Battery Use & Safety

Comment: (Use this version of the statement for products with user removable batteries.) (ALL regions)

Your mobile device uses a removable battery.

Warning:

- Don't use tools, sharp objects, or excessive force to insert or remove the battery. This may damage the battery and may cause burning and injury.
- Don't try to take apart or fix your battery. This may damage the battery and may cause burning and injury.
- Don't crush, bend, or expose your battery or mobile device to heat or liquid. This may damage the battery and may cause burning and injury.

Battery Charging

Comment: (ALL regions)

Charge your Motorola mobile device using a compatible Motorola charger, another brand class 2 Limited Power Source USB charger that complies with USB 1.1 or 2.0 and complies with EN301489-34, EN60950-1 or equivalent, or a high-power USB port on a PC. Chargers that do not comply with these standards may be unsafe, and may cause slow charging, product damage, or reduced device performance.

- Your mobile device will not charge if the temperature is too high or low.
- Only use Motorola-approved batteries, which contain safety circuitry and are designed to give the best performance in your Motorola mobile device.

Third Party Batteries

Comment: (Use this statement for products with user removable batteries.) (ALL regions)

Using a non-Motorola battery may present a risk of fire, explosion, leakage, or other hazard. Motorola's warranty doesn't cover damage to the mobile device caused by non-Motorola batteries. For a list of Motorola accessories, visit www.motorola.com/us/consumers/Accessories/accessories,en_US,sc.html (in English only).

To help you identify authentic Motorola batteries from non-original or counterfeit batteries (that may not have adequate safety protection), Motorola provides holograms on its batteries. You should confirm that any battery you purchase has a “Motorola Original” hologram. If you see a message on your

mobile device such as **Invalid Battery** or **Unable to Charge**, take the following steps:

- Remove the battery and inspect it to confirm that it has a “Motorola Original” hologram;
- If there is no hologram, the battery is not a Motorola battery;
- If there is a hologram, replace the battery and try charging it again;
- If the message remains, contact a Motorola authorized service center.

Seizures, Blackouts, Eyestrain, & Discomfort

Comment: (ALL regions)

Prolonged use of any device may cause discomfort in hands, fingers, arms, neck, and other parts of your body, and may cause eyestrain and headaches. It is good practice to use your device in a safe area with comfortable ambient lighting, and take frequent breaks if you feel discomfort. Seek medical advice if symptoms persist.

In rare cases, flashing patterns or lights, for example in video games or movies, may cause seizures or blackouts. If you suffer any seizures or blackouts, or have a history of seizures, stop using your device and seek medical advice.

Caution about High Volume Usage

Comment: (ALL regions)

Warning: Exposure to loud noise from any source for extended periods of time may affect your hearing. The louder the sound, the less time is required before your hearing could be affected. To protect your hearing:

- Limit the amount of time you use headsets or headphones at high volume.
- Avoid turning up the volume to block out noisy surroundings.
- Turn the volume down if you can't hear people speaking near you.

If you experience hearing discomfort, including the sensation of pressure or fullness in your ears, ringing in your ears, or muffled speech, you should stop listening to the device through your headset or headphones and have your hearing checked.

Operational Warnings

Comment: (Use this statement for products with user removable batteries.) (ALL regions)

Obey all posted signs when using mobile devices in public areas.

Potentially Explosive Areas

Potentially explosive areas are often, but not always, posted and can include blasting areas, fueling stations, fueling areas (such as below decks on boats), fuel or chemical transfer or storage facilities, or areas where the air contains chemicals or particles, such as grain dust, or metal powders.

Turn off your mobile device before entering such an area, and do not remove, install, or charge batteries. In such areas, sparks can occur and cause an explosion or fire.

Symbol Key

Your battery, charger, mobile device, device display, user's guide, or packaging may contain symbols, defined as follows:

Radio Frequency (RF) Energy

Comment: (Note that the second sub-section is region and country specific, as described in the comments.)
(ALL regions)

Exposure to RF Energy & Device Operation

Your mobile device contains a transmitter and receiver of RF energy. It is designed to comply with regulatory requirements concerning human RF exposure.

For optimal device performance, and to stay within the RF exposure guidelines:

- Hold your mobile device normally at your ear when talking on it.
- When using the mobile device next to your body (other than in your hand or against your head), maintain a distance of 0.5 cm from your body to be consistent with how the mobile device is tested for compliance with RF exposure requirements.
- If you use your mobile device with a non-Motorola accessory case or holder, make sure the accessory maintains the required separation distance and has no metallic parts.

World Health Organization (WHO) Advice

Comment: (ASIA, applies to India only)

Organizations such as the World Health Organization and the US Food and Drug Administration have stated that if people are concerned and want to reduce their exposure they could use a handsfree accessory to keep the mobile device away from the head and body during phone calls, or reduce the amount of time spent on the mobile device.

Note: Motorola includes this guidance as a precaution, per the requirements of the Government of India. The scientific consensus is that there are no known RF health effects from the use of mobile devices.

Follow Instructions to Avoid Interference Problems

Turn off your mobile device in any location where posted notices instruct you to do so, such as hospitals or health care facilities.

In an aircraft, turn off your mobile device whenever instructed to do so by airline staff. If your mobile device offers an airplane mode or similar feature, consult airline staff about using it in flight.

Medical Devices

If you use an implantable pacemaker or defibrillator, or other medical device, consult your healthcare provider and the device manufacturer's directions before using this mobile device.

Persons with a pacemaker or defibrillator should observe the following precautions:

- ALWAYS keep the mobile device more than 20 centimeters (8 inches) from the pacemaker or defibrillator when the mobile device is turned ON.

- Use the ear opposite the pacemaker or defibrillator to minimize the potential for interference.
- Turn OFF the mobile device immediately if you have any reason to suspect that interference is taking place.

Radio-frequency energy — France

Comment: (EMEA, applies to France only)

According to the World Health Organization, “many studies have been carried out over the last twenty years to evaluate the risks that cell phones present to health. Up to now, the negative impact on health of using cell phones has not been proven” (Leaflet No. 193). In accordance with French regulations, we are obliged to include the following recommendations regarding precautionary measures: you can limit your exposure to radio-frequency energy a) by using your cell phone in areas with good network coverage, or b) by using a hands-free kit to keep your phone away from your head and body. In this latter case, pregnant women are advised to keep their cell phone away from their abdomen. It is also recommended that adolescents keep their cell phones away from the lower part of their abdomen.

Such alterations may permanently damage your product, cause your product to be unsafe and/or cause your product to malfunction. In such cases, neither the product nor any damage resulting therefrom will be covered by warranty.

Important FCC information: You must not make or enable any changes to the product that will impact its FCC grant of equipment authorization. The FCC grant is based on the product's emission, modulation, and transmission characteristics, including: power levels, operating frequencies and bandwidths, SAR levels, duty-cycle, transmission modes (e.g., CDMA, GSM), and intended method of using the product (e.g., how the product is held or used in proximity to the body). A change to any of these factors will invalidate the FCC grant. It is illegal to operate a transmitting product without a valid grant.

Location Services

Comment: (This statement is used for all handset products, irrespective of functionality.) (ALL regions)

Motorola mobile devices can provide information about their approximate location to applications, using sources including GPS, AGPS, and Wi-Fi. GPS (Global Positioning System) uses government-operated satellites that are subject to changes implemented in accordance with Department of Defense policy and the Federal Radio Navigation Plan. These changes may affect the performance of location technology on your mobile device. AGPS (Assisted Global Positioning System) uses your wireless service provider's network to improve GPS performance. Airtime, data fees, and/or additional charges may apply in accordance with your service plan. Contact your wireless service provider for details. Your mobile device can also use Wi-Fi signals to determine your approximate location, using information from known and available Wi-Fi networks.

Mobile devices transmit location-based information when connected to a wireless network or when using other location technologies like GPS. If you use applications that require location-based information such as driving directions, your mobile device will provide location information to them. These applications may share location information with third parties, including your wireless service provider, applications providers, Motorola, and other third parties providing services.

Emergency Calls

When you make an emergency call, the cellular network may activate the AGPS technology in your mobile device to tell the emergency responders your approximate location.

AGPS has limitations and **might not work in your area**. Therefore:

- Always tell the emergency responder your location to the best of your ability; and
- Remain on the call for as long as the emergency responder instructs you.

Navigation

Comment: (This statement is used for all handset products, irrespective of functionality.) (ALL regions)

If your Motorola mobile device provides navigation features, note that mapping information, directions, and other navigational data may contain inaccurate or incomplete data. In some countries, complete information may not be available. Therefore, you should visually confirm that the navigational instructions are consistent with what you see. All drivers should pay attention to road conditions, closures, traffic, and all other factors that may impact driving. Always obey posted road signs.

Privacy & Data Security

Comment: (ALL regions)

Motorola understands that privacy and data security are important to everyone. Because some features of your mobile device may affect your privacy or data security, please follow these recommendations to enhance protection of your information:

- **Keep software up to date:** If Motorola or a software/application vendor releases a patch or software fix for your mobile device that updates the device's security, install it as soon as possible.
- **Secure Personal Information:** Your mobile device can store personal information in various locations, including a SIM card, memory card, and phone memory. Be sure to remove or clear all personal information before you recycle, return, or give away your device. You can also backup your personal data to transfer to a new device.
Note: For information on how to backup or wipe data from your mobile device, go to www.motorola.com/support
- **Online accounts:** Some mobile devices provide a Motorola online account. Go to your account for information on how to manage the account, and how to use security features such as remote wipe and device location (where available).
- **Applications and updates:** Choose your apps and updates carefully, and install from trusted sources only. Some apps can impact your mobile device's performance and/or have access to private information including account details, call data, location details, and network resources.
- **Wireless:** For mobile devices with Wi-Fi features, only connect to trusted Wi-Fi networks. Also, when using your device as a hotspot (where available), use network security. These precautions will help prevent unauthorized access to your device.
- **Location-based information:** Mobile devices enabled with location-based technologies such as GPS, AGPS or Wi-Fi, can transmit location-based information. See "Location Services" for more details.

- **Other information your device may transmit:** Your mobile device may also transmit testing and other diagnostic (including location-based) information, and other non-personal information to Motorola or other third-party servers. Hearing Aid Compatibility in the US

Comment: (If necessary, update the menu navigation instructions to locate the hearing aid compatibility feature on the phone.) (NA and Puerto Rico only)

In the US, specific hearing aid compatibility (HAC) performance ratings can help clarify how certain wireless phones and hearing aids may perform together. HAC compliant wireless phones are capable of working with hearing aids that have a minimal immunity rating of at least 2. The immunity rating indicates how susceptible a hearing aid is to picking

up interference from a digital wireless phone. It can rate the performance of the hearing aid for either microphone and/or telecoil coupling. Some hearing aids are more immune than others to this interference noise, and phones also vary in the amount of interference they generate. The US performance rating system for HAC compliant wireless phones is as follows:

The "M" (microphone) indicates that the product has been tested and rated for acoustic coupling. The "T" (telecoil) represents that the product has been tested and rated for inductive coupling. The higher the "M" or "T" rating, the less likely the hearing aid user will experience interference when the hearing

aid is set to the respective microphone or telecoil mode. The highest values to date are 3 and 4 (e.g., “M4” or “M3/T3”).

To determine if a product is rated for HAC, please look for the HAC rating or logo on the phone’s packaging. For a list of current HAC models, visit www.motorola.com/hacphones.

Results will vary depending on the user’s hearing aid and hearing loss. If your hearing aid happens to be vulnerable to interference, you may not be able to use a rated phone successfully. Trying out the phone with your hearing device is the best way to evaluate it for your personal needs. To couple the device to your telecoil equipped hearing aid, switch your hearing aid to the “T” or telecoil setting. Then, enable the ‘Hearing Aid’ mode feature on your Motorola phone with the following sequence: Apps → **Phone** → **Menu** → **Settings** * **Calls** → **Hearing aids**.

Motorola Mobility hearing aid compatible phones have been tested and rated for use with hearing aids for some of the wireless technologies that it uses. However, there may be some newer wireless technologies used in this phone that have not been tested yet for use with hearing aids. It is important to try the different features of this phone thoroughly and in different locations, using your hearing aid or cochlear implant, to determine if you hear any interfering noise. Contact your service provider or Motorola for information on hearing aid compatibility. If you have questions about return or exchange policies, contact your service provider or phone retailer.

What does this Limited Warranty cover?

Motorola Mobility LLC, or its subsidiaries, ("**Motorola**") warrants to the original consumer purchaser ("**you**") that the Mobile Phone accompanying this warranty, and any in-box accessories which accompany it (the "**Products**"), will be free of substantial defects in material and workmanship for a period of 12 months from the date of original consumer purchase ("**Warranty Period**") provided that the Products are used for normal consumer purposes. Repairs made by Motorola or its authorized agent under this Limited Warranty ("**Warranty Service**") are covered for the balance of the original Warranty Period, or 90 days from the date of Warranty Service, whichever is longer. This Limited Warranty covers only a purchase of new Products from Motorola or an authorized reseller or authorized distributor of Motorola Products which are accompanied in-box by this written Limited Warranty. This Limited Warranty is personal to you and not transferable. No retailer or other third party is authorized to make any representations on behalf of Motorola or to modify this Limited Warranty.

Additional warranty coverage for those Products that contain the ShatterShield™ Display System: The ShatterShield™ display system is made up of 3 separate components; the display, embedded lens, and a consumer-replaceable protective lens. The display and embedded lens are warranted against shattering and cracking for four (4) years from the original date of consumer purchase. The consumer-replaceable protective lens is not covered by this Limited Warranty, but should always be in place to prevent scratches and other damage to the underlying components. All other limitations and exclusions contained in this Limited Warranty (see "**What is not covered**" section below), including scratches and other cosmetic damage,

intentional damage or abuse, and normal wear and tear, apply to the components of the ShatterShield™ display system.

FOR CONSUMERS WHO ARE COVERED BY CONSUMER PROTECTION LAWS OR REGULATIONS IN THEIR COUNTRY OF PURCHASE OR, IF DIFFERENT, THEIR COUNTRY OF RESIDENCE, THE BENEFITS CONFERRED BY THIS LIMITED WARRANTY ARE IN ADDITION TO ALL RIGHTS AND REMEDIES CONVEYED BY SUCH CONSUMER PROTECTION LAWS AND REGULATIONS. FOR A FULL UNDERSTANDING OF YOUR RIGHTS YOU SHOULD CONSULT THE LAWS OF YOUR COUNTRY, PROVINCE OR STATE.

What will we do if you make a claim under this Limited Warranty?

If you make a valid claim under this Limited Warranty, Motorola will, at its discretion, either (1) repair the Product using new, used, or reconditioned replacement parts; or (2) replace the Product with a new or 'like new' reconditioned Product that is the same or similar to the warranted Product; or (3) refund the purchase price. Repaired or replaced products will be returned to you in their original factory configuration, plus any applicable software updates, which may affect use and/or compatibility with third party applications (for which Motorola shall have no liability). Any refunded or replaced Product shall become the property of Motorola. To obtain service under this Limited Warranty, the claim should be made in the country where the Product was intended for sale; otherwise repair services are limited to the options available in the country where the service is requested.

Arbitration and Opt-Out

Comment: (ALL regions)

Any controversy or claim arising out of or relating to any Motorola product will be resolved by binding arbitration, instead of in court, unless you opt-out as explained below. The arbitration will take place in a location determined by the arbitrator as set forth in these terms (provided that such location is reasonably convenient for claimant), or a different location as may be mutually agreed upon by the parties. The arbitration will be conducted under the rules for commercial disputes set forth in the Comprehensive Arbitration Rules and Procedures of JAMS (“JAMS Rules and Procedures”). Judgment upon the award rendered by the arbitrator(s) may be entered in any court having jurisdiction thereof. The arbitrator shall be selected pursuant to the JAMS Rules and Procedures. The arbitrator will apply Illinois law consistent with the Federal Arbitration Act and applicable statutes of limitations, and shall honor claims of privilege recognized at law. In the event that the claimant is able to demonstrate that the costs of arbitration will be prohibitive as compared to the costs of litigation, Motorola will pay as much of the claimant’s filing and hearing fees in connection with the arbitration as the arbitrator deems necessary to prevent the arbitration from being cost-prohibitive.

If any part of this arbitration provision is deemed to be invalid, unenforceable or illegal (other than that claims will not be arbitrated on a class or representative basis), or otherwise conflicts with the rules and procedures established by

JAMS, then the balance of this arbitration provision shall remain in effect and shall be construed in accordance with its terms as if the invalid, unenforceable, illegal or conflicting provision were not contained herein. If, however, the portion that is deemed invalid, unenforceable or illegal is that claims will not be arbitrated on a class or representative basis, then the entirety of this arbitration provision shall be null and void, and neither claimant nor Motorola shall be entitled to arbitrate their dispute. Upon filing a demand for arbitration, all parties to the arbitration will have the right of discovery, which discovery shall be completed within sixty days after the demand for arbitration is made, unless further extended by mutual agreement of the parties.

THE ARBITRATION OF DISPUTES PURSUANT TO THIS AGREEMENT SHALL BE IN YOUR INDIVIDUAL CAPACITY, AND NOT AS A PLAINTIFF OR CLASS MEMBER IN ANY PURPORTED CLASS OR REPRESENTATIVE PROCEEDING. THE ARBITRATOR MAY NOT CONSOLIDATE OR JOIN THE CLAIMS OF OTHER PERSONS OR PARTIES WHO MAY BE SIMILARLY SITUATED.

Your right to reject: If you do not want this Arbitration provision to apply, you may reject it by sending a written rejection notice which describes this Arbitration provision, includes your name, address, phone number, device, and device serial number, and tells Motorola that you are rejecting this Arbitration provision to: Motorola Mobility LLC, 222 West Merchandise Mart Plaza, Suite 1800, Attn: Arbitration Provision Opt-Out, Chicago, IL 60654 or arbitrat@motorola.com. A rejection notice is only effective if it is signed and Motorola receives the notice within 30 days of purchase. If you do not reject this Arbitration provision within this 30 day time period, you will not be able to reject it at a later date. If you reject this provision, it does not affect your ability to use your Motorola product. If you do not reject this Arbitration provision, it will be effective as of the date of purchase.

FOR YOUR SAFETY, your installation must be fitted with an earth conductor. Otherwise, perform the modification with specialist personnel.

Recycling Mobile Devices and Accessories. Do not dispose of mobile devices or electrical accessories (such as chargers, headphones or batteries) in household waste or by burning.

The appropriate solution is to return mobile devices, batteries or accessories at any authorized Motorola dealer in your region or dispose of them in ECOMOTO program bins, which meet PNRS (Política nacional de resíduos sólidos — Brazilian national solid waste policy) requirements and other current legislation.

To access a list of the locations for safe disposal of mobile devices, batteries and accessories, refer to this page: www.motorola.com/recycling.

This product is RoHS compliant.

Instructions for Appropriate Environmental Disposal

1. Look for one of the recycling bins. You can check the locations of the bins here: www.motorola.com/recycling.
2. Remove the SIM Card and, if necessary, disable your cell phone with the operator.
3. Remove or delete your personal data from the cell phone.
4. Disconnect the cell phone before disposing of it in a recycling bin.

Recycling Packaging. All packaging from Motorola devices can be recycled and can be disposed of at selective collection points. Important: When disposing of your mobile device, battery or accessory in a recycling bin, you acknowledge and agree that you are giving the discarded items, irrevocably, permanently and irreversibly, to the reverse logistics system manager, and that any data that may be stored on the handset and/or accessories will be destroyed in the recycling process, so requests for recovery of this data cannot be met in any circumstances, with the manufacturers and/or third parties appointed by them being completely exempt from any type of liability or duty to provide compensation.

Seizures, blackouts, eyestrain & discomfort. Prolonged use of any device may cause discomfort in hands, fingers, arms, neck, and other parts of your body, and may cause eyestrain and headaches. It is good practice to use your device in a safe area with comfortable ambient lighting, and take

frequent breaks if you feel discomfort. Seek medical advice if symptoms persist.

In rare cases, flashing patterns or lights, for example in video games or movies, may cause seizures or blackouts. If you suffer any seizures or blackouts, or have a history of seizures, stop using your device and seek medical advice.

Medical devices. If you use an implantable pacemaker or defibrillator, or other medical device, consult your healthcare provider and the device manufacturer's directions before using this mobile device.

If you use a pacemaker or defibrillator, the FCC recommends that you observe the following precautions:

- ALWAYS keep the mobile device more than 20 centimeters (8 inches) from the pacemaker or defibrillator.
- Use the ear opposite the pacemaker or defibrillator to minimize the potential for interference.
- Turn OFF the mobile device immediately if you have any reason to suspect that interference is taking place.

Important: Some products contain magnets. Always keep products with magnets more than 20 cm. (8 in.) from medical devices, such as pacemakers, internal cardio defibrillators or other devices that can be affected by a magnetic field. Also, keep away from credit cards, ID cards and other media that use magnetically encoded information.

What does this Limited Warranty cover?

Motorola Mobility LLC, or its subsidiaries, ("Motorola") warrants to the original consumer purchaser ("you") that the Mobile Phone accompanying this warranty, and any in-box accessories which accompany it (the "Products"), will be free of substantial defects in material and workmanship for a period of 12 months from the date of original consumer purchase ("Warranty Period") provided that the Products are used for normal consumer purposes.

Note for Moto Mods owners: This warranty covers only the Moto Insta-Share Projector and Hasselblad True Zoom Moto Mods. Third-party Moto Mods are not covered by this warranty, but might be covered by a separate warranty that accompanies them.

This Limited Warranty is personal to you and not transferable. No retailer or other third party is authorized to make any representations on behalf of Motorola or to modify this Limited Warranty.

Additional warranty coverage for those Products that contain the ShatterShield™ Display System. Not all products contain the ShatterShield™

display system. To find out if your product does, please see the printed manual that came with it. The ShatterShield™ display system is made up of 3 separate components; the display, embedded lens, and a consumer-replaceable protective lens. The display and embedded lens are warranted against shattering and cracking for four (4) years from the original date of consumer purchase. The consumer-replaceable protective lens is not covered by this Limited Warranty, but should always be in place to prevent scratches and other damage to the underlying components. All other limitations and exclusions contained in this Limited Warranty (see "What is not covered" section below), including scratches and other cosmetic damage, intentional damage or abuse, and normal wear and tear, apply to the components of the ShatterShield™ display system.

FOR CONSUMERS WHO ARE COVERED BY CONSUMER PROTECTION LAWS OR REGULATIONS IN THEIR COUNTRY OF PURCHASE OR, IF DIFFERENT, THEIR COUNTRY OF RESIDENCE, THE BENEFITS CONFERRED BY THIS LIMITED WARRANTY ARE IN ADDITION TO ALL RIGHTS AND REMEDIES CONVEYED BY SUCH CONSUMER PROTECTION LAWS AND REGULATIONS. FOR A FULL UNDERSTANDING OF YOUR RIGHTS YOU SHOULD CONSULT THE LAWS OF YOUR COUNTRY, PROVINCE OR STATE.

Any refunded or replaced Product shall become the property of Motorola. To obtain service under this Limited Warranty, the claim should be made in the country where the Product was intended for sale; otherwise repair services are limited to the options available in the country where the service is requested.
