**MOTOROLA EX225** 

Note: When carrying the product or using it while worn on your body either use an approved accessory such as a holste or otherwise maintain a distance of 2.5 cm (1 inch) from the body to ensure compliance with RF exposure requirements. Note that the product may be transmitting even if you are not making a phone call.

## WELCOME

LET'S GO

MOTOKEY™ SOCIAL is a phone with exciting features including music, photo, video, browsing, and more—with an easy to use QWERTY keypad.

- Music. Instantly play your music. Just open your media player and select a playlist.
- Photos. Use your phone's camera to take photos and send them to your friends.

We've crammed all the main features of your phone into this handy guide, and in a matter of minutes we'll show you just how easy your phone is to use. You may be surprised at what you discover.

**Note:** Your phone may not appear exactly as the images in this guide.

Caution: Before assembling, charging, or using your phone for the first time, please read the important safety. regulatory and legal information in this guide.

SAFETY, REGULATORY & LEGAL

### **Battery Use & Safety**

Important: Handle and store batteries properly to avoid injury or damage. Most battery issues arise from improper handling of batteries, and particularly from the continued use of damaged batteries.

- Don't disassemble, crush, puncture, shred, or otherwise attempt to change the form of your battery. Don't let the mobile device or battery come in contact with liquids.\*
- iguids can get into the mobile device's circuits, leading to corrosion. Don't allow the battery to touch metal objects. If metal objects, such as iewelry, stay in prolonged contact with the battery contact points, the nattery could become very hot
- Don't place your mobile device or battery near a heat source.\* High emperatures can cause the battery to swell, leak, or malfunction.
- Don't dry a wet or damp battery with an appliance or heat source, such as a hair dryer or microwave over
- Do avoid leaving your mobile device in your car in high temperatures. Do avoid dropping the mobile device or battery.\* Dropping these items, especially on a hard surface, can potentially cause damage.
- Do contact your service provider or Motorola if your mobile device or battery has been damaged by dropping, liquids or high temperatures. \* Note: Always make sure that the battery compartment and any connector covers are closed and secure to avoid direct exposure of the battery to any of these conditions, even if your product information states that your **mobile**

device can resist damage from these conditions Important: Motorola recommends you always use Motorola-branded batteries and chargers for quality assurance and safeguards. Motorola's warranty does not cover damage to the mobile device caused by non-Motorola

non-original or counterfeit batteries (that may not have adequate safety protection). Motorola provides holograms on its batteries. You should confirm that any battery you purchase has a "Motorola Original" hologram If you see a message on your display such as **Invalid Battery** or Unable to Charge, take the following steps:

- Remove the battery and inspect it to confirm that it has a "Motorola Original" hologram: If there is no hologram, the battery is not a Motorola battery;
- If there is a hologram, replace the battery and try charging it again; If the message remains, contact a Motorola authorized service center. Warning: Use of a non-Motorola battery or charger may present a risk of fire,

Proper and safe battery disposal and recycling: Proper battery disposal is not Repetitive Motion batteries in many retail or service provider locations. Additional information on proper disposal and recycling can be found at www.motorola.com/

**Disposal:** Promptly dispose of used batteries in accordance with local regulations. Contact your local recycling center or national recycling organizations for more information on how to dispose of batteries. Warning: Never dispose of batteries in a fire because they may

### **Battery Charging** Notes for charging your product's battery:

- During charging, keep your battery and charger near room temperature for efficient hattery charging New batteries are not fully charged.
- New hatteries or hatteries stored for a long time may take more time to
- Motorola batteries and charging systems have circuitry that protects the battery from damage from overcharging

### Third Party Accessories

Use of third party accessories, including but not limited to batteries, chargers, headsets, covers, cases, screen protectors and memory cards, may impact your mobile device's performance. In some circumstances, third party accessorie can be dangerous and may void your mobile device's warranty. For a list of Motorola accessories, visit <u>www.motorola.com/products</u>

## **Driving Precautions**

Responsible and safe driving is your primary responsibility when behind the wheel of a vehicle. Using a mobile device or accessory for a call or other application while driving may cause distraction. Using a mobile device or accessory may be prohibited or restricted in certain areas, always obey the laws approved). In such areas, sparks can occur and cause an explosion or fire. and regulation's on the use of these products While driving, NEVER:

Enter or review written data

- Input navigation information.
- Perform any other functions that divert your attention from driving

### While driving, ALWAYS: Keen your eyes on the road

- Use a handsfree device if available or required by law in your area
- Enter destination information into a navigation device before driving. Use voice activated features (such as voice dial) and speaking features (such as audible directions) if available
- Obey all local laws and regulations for the use of mobile devices and accessories in the vehicle End your call or other task if you cannot concentrate on driving.
- Remember to follow the "Smart Practices While Driving" in this guide and at www.motorola.com/callsmart (in English only).

### Seizures/Blackouts

me people may be susceptible to epileptic seizures or blackouts when exposed flashing lights, such as when playing videos or games. These may occur even if a person has never had a previous seizure or blackout.

If you have experienced seizures or blackouts, or if you have a family history of uch occurrences, please consult with your physician before playing videos or games or enabling a flashing-lights feature (if available) on your mobile device. ontinue use and consult a physician if any of the following symptoms occur: convulsion, eve or muscle twitching, loss of awareness, involuntary movements. or disorientation. It is always a good idea to hold the screen away from your eyes. leave the lights on in the room, take a 15-minute break every hour, and stop use if

## **Caution About High Volume Usage**

hatteries and/or chargers. To help you identify authentic Motorola hatteries from may affect your hearing. The louder the volume sound level, the less time is required before your hearing could be affected. To protect your hearing:

- Avoid turning up the volume to block out noisy surroundings. Turn the volume down if you can't hear people speaking near you.
- If you experience hearing discomfort, including the sensation of pressure or fullness in your ears, ringing in your ears, or muffled speech, you should stop listening to the device through your headset or headphones and have your earing checked

For more information about hearing, see our website at direct.motorola.com/hellomoto/nss/AcousticSafety.asp (in English

liscomfort during or after such use, stop use and see a physician.

### Keep your mobile device and its accessories away from small children.

- monitor their access to help prevent exposure to inappropriate apps or content

from the head and hody

## Information from the World Health Organization

"A large number of studies have been performed over the last two decades to assess whether mobile phones pose a potential health risk. To date, no adverse health effects have been established for mobile phone use." Source: WHO Fact Sheet 193

## Further information: http://www.who.int/emf **European Union Directives Conformance**

Statement e following CE compliance information is applicable to Motorola mobile devices that carry one of the following CE marks:

Hereby, Motorola declares that this product is in compliance with: The essential requirements and other relevant provisions of Directive 1999/5/

· All other relevant EU Directives

Read and follow the directions from the manufacturer of your implantable medical device. If you have any questions about using your mobile device with your nnlantable medical device, consult your healthcare provider. IMEL: 250024/40/204724/0

## Regulatory Information

Your Motorola mobile device is designed to comply with national and international regulatory requirements. For full compliance statements and details, please refer to the regulatory information in your printed product guide.

### Specific Absorption Rate (ICNIRP) YOUR MOBILE DEVICE MEETS INTERNATIONAL GUIDELINES FOR

highest SAR values under the ICNIRP guidelines for your device model are listed

Head SAR	UMTS 2100 + Wi-Fi + Bluetooth	0.851 W/kg
Body -Worn SAR	UMTS 2100 + Wi-Fi + Bluetooth	0.889W/kg

During use, the actual SAR values for your device are usually well below the values stated. This is because, for purposes of system efficiency and to minimize interference on the network, the operating power of your mobile device is automatically decreased when full power is not needed for the call. The lower the Body-worn SAR testing has been carried out using an approved accessory or at a separation distance of 2.5 cm (1 inch). To meet RF exposure guidelines during

equipment See 47 CFR Sec. 15.21 For products that support W-Fi 802.11a (as defined in the product specifications available at <u>www.motorola.com</u>), the following information applies. This equipment has the capability to operate Wi-Fi in the 5 GHz Unlicensed National Information Infrastructure (LI-NII) hand. Because this hand is shared with MSS (Mobile Satellite Service) the ECC has restricted such devices to indoor use only (see 47 CFR 15 407(e)). Since wireless hot spots operating in this band have the same restriction, outdoor services are not offered. Nevertheless, please do not so by limiting your usage or simply using a hands-free kit to keep the device away operate this device in Wi-Fi mode when outdoors

# **Specific Absorption Rate (FCC)**

YOUR MOBILE DEVICE MEETS FCC LIMITS FOR EXPOSURETO RADIO WAVES.

Your mobile device is a radio transmitter and receiver. It is designed not to exceed the limits for exposure to radio waves (radio frequency electromagnetic fields) adopted by the Federal Communications Commission (FCC). These limits include a substantial safety margin designed to assure the safety of all persons, regardless of age and health. The radio wave exposure guidelines use a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit for mobile devices is 1.6 W/kg. Tests for SAR are conducted using standard operating positions with the device transmitting at its highest certified power level in all tested frequency bands. The highest SAR values

Head SAR	GSM 1900, Wi-Fi, Bluetooth	0.909 W/kg
Body Worn	SAR GSM 850, Wi-Fi, Bluetooth	1.33 W/kg

During use, the actual SAR values for your device are usually well below the values stated. This is because, for purposes of system efficiency and to minimize interference on the network, the operating power of your mobile device is automatically decreased when full power is not needed for the call. The lower the power output of the device, the lower its SAR value.

Body-worn SAR testing has been carried out using an approved accessory or at a separation distance of 2.5 cm (1 inch). To meet RF exposure guidelines during body-worn operation, the device should be in an approved accessory or positioned at least 2.5 cm (1 inch) away from the body. If you are not using an approved accessory, ensure that whatever product is used is free of any metal and that it positions the phone at least 2.5 cm (1 inch) away from the body. If you are interested in further reducing your RF exposure then you can easily do so by limiting your usage or simply using a hands-free kit to keep the device away from the head and body. Additional information can be found at www.motorola.com/rfhealth.
