smiling face, too.

Find it: Contacts

- To filter the contacts by source (like **All**, **Favorites**, or **Facebook**) tap the filter name at the top.
- To change the list view, tap **History** (recently used), **A-Z** (list without status), or **Status** (list with status) at the bottom.
- To find a contact, just type the name.

call, text, or edit contacts

Find it: Contacts

- To show **Call**, **Send text message**, **Email**, **View contact**, **Delete**, or other options, tap and hold the contact.
- To edit a contact, tap it, then press > **Edit**.

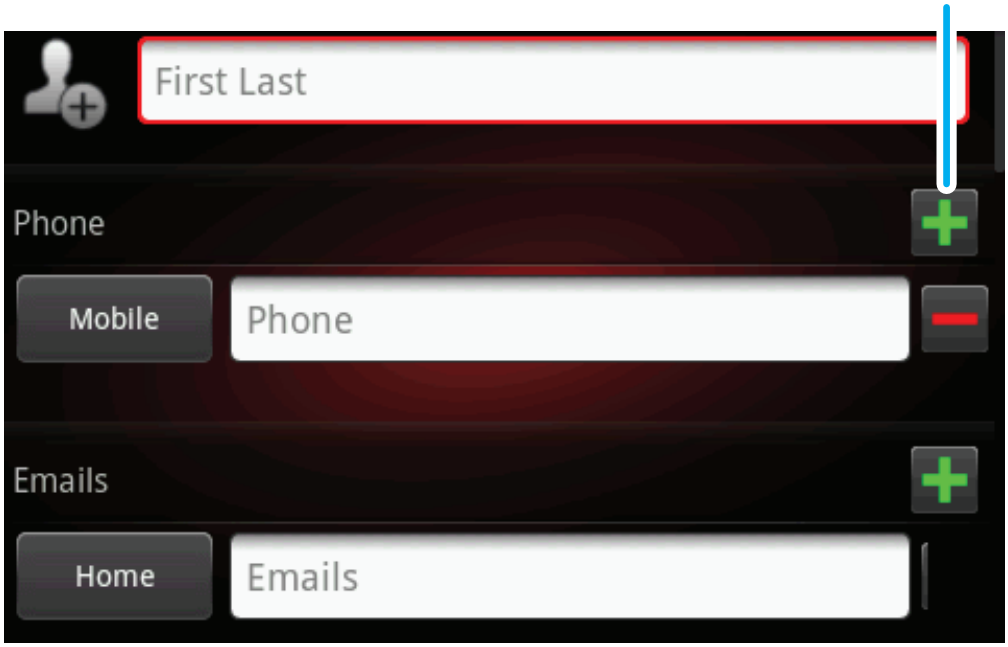
create contacts

Find it: Contacts > > Add Person

DRAFT

Open your phone to type the name and details.

Tap **+** and **-** to open and close **Phone**, **Emails**, and other lists.



To see more details, flick up.

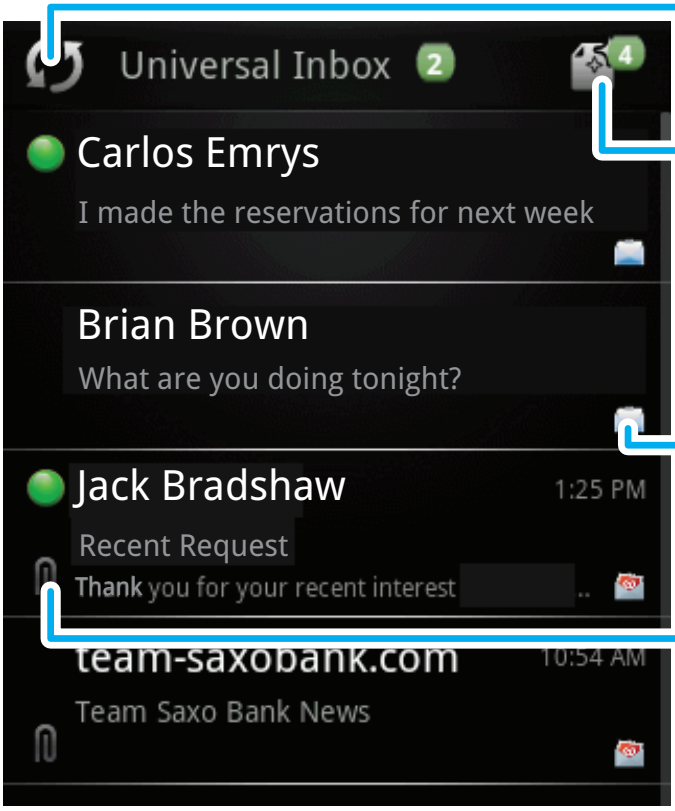
YFT

messaging

sometimes it's good 2 text, or IM, or email ...

messaging quick start

Find it: Messaging > Universal Inbox



Check for Messages Now

Create Message
Tap to create a new message, and see a list of your drafts (indicated by the number).

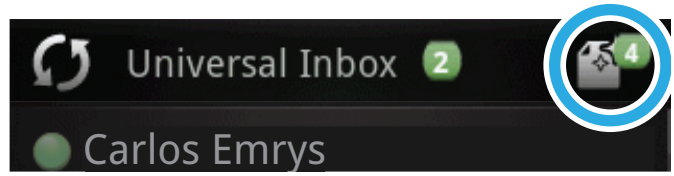
Message Type
Icons on the right indicate the message types.

Message Status
Icons indicate a message:
- is unread
- has attachments

Tip: To see more messages, flick or drag up.

create messages

Find it: Messaging >



Choose a message account. Then, enter the recipient and message. In text messages and emails, press for options like **Insert** or **Attach Files**.

Tip: To send text messages or emails to **Contacts**, tap , tap and hold the contact, then tap **Send text message** or **Email**.

set up messaging

Find it: **Messaging** >

- **Manage accounts** to change your user name or password (or server settings, for email).
- **Edit Universal accounts** to choose which accounts show their messages in the **Universal Inbox**.
- **Settings** to set the notification for each account type (along with other preferences, for email).

To add email or social networking accounts, tap **Manage accounts**, then press > **New Account**. For account details, contact the account provider.

voicemail

When you have a new voicemail, shows at the top of your screen. To hear the voicemail, tap **Dialer**, then tap and hold **1**.
