AT A GLANCE

the important bits, quick and easy

A CONFIDENTIAL
INFORMATION

CHARGE IT

let's get you up and running

Status Light
Red/Yellow = charging
Green = fully charged

While your headset is charging, you won't be able to use it.

Note: Your battery is designed to last the life of your product. It should only be removed by a recycling facility. **Any attempt to remove or replace your battery will damage your headset.**

CONNECT & GO

let's get you connected

There are two methods to pair your headset and phone—EasyPair and NFC (Near Field Communication).

When your headset successfully pairs with your phone, you hear “*pairing complete*”. When connected, you hear “*phone 1 connected*” and the indicator light rapidly flashes blue and purple.

EASYPAIR METHOD

- 1 Turn off any Bluetooth devices previously paired with your headset.
- 2 Turn on the Bluetooth feature on your phone.
- 3 Put the headset on your ear (see “**COMFORT**” on page 7 for help).
- 4 Turn on your headset (see “**TURN ON & OFF**” on page 6 for help).

The indicator light becomes steadily lit in blue and you hear “*Welcome to the Motorola Elite Flip. Ready to pair*”.

- 5 Follow the voice prompts to connect your phone to your headset.

Note: If prompted for the passkey, enter **0000**.

NFC METHOD

Using NFC (Near Field Communication), pairing is as simple as bringing the headset and phone close to each other.

Note: Your phone must support NFC to use this method. If not, use the "EASYPAIR METHOD" on page 4.

To pair and connect your headset with your phone, ensure your phone's display is on and touch the top of the headset to your phone.

new graphic (TBD)

- If your **headset is off** (boom closed), your headset turns on, pairs, and then turns off.
- If your **headset is on** (boom open), it pairs and connects with your phone.

Note: Use of NFC may vary slightly among phone types.

BASICS

standard features, advanced quality

TURN ON & OFF

To turn your headset on and off, flip the boom to the open (extended)/closed (folded) position.

CALLS

To...	
answer a call	Say "answer" or press the Call button.
reject a call	Say "ignore" or press and hold a Volume button until you hear a tone.
make a voice dial call	Press the Call button and you hear a tone.
redial last call	Press and hold the Call button until you hear a tone.
mute or unmute a call	Press the Smart button and you hear "mute on" or "mute off".
end a call	Press the Call button.
answer second incoming call	Press the Call button.

To...	
reject second incoming call	Press and hold a Volume button until you hear a tone.

Note: Using a mobile device or accessory while driving may cause distraction and may be illegal. Always obey the laws and drive safely.

Note: Some features and phone/network dependent.

Tip: When connected to two phones, follow the voice prompts to perform functions such as voice dial and redial on the desired phone.

COMFORT

You can choose the most comfortable fit with the on-ear hook, in-ear hook, or ear gels with no hook.

Note: Your headsets comes with the on-ear hook installed on the earpiece.

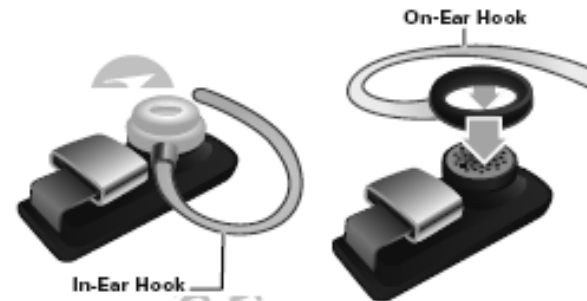

IN-EAR/ON-EAR HOOK

1 Rotate and turn your ear hook for left or right use.

Basics 7

2 Fit the proper ear hook onto your earpiece.

3 Flex the hook and loop it over your ear, and point the headset microphone towards your mouth.

EAR GEL

1 Remove on-ear hook from headset:

8 Basics

- 2 Choose a looped ear gel and fit it on the earpiece. Place it on your ear by placing the loop in the bend of your ear:

ADVANCED

more clever stuff

SECOND DEVICE

Using two phone? Or maybe a tablet and a phone? Pair with two devices.

- To use the NFC method to pair, see "**NFC METHOD**" on page 5.
- Before pairing the second device, turn off the Bluetooth feature of the previously paired device. Now pair your second device as normal, see "**CONNECT & GO**" on page 4.
- Once paired, to connect to both devices simply turn them on. You'll hear "*<phone x> connected*" as each device connects with your headset.
- To use headset features, such as voice dial, redial, and end call, with the desired device, just use the feature as normal and follow the voice prompts.

COOL FEATURES

Note: These features don't work for second incoming calls.

VOICE COMMANDS

Use your voice to answer or ignore an incoming call:

- say "answer" to answer the call
- say "ignore" to ignore a call

Note: Voice commands are in English only.

CALLER ID

If your phone knows your caller's number, then you hear "call from <number>" on an incoming call.

Note: Some features are phone/network dependent.

TALK TIME

check your chat time

Press and hold both Volume buttons while not on a call.

if light shows...	you hear...
red	"less than <x> minutes of talk time"
yellow	"less than <x> hours and minutes of talk time"
green	"More than <x> hours of talk time"

To save battery power, turn off the headset when you don't use it for an extended time.

STATUS LIGHT

Know your headset

if light shows...	your headset is...
three blue flashes	powering on/off
steady blue	pairing/connect mode

if light shows...	your headset is...
rapid blue/purple flashes	connection successful
quick blue flash	incoming/outgoing call on phone 1
quick purple flash	incoming/outgoing call on phone 2
slow blue pulse	connected (on a call)
slow blue flash	standby (connected to one phone)
slow green flash	standby (connected to two phones)
slow red flash	idle (not connected to a phone)
slow purple pulse	connected call muted
steady red	attempting to connect
quick red flash	low battery
steady purple	in settings mode

Note: After one minute on a call or 20 minutes of inactivity, the light stops flashing to conserve power, but the headset remains on. Closing the boom will also save battery life.

SETTINGS

make some changes

Press and hold the Call button while turning on the headset to turn these features on/off:

- Language
- Reset to factory default
 - Caution:** This action erases all pairing information stored in your headset.
- Caller ID
- Voice prompts
- Multipoint (two phone) connections
- NFC on/off
- WBA (Wide-band Audio) on/off

Follow the voice prompts to make changes to the these settings.

TROUBLESHOOTING

A few frequently asked questions—with answers of course. Find more at www.motorola.com/support.

My headset will not enter pairing mode.

Make sure that any devices previously paired with the headset are turned off. If the indicator light is flashing in blue, first turn off the other device, then turn the headset off and on. The indicator light becomes steadily lit in blue and you hear "ready to pair".

My phone doesn't find my headset when searching.

Make sure the indicator light on your headset is steadily lit in blue when your phone is searching for devices. If not, press and hold the Call button and both Volume buttons until you hear "Welcome to the Motorola Elite Flip. Ready to pair." and see the indicator light steadily lit in blue.

My headset will not pair with my phone.

If the indicator light is not steadily lit in blue when your phone is searching for your headset, you can reset the headset by pressing and holding the Call button and both Volume buttons until you hear "Welcome to the Motorola Elite Flip. Ready to pair." and the indicator light is steadily

To reset go to setting menu and select factory reset
