2 Scroll to the entry you want and touch .

EMERGENCY CALLS

number and touch . Your service provider programs one or more emergency

phone numbers that you can call under any circumstances, even when your phone is locked Emergency numbers vary by country. Your preprogrammed emergency number(s) may not work in all locations, and sometimes an emergency call cannot be placed due to network, environmental, or interference

Cool down

In very limited circumstances, such as where your phone has been exposed to extreme heat, you may see "Cool Down" messages. To avoid possible damage to your battery and phone, you should follow these instructions until the phone is within its recommended temperature range. When your phone is in "Cool Down" mode, only emergency calls can be made.

TIPS & TRICKS

Voicemail

Touch and hold 1. If your voicemail number is preset, you will connect.

Backlight time

To set how long your backlight stays on, touch o > Settings > Display settings > Screen auto-lock. Select how long your screen is idle until the screen dims.

Lock your phone

\triangle	Important safety information follows.
8	Do not dispose of your battery or mobile device in a fire.
	Your battery or mobile device may require recycling in accordance with local laws. Contact your local regulatory authorities for more information.

not dispose of your battery or mobile device with your household waste. See "Recycling" for more information.

Radio Frequency (RF) Energy

Your mobile device contains a transmitter and receiver. When it is ON, it receives and transmits RF energy. When you communicate with your mobile device, the system handling your call controls the power level at which your mobile device transmits Your mobile device is designed to comply with local regulatory requirements in your country concerning

For optimal mobile device performance, and to be sure that human exposure to RF energy does not exceed If you are interested in further reducing your RF exposure then you can easily do so by limiting your usage the guidelines set forth in the relevant standards, always follow these instructions and precautions:

 When placing or receiving a phone call, hold your mobile device just like you would a landline phone. If you wear the mobile device on your body, always place the mobile device in a Motorola-supplied or approved accessory (e.g., clip, holder, holster, case or arm band). If you do not use a body-worn accessory supplied or approved by Motorola, ensure that whatever product is used is free of any metal

European Union Directives Conformance

and that it positions the mobile device at least 2.5 cm (1 inch) away from the body. Using accessories not supplied or approved by Motorola may cause your mobile device to exceed RF energy exposure guidelines. For a list of Motorola-supplied or approved accessories, visit our website

Nearly every electronic device is subject to RF energy interference from external sources if inadequately shielded, designed, or otherwise configured for RF energy compatibility. In some circumstances, your mobile device may cause interference with other devices.

Follow Instructions to Avoid Interference Problems

device offers an airplane mode or similar feature, consult airline staff about using it in flight.

Turn off your mobile device in any location where posted notices instruct you to do so, such as hospitals or health care facilities In an aircraft, turn off your mobile device whenever instructed to do so by airline staff. If your mobile

Medical Devices

If you have a medical device, including an implantable medical device such as a pacemaker or defibrillate consult your healthcare provider and the device manufacturer's directions before using this mobile device. Persons with implantable medical devices should observe the following precautions: ALWAYS keep the mobile device more than 20 centimeters (8 inches) from the implantable medical

device when the mobile device is turned ON

DO NOT carry the mobile device in the breast pocket.

 Use the ear opposite the implantable medical device to minimize the potential for interference. Turn OFF the mobile device immediately if you have any reason to suspect that interference is taking

Regulatory Information

guidelines for your device model are listed below:

Your Motorola mobile device is designed to comply with national and international regulatory requirements. For full compliance statements and details, please refer to the regulatory information in your printed product quide.

Specific Absorption Rate (FCC & IC) YOUR MOBILE DEVICE MEETS FCC AND IC LIMITS FOR EXPOSURE TO RADIO WAVES

Your mobile device is a radio transmitter and receiver. It is designed not to exceed the limits for exposure to radio waves (radio frequency electromagnetic fields) adopted by the Federal Communications Commission (FCC) and Industry Canada (IC). These limits include a substantial safety margin designed to assure the safety of all persons, repardless of ane and health.

e radio wave exposure guidelines use a unit of measurement known as the Specific Absorption Rate, or AR. The SAR limit for mobile devices is 1.6 W/kg. Tests for SAR are conducted using standard operating positions with the device transmitting at its highest certified power level in all tested frequency bands. The highest SAR values under the FCC and IC This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1)

Head SAR	GSM 1900, Wi-Fi, Bluetooth	1.33 W/kg
Body-worn SAR	GSM 1900, Wi-Fi, Bluetooth	0.405 W/kg

During use, the actual SAR values for your device are usually well below the values stated. This is hecause, for numoses of system efficiency and to minimize interference on the network, the operating power of your mobile device is automatically decreased when full power is not needed for the call. The lower the nower output of the device, the lower its SAR value If you are interested in further reducing your RF exposure then you can easily do so by limiting your usage

or simply using a hands-free kit to keep the device away from the head and body.

Additional information can be found at www.motorola.com/rfhealth.

Specific Absorption Rate (ICNIRP)

Your mobile device is a radio transmitter and receiver. It is designed not to exceed the limits for exposure

duty-cycle, transmission modes (e.g., CDMA, GSM), and intended method of using the product (e.g., how YOUR MOBILE DEVICE MEETS INTERNATIONAL GUIDELINES FOR the product is held or used in proximity to the body). A change to any of these factors will invalidate the EXPOSURE TO RADIO WAVES FCC grant. It is illegal to operate a transmitting product without a valid grant.

to radio waves (radio frequency electromagnetic fields) recommended by international guidelines. The quidelines were developed by an independent scientific organization (ICNIRP) and include a substantial safety margin designed to assure the safety of all persons, regardless of age and health. The radio wave exposure quidelines use a unit of measurement known as the Specific Absorption Rate, or

SAR. The SAR limit for mobile devices is 2 W/ka. Tests for SAR are conducted using standard operating positions with the device transmitting at its highest the performance of location technology on your mobile device. certified power level in all tested frequency bands. The highest SAR values under the ICNIRP guidelines for your device model are listed below:

SAR	UMTS 1800 + Wi-Fi + Bluetooth	0.909 W/kg	network and th	
vom SAR	GSM 900 + Wi-Fi + Bluetooth	0.466 W/kg	Your mobile de	

During use, the actual SAR values for your device are usually well below the values stated. This is because for nurnoses of system efficiency and to minimize interference on the network, the operating power of your mobile device is automatically decreased when full power is not needed for the call. The ower the power output of the device, the lower its SAR value.

or simply using a hands-free kit to keep the device away from the head and hody Additional information can be found at www.motorola.com/rfhealth.

Statement The following CE compliance information is applicable to Motorola mobile devices that carry one of the following CE marks:

Only Indoor Use Allowed In France for Bluetooth and/or Wi-Fil

Hereby, Motorola declares that this product is in compliance with: The essential requirements and other relevant provisions of Directive 1999/5/F All other relevant FUI Directives

For products that support Wi-Fi 802 11a (as defined in your product information): This device is restricted to indoor use when operating in the 5.15 to 5.25 GHz (802.11a) Wi-Fi frequency band. The following gives an example of a typical Product Approval Number:

You can view your product's Declaration of Conformity (DoC) to Directive 1999/5/EC (to R&TTE Directive) at www.motorola.com/rtte (in English only). To find your DoC, enter the Product Approval Number from your product's label in the "Search" bar on the website.

FCC Notice to Users

The following statement applies to all products that bear the FCC logo on the product label. This equipment has been tested and found to comply with the limits for a Class R digital device, pursuan to part 15 of the FCC Rules. See 47 CFR Sec. 15.105(b). These limits are designed to provide reasonable

Annroval

protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no quarantee that interference will not occur in a narticular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Regrient or relocate the receiving antenna

Increase the senaration between the equipment and the receive Connect the equipment to an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio/TV technician for help.

This device may not cause harmful interference, and (2) this device must accept any interference received ding interference that may cause undesired operation. See 47 CFR Sec. 15.19(a)(3). itorola has not approved any changes or modifications to this device by the user. Any changes or difications could void the user's authority to operate the equipment. See 47 CFR Sec. 15.21. or products that support Wi-Fi 802.11a (as defined in your product information): This device is restricted to indoor use when operating in the 5.15 to 5.25 GHz (802.11a) Wi-Fi frequency band.

Software Notices

Warning against unlocking the bootloader or altering a product's operating system software: Motorola strongly recommends against altering a product's operating system, which includes unlocking the bootloader, rooting a device or running any operating software other than the approved versions issued by Motorola and its partners. Such alterations may permanently damage your product, cause your product to be unsafe and/or cause your product to malfunction. In such cases, neither the product nor any damage resulting therefrom will be covered by warranty nportant FCC information: You must not make or enable any changes to the product that will impact its

CC grant of equipment authorization. The FCC grant is based on the product's emission, modulation, and

transmission characteristics, including: power levels, operating frequencies and bandwidths, SAR levels,

What Does this Limited Warranty Cover? Motorola Mobility Inc. or its subsidiaries' warranty obligations are limited to the terms and conditions set

forth herein. Subject to the exclusions contained below, Motorola Mobility Inc or its subsidiaries "Motorola") warrant this Mobile Phone, and any in-box accessories which accompany such Mobile Phon Product*) against defects in materials and workmanshin, under normal consumer use, for a period of ON 1) YEAR from the date of retail purchase by the original end-user purchaser, or the period of time required by the laws of the country where the Product is purchased, whichever is longer ("Warranty Period"). Repairs made under this Limited Warranty are covered for the balance of the original Warranty Period, or 90 days from the date of service, whichever is longer. Any upgrade to the original product will be covered only for the duration of the original Warranty Period. This Limited Warranty is only available in the country where the Product was nurchased. Motorola may

provide service outside the country of purchase, to the extent that it is possible and under the terms and conditions of the country of purchase. This Limited Warranty applies only to new Products which are a) manufactured by or for Motorola as

identified by the "Motorola" trademark, trade name, or logo legally affixed to them; b) purchased by consumers from an authorized reseller or distributor of Motorola Products; and c) accompanied by this written Limited Warranty.

What Will Motorola Do?

f a covered defect or damage arises and a valid warranty claim is received within the applicable Warranty Period, Motorola, at its sole option, unless otherwise required by applicable law, will either (1) repair, at no charge the defect or damage using new used or reconditioned/refurbished functionally equivalent replacement parts; or (2) exchange the Product with a replacement Product that is new or which has been conditioned/refurbished or otherwise remanufactured from new or used parts and is functionally equivalent to the original Product; or (3) refund the purchase price of any Products covered by the terms and conditions of this Limited Warranty Products, parts and supporting documentation provided to Motorola as part of the warranty process, shall

become the property of Motorola, and may not be returned. When a replacement or refund is given, the

Product for which the replacement or refund is provided must be returned to Motorola and shall become the property of Motorola. Exclusions (Products and Accessories)

This warranty does not apply to: Consumable parts, such as batteries or protective coatings designed to diminish over time unless ailure has occurred due to a defect in materials or workmanship. As with all batteries, the maximum capacity of the battery will decrease with time and use: this is not a defect. Only defective batteries and natteries that leak are covered by this warranty

Cosmetic damage, including but not limited to scratches, dents, cracks or other cosmetic damage Damage caused by use with non-Motorola products. Defects or damage that result from the use of non-Motorola branded or certified Products, accessories or other peripheral equipment, including without limitation housings parts or software are excluded from coverage
