# HOME & APPS

*a few essentials*

## QUICK START: HOME SCREEN

Use your home screen for quick access to apps, search, and more. Download social networking apps (like Facebook™ or Twitter) to keep in touch.

You'll see the home screen when you turn on the phone or touch Home  from a menu:

- To open shortcuts or widgets, **touch** them. Touch Home  to return to the home screen.

When you open shortcuts or widgets, touch Menu  for options.

- To move or delete shortcuts or widgets, **touch and hold** them until you feel a vibration, then drag it to another spot, another panel, or  at the top.

In lists like **Contacts**, touch and hold list items for options.

- To add shortcuts, widgets, or wallpaper, touch and hold an empty spot until you see the menu. You can also add a folder to organize your shortcuts.
- To show more panels, **drag** or **flick** right or left. Touch and hold  to show panel thumbnails.

In lists like **Contacts**, drag or flick to scroll.

To change your ringtone, display brightness, and more, touch Menu  > **Settings** > **Sound** or **Display**. For details, see “**PERSONALIZE**” on page 19.

## APPS & UPDATES

You can find all of your apps in one place. From the home screen, touch  to open the app menu. To see all of your apps, flick left and right.

From the app menu, touch  **All apps** to view or create app groups.

Open and add groups.

Find new apps on Android Market™.

Create a new group.

Choose which group you want to view.

To close the app menu, touch Home  or Back .

## **BROWSE & INSTALL APPS**

Get all the fun games and cool apps you want! Android Market™ provides direct access to apps, games, and books that you can download and install on your smartphone.

**Find it:**  >  **Market**

Scroll to and touch the app you want to install. Then, touch **Install** (if app is free) or **Buy**.

New apps that you install are added to the app menu.

**Tip:** Choose your apps and updates carefully, from trusted sites like  **Market**, as some may impact your

smartphone's performance—see “**CHOOSE CAREFULLY**” on page 15.

**Note:** When installing an app, make sure you read the alerts that tell you what information the app will access. If you don't want the app to have access to this information, cancel the installation.

## RECENT APPS

Your smartphone remembers the apps that you used most recently. From the home screen, touch and hold Home  to show the most recent apps used. From the app menu, touch  > **Recent**.

## MANAGE & RESTORE APPS

From the home screen, touch Menu  > **Manage Apps**.

Touch an app in the list, then touch **Uninstall** (for apps you downloaded), **Clear cache**, or other options.

To reinstall apps from Android Market, touch  >  **Market**, then touch Menu  > **My apps**. Apps that you have previously purchased from Android Market are listed and available for download.

## CHOOSE CAREFULLY

Apps are great. There's something for everyone. Play, communicate, work, or have fun. But remember, choose your apps carefully. Here are a few tips:

- To help prevent spyware, phishing, or viruses from affecting your smartphone or privacy, use apps from trusted sites, like  **Market**.
- In **Market**, check the apps' ratings and comments before installing.
- If you doubt the safety of an app, don't install it.
- Like all apps, downloaded apps will use up memory, data, battery, and processing power—some more than others. For example, a simple battery level widget will use less than a streaming music player app. After installing an app, if you're not happy with how much memory, data, battery or processing power it's using, uninstall it. You can always install it again later.
- Just like web browsing, you may want to monitor childrens' access to apps to help prevent exposure to inappropriate content.
- Certain apps may not provide completely accurate information. Take care, especially when it comes to personal health.

## **UPDATE MY SMARTPHONE**

You can check, download, and install smartphone software updates using your smartphone, or using your computer:

- Using your smartphone:

You may get an automatic notification of an available update on your smartphone. Simply follow the instructions to download and install.

To manually check for updates, touch Menu  > **Settings** > **About phone** > **System updates**.

Your smartphone downloads any updates over your mobile network. Remember, these updates can be quite large (25MB or more) and may not be available in all countries. If you don't have an unlimited data plan, or mobile network updates are not available in your country, you can update using a computer.

- Using your computer:

On your computer, go to [www.motorola.com/myrazr](http://www.motorola.com/myrazr) and check the "Software" links. If an update is available, follow the installation instructions.

## PHONE STATUS & NOTIFICATIONS

In the status bar at the top of your screen, the right side shows phone status. The left side shows new messages or events (for details, flick the bar down).

	network strength		battery strength
	new voicemail		new text message
