INITIAL SETUP

Create or log in to your Google™ account to get access to all of your Google services, like Gmail™, Google Play™, and more. Registration is secure and only takes a few minutes. Your Gmail contacts are synced to your smartphone when you log in to your Google account.

To set up additional personal email accounts or a corporate email account, follow the on-screen instructions.

For more information about setting up accounts on your smartphone, see "**MANAGE ACCOUNTS**" on page 53.

WELCOME HOME TO MOTOROLA

Switching from an Apple™ or Blackberry phone? Get all your important information set up on your new Motorola smartphone in a few easy steps. The Welcome Home To Motorola application transfers contacts, email addresses, calendar meetings, events, tasks, music, playlists, photos, and videos from your old phone to your new Motorola smartphone.

To move information from your old phone to your Motorola smartphone:

1 Use your computer browser to navigate to www.markspace.com/welcomehome/, and download the free Microsoft® Windows® or Apple™ Macintosh™ version of the Welcome Home To Motorola application to your computer.

2 Install and run the application on your computer.

3 Follow the application instructions on your computer to transfer information from your old phone to your Motorola smartphone.

The Welcome Home To Motorola application will prompt you to connect your old phone to the computer with a USB cable, and backup the data you want to transfer.

Next, install the Welcome Home To Motorola app on your Motorola smartphone, connect the smartphone to your computer with a USB cable, then transfer and unpack the data onto the Motorola smartphone.

WI-FI CONNECT

To use a Wi-Fi network for even faster Internet access, touch the status bar at the top of the home screen and drag it down. Touch the **Wi-Fi networks available** notification to select a preferred network.

You can also touch Apps (:::) > ⚙ **Settings** > **Wi-Fi**, then touch the **Wi-Fi** power switch to turn it `ON`, to scan and connect to wireless networks. There's more in "**WI-FI NETWORKS**" on page 43.

WI-FI ENHANCED CONNECTIVITY

Conserve your monthly data allowance by switching from the Verizon network to a Wi-Fi network for your Internet connections.

When you use the browser or other Internet apps, your smartphone scans for Wi-Fi networks (even when Wi-Fi is turned off) and prompts you to switch to a Wi-Fi network. If you have a usage-based data plan, you can conserve your monthly data allowance by using a Wi-Fi connection.

COOL CONTENT & MORE

Browse hundreds of thousands of the coolest apps on the planet, and download the newest music, movies, books, magazine, and games, all from Google Play™. Touch Apps (⋮⋮⋮) > ▶ **Play Store**.

Download new apps with "**BROWSE & INSTALL APPS**" on page 15. You can install a microSD memory card in your smartphone, and load it up with photos, videos, and music from your computer (see "**MEMORY CARD & FILE MANAGEMENT**" on page 52).

USE & CHANGE YOUR HOME SCREEN

Shortcuts on the home screen are icons that open your favorite apps. *Widgets* are apps or tools that provide additional smartphone functionality and live content.

Some shortcuts (like **People**) have a quick view that you can open by flicking up or down on the shortcut—look for ◆ quick view arrows next to the shortcut.

To see other pages of shortcuts and widgets, flick the home screen left or right.

- **Add, reorder, or delete pages:** From your home screen touch Home △. Touch ✚ to add a page. Touch and hold an existing page, then drag it left or right to reorder. Drag a page up to **Remove**.

- **Add shortcuts & widgets:** Touch Apps ⊕, touch and hold an app or widget, then drag it to a spot on a home screen page.

- **Create shortcut folders:** To create a folder of shortcuts on your home screen, touch and hold a shortcut, then drag it on top of another shortcut. To add more shortcuts, drag them onto the folder. To name the folder, touch it and enter a name at the bottom.

- **Resize widgets:** You can resize some widgets—touch and hold a widget until you feel a

vibration, then release. Drag the blue diamonds at the edges to resize.

- **Move or delete shortcuts & widgets:** Touch and hold a shortcut or widget until you feel a vibration, then drag it to another spot, another page, or **Remove** at the top of the screen.

- **Change wallpaper:** Touch and hold an empty spot on the home screen.

Shortcuts in the *favorites tray* at the bottom of the home screen appear in all home screen pages. You can drag shortcuts or folders in or out of the favorites tray (except Apps ⊕) for instant access from any home page.

SEARCH

Touch the Google™ Search widget in the home screen (or touch Apps ⊕ > ⑧ **Search**), then start typing your search text.

Touch here to enter text.

Touch 🎤 to search by voice.

As you type, suggestions appear below the search field:

- To search for a suggestion, touch it.

- To add a suggestion to the search field, touch the arrow beside it.
- To search for the text in the search field, touch Q on the touchscreen keypad.

Add app group shortcut to home screen.

To add an app group shortcut to the home screen, touch its name in the apps screen and touch **Add to home**.

To close the apps screen, touch Home ⌂ or Back ⬅.

BROWSE & INSTALL APPS

One of the great things about a smartphone is the apps. Whatever you're into, whatever you want to do, there's probably an app that can help you. So, go to the place that has it all, Google Play™ Store, where you can choose from hundreds of thousands of apps.

Find it: Apps ⊕ > ▶ **Play Store**

Scroll to and touch the app you want to install. Then, touch **Install** (if app is free) or **Buy**.

New apps that you install are added to the apps screen.

Tip: Choose your apps and updates carefully, from trusted sites, like ▶ **Play Store**, as some may impact your smartphone's performance—see "**CHOOSE CAREFULLY**" on page 15.

Note: When installing an app, make sure you read the alerts that tell you what information the app will access. If you don't want the app to have access to this information, cancel the installation.

CREATE SHORTCUT FOLDERS

You can use home screen folders to logically group and store your app shortcuts in a single location.

To create a shortcut folder in the home screen, drag one shortcut onto another to put them both in a folder. To add other shortcuts, drag them onto the folder icon.

To name the folder, touch it and enter a name at the bottom.

RECENT APPS

Touch Recent apps ▭ to see the most recent apps you've used, then touch an app to re-open it.

Tip: To remove an item from the recent apps list, flick it left or right.

MANAGE & RESTORE APPS

Touch Apps ⊕ > ⚙ **Settings** > **Apps**.

Touch an app to see its file size, access permissions, and other details, then touch **Disable**, **Force stop**, **Uninstall** (for apps you downloaded), **Clear cache**, or other options.

To reinstall apps from Google Play, touch Apps ⊕ > ▶ **Play Store**, then touch Menu ⦙ > **My Apps**. Apps that you have previously purchased from Google Play are listed and available for download.

CHOOSE CAREFULLY

Apps are great. There's something for everyone. Play, communicate, work, or have fun. But remember, choose your apps carefully. Here are a few tips:

• To help prevent spyware, phishing, or viruses from affecting your smartphone or privacy, use apps from trusted sites, like ▶ **Play Store**.

- In ▶ **Play Store**, check an app's ratings and comments before installing.

- If you doubt the safety of an app, don't install it.

- Like all apps, downloaded apps will use up memory, data, battery, and processing power—some more than others. For example, a simple battery level widget will use less than a streaming music player app. After installing an app, if you're not happy with how much memory, data, battery or processing power it's using, uninstall it. You can always install it again later.

- Just like web browsing, you may want to monitor children's access to apps to help prevent exposure to inappropriate content.

- Certain apps may not provide completely accurate information. Take care, especially when it comes to personal health.

IMPORTANT CUSTOMER INFORMATION

Please be advised that many services and applications offered through this unique device are provided by Google™ and various application developers. If you use, link to, or download a Google service, or an application such as a non-Verizon Wireless location based GPS-type service, chat room, marketplace or social network from this device, you should carefully review the terms of such service or application. If you use any of these non-Verizon Wireless services or applications, personal information you submit may be read, collected, or used by the service or application provider and/or other users of those forums.

Motorola Mobility, Inc. and Verizon Wireless are not responsible for your use of those applications or information you choose to submit or share with others. Specific terms and conditions, terms of use, and privacy policies apply to those applications and services. Please review carefully any and all terms and conditions applicable to those applications and services including those related to any location-based services for any particular privacy policies, risks or waivers.

Your Verizon Wireless customer agreement terms and conditions and certain other specifically identified terms govern your use of any Verizon Wireless products and services.

UPDATE MY SMARTPHONE

You can check, download, and install smartphone software updates using your smartphone, or using your computer:

- Using your smartphone:

  You may get an automatic notification of an available update on your smartphone. Simply follow the instructions to download and install.

  To manually check for updates, touch Apps (:::) > ⚙ **Settings** > **About phone** > **System updates**.

  Your smartphone downloads any updates over your mobile network. Remember, these updates can be quite large (25MB or more) and may not be available in all countries. If you don't have an unlimited data plan, or mobile network updates are not available in your country, you can update using a computer.

- Using your computer:

  On your computer, go to www.motorola.com/myrazrhd and check the "Software" links. If an update is available, follow the installation instructions.

TRANSFER CONTACTS

Get all your contacts, all in one place. Here are a few helpful hints:

• Use Backup Assistant℠ Plus

Backup Assistant Plus is a free service from Verizon Wireless that saves your smartphone's contacts to a secure server. If your smartphone is lost or damaged, or if you upgrade to a new smartphone, Backup Assistant Plus will restore your contacts. From the home screen, touch Apps (:::) > 🔵 **Backup Assistant+** > **Backup Assistant Plus Contacts**, and then enter your password.

Note: Backup Assistant Plus is subject to specific terms of use. Results may vary based on backup schedule and other factors. See verizonwireless.com/baplus for more details.

• Use Gmail™

When you first set up your smartphone and sign in to your Google™ account, all your Gmail contacts are synced automatically with your People app. After that, your contacts stay in sync whether you make changes on your smartphone, from another device, or from a web browser. Most contact applications for mobile phones and email accounts allow you to export your contacts as a ".csv" file. You can then use Gmail to import the file. For more details, go to

www.motorola.com/transfercontacts or log in to your Gmail account on your computer and select "Help".

• More

There are other methods and tools to help you at www.motorola.com/transfercontacts.

LINK CONTACTS

You might have two or more contacts for the same person, maybe a Gmail contact who is also stored on your smartphone, or one friend with two email addresses. To combine these contacts:
