SAFETY. REGULATORY & LEGAL

Battery Use & Safety

mportant: Handle and store batteries properly to avoid injury or damage. Most battery issues arise from improper handling of batteries, and particularly rom the continued use of damaged batteries.

- Don't disassemble, crush, puncture, shred, or otherwise attempt to change the form of your battery.
- Don't let the mobile device or battery come in contact with liquids. guids can get into the mobile device's circuits, leading to corrosion.
- Don't allow the battery to touch metal objects. If metal objects, such as jewelry, stay in prolonged contact with the battery contact points, the battery could become very hot
- Don't place your mobile device or battery near a heat source.* High emperatures can cause the battery to swell leak or malfunction.
- Don't dry a wet or damp battery with an appliance or heat source, suc as a hair dryer or microwave oven.
- Do avoid leaving your mobile device in your car in high temperatures.* Do avoid dropping the mobile device or battery.* Dropping these items,
- especially on a hard surface, can potentially cause damage.* Do contact your service provider or Motorola if your mobile device or battery has been damaged by dropping, liquids or high temperatures.
- Note: Always make sure that the hattery compartment and any connector covers are closed and secure to avoid direct exposure of the battery to any of these conditions, even if your product information states that your **mobile device** can resist damage from these conditions.

Important: Motorola recommends you always use Motorola-branded batteries and chargers for quality assurance and safeguards. Motorola's warranty does not cover damage to the mobile device caused by non-Motorola batteries and/or chargers. To help you identify authentic Motorola batteries from non-original or counterfeit batteries (that may not have adequate safety protection), Motorola provides holograms on its batteries. You should confirm

that any battery you purchase has a "Motorola Original" hologram.

If you see a message on your display such as Invalid Battery or Unable to Charge, take the following steps

- Remove the battery and inspect it to confirm that it has a "Motorola Original" hologram
- If there is no hologram, the battery is not a Motorola battery: If there is a hologram, replace the battery and try charging it again;
- If the message remains, contact a Motorola authorized service center. Warning: Use of a non-Motorola battery or charger may present a risk of fire,

explosion leakage or other hazard **Proper and safe battery disposal and recycling:** Proper battery disposal is not only important for safety, it benefits the environment. You can recycle your used When you repetitively perform actions such as pressing keys or entering finge batteries in many retail or service provider locations. Additional information on proper disposal and recycling can be found at www.motorola.com/

Disposal: Promptly dispose of used batteries in accordance with local regulations. Contact your local recycling center or national recycling organizations for more information on how to dispose of batteries. Warning: Never dispose of batteries in a fire because they may

Battery Charging Notes for charging your product's battery:

 During charging, keep your battery and charger near room temperature for efficient battery charging

 New batteries are not fully charged. New batteries or batteries stored for a long time may take more time to

 Motorola batteries and charging systems have circuitry that protects the battery from damage from overcharging.

Third Party Accessories

Use of third party accessories, including but not limited to batteries, chargers, headsets, covers, cases, screen protectors and memory cards, may impact your mobile device's performance. In some circumstances, third party accessories can be dangerous and may void your mobile device's warranty. For a list of Motorola accessories, visit <u>www.motorola.com/products</u>

Driving Precautions

Responsible and safe driving is your primary responsibility when behind the wheel of a vehicle. Using a mobile device or accessory for a call or other application while driving may cause distraction. Using a mobile device or accessory may be prohibited or restricted in certain areas, always obey the laws nd regulations on the use of these products

While driving, NEVER:

 Type or read texts Enter or review written data.

· Surf the web.

- Input navigation information
- Perform any other functions that divert your attention from driving. While driving, ALWAYS:
- Keen your eyes on the road
- Use a handsfree device if available or required by law in your area.
- Enter destination information into a navigation device before driving. Use voice activated features (such as voice dial) and speaking features (such as audible directions) if available
- Obey all local laws and regulations for the use of mobile devices and accessories in the vehicle
- End your call or other task if you cannot concentrate on driving. Remember to follow the "Smart Practices While Driving" in this guide and at www.motorola.com/callsmart (in English only).
- Seizures/Blackouts Some people may be susceptible to epileptic seizures or blackouts when exposed

to flashing lights, such as when playing videos or games. These may occur even if a person has never had a previous seizure or blackout If you have experienced seizures or blackouts, or if you have a family history of

such occurrences, please consult with your physician before playing videos or games or enabling a flashing-lights feature (if available) on your mobile device. Discontinue use and consult a physician if any of the following symptoms occur: convulsion, eye or muscle twitching, loss of awareness, involuntary movements. or disorientation. It is always a good idea to hold the screen away from your eyes, leave the lights on in the room, take a 15-minute break every hour, and stop use if

Caution About High Volume Usage Warning: Exposure to loud noise from any source for extended periods of time

may affect your hearing. The louder the volume sound level, the less time is required before your hearing could be affected. To protect your hearing: Limit the amount of time you use headsets or headphones at high volume.

- Avoid turning up the volume to block out noisy surroundings. Turn the volume down if you can't hear people speaking near you. If you experience hearing discomfort, including the sensation of pressure or
- fullness in your ears, ringing in your ears, or muffled speech, you should stop listening to the device through your headset or headphones and have your
