Seizures, Blackouts & Evestrain

To reduce evestrain and avoid headaches, it is always a good idea to hold the screen a comfortable tance from your eyes, use in a well-lit area, and take frequent breaks. Some people may be susceptible to seizures or blackouts (even if they have never had one before) when

exposed to flashing lights or light patterns, such as when playing video games, or watching videos with ontinue use and consult a physician if any of the following symptoms occur: seizures, blackout

convulsion, eye or muscle twitching, loss of awareness, or disprientation f you or someone in your family has experienced seizures or blackouts, please consult with your physician before using an application that produces flashing-light effects on your mobile device.

Caution About High Volume Usage

exposure of human beings to RF energy. Warning: Exposure to loud noise from any source for extended periods of time may affect your hearing. T louder the volume sound level, the less time is required before your hearing could be affected. To protect RF Energy Operational Precautions

- Limit the amount of time you use headsets or headphones at high volume.
- Avoid turning up the volume to block out noisy surroundings Turn the volume down if you can't hear people speaking near you.
- f you experience hearing discomfort, including the sensation of pressure or fullness in your ears, ringing in your ears, or muffled speech, you should stop listening to the device through your headset or headphones and have your hearing checked

or more information about hearing, see our website at direct.motorola.com/hellomoto/nss/ AcousticSafety.asp (in Fnglish only).

When you repetitively perform actions such as pressing keys or entering finger-written characters, you may experience occasional discomfort in your hands, arms, shoulders, neck, or other parts of your body. If you continue to have discomfort during or after such use, stop use and see a physician.

Keep your mobile device and its accessories away from small children. These products are no toys and may be hazardous to small children. For example A choking hazard may exist for small, detachable parts.

- Improper use could result in loud sounds, possibly causing hearing injury. Improperly handled hatteries could overheat and cause a hurn
- Supervise access for older children. Similar to a computer, if an older child does use your mobile device, you may want to monitor their access to help prevent:
 - Exposure to inappropriate apps or content. Improper use of anns or content
- Loss of data.

Some parts of your mobile device may be made of class. This class could break if the product receives a substantial impact. If glass breaks, do not touch or attempt to remove. Stop using your mobile device until the glass is replaced by a qualified service center.

Operational Warnings Obey all posted signs when using mobile devices in public areas.

Potentially Explosive Areas

Potentially explosive areas are often, but not always, posted and can include blasting areas, fueling stations, fueling areas (such as below decks on boats), fuel or chemical transfer or storage facilities, or areas where the air contains chemicals or narticles, such as grain dust, or metal nowders When you are in such an area, turn off your mobile device, and do not remove, install, or charge batteries unless it is a radio product type especially qualified for use in such areas and certified as "Intrinsically Safe" (for example, Factory Mutual, CSA, or UL approved). In such areas, sparks can occur and cause an

explosion or fire

Radio Frequency (RF) Energy

Head SAR Your mobile device contains a transmitter and receiver. When it is ON, it receives and transmits RF energy. When you communicate with your mobile device, the system handling your call controls the power level at which your mobile device transmits Your mobile device is designed to comply with local regulatory requirements in your country concerning

For indoor use only

For optimal mobile device performance, and to be sure that human exposure to RF energy does not exceed lower the power output of the device, the lower its SAR value the guidelines set forth in the relevant standards, always follow these instructions and precautions:

- When placing or receiving a phone call, hold your mobile device just like you would a landline phone. If you wear the mobile device on your body, always place the mobile device in a Motorola-supplied or approved accessory (e.g., clip, holder, holster, case or arm band). If you do not use a body-worn accessory supplied or approved by Motorola, ensure that whatever product is used is free of any metal

 European Union Directives Conformance and that it positions the mobile device at least 2.5 cm (1 inch) away from the body.
- Using accessories not supplied or approved by Motorola may cause your mobile device to exceed RF energy exposure guidelines. For a list of Motorola-supplied or approved accessories, visit our website at: www.motorola.com.

RF Energy Interference/Compatibility Nearly every electronic device is subject to RF energy interference from external sources if inadequately

shielded, designed, or otherwise configured for RF energy compatibility. In some circumstances, your mobile device may cause interference with other devices.

Follow Instructions to Avoid Interference Problems Turn off your mobile device in any location where posted notices instruct you to do so, such as hospitals or

health care facilities.

In an aircraft, turn off your mobile device whenever instructed to do so by airline staff. If your mobile device offers an airplane mode or similar feature, consult airline staff about using it in flight.

Medical Devices

If you have a medical device, including an implantable medical device such as a pacemaker or defibrillate consult your healthcare provider and the device manufacturer's directions before using this mobile device. Persons with implantable medical devices should observe the following precautions: ALWAYS keep the mobile device more than 20 centimeters (8 inches) from the implantable medical

- device when the mobile device is turned ON OO NOT carry the mobile device in the breast pocket.
- Use the ear opposite the implantable medical device to minimize the potential for interference. Turn OFF the mobile device immediately if you have any reason to suspect that interference is taking

Regulatory Information

Your Motorola mobile device is designed to comply with national and international regulatory requirements. For full compliance statements and details, please refer to the regulatory information in your
