Memory Card & USB

Your phone comes with a removable memory card already installed. You need it for some features on your phone, like **Camera**.

To manage memory card files, touch ⊙ > 📁 **File Manager** > **Memory card**. Touch a file or folder to open, touch and hold a file to **Delete** or **Share**.

You can transfer your pictures, videos, music, ringtones and more, from your computer to the memory card in your phone:

1. Connect a Motorola micro USB data cable from your phone's micro USB port to a USB port on your computer.
2. Your phone should show 🔌 in the notification bar. Flick down the notification bar and touch 🔌 to choose a memory card connection. You should be able to access the memory card from your computer.

Icons & Battery Life

At the top of the screen, icons on the left notify you about new messages or events (flick the bar down for details). Icons on the right tell you about phone status:

🔵	Bluetooth® active	📶	network (full signal)
🛰	GPS active	📶	network (roaming)
📶	Wi-Fi active	G	GPRS (fast data)
⬇	downloading	E	EDGE (faster data)
📳	vibrate	3G	3G (fastest data)
🔇	silent	✈	flight mode
🔇	mute call	🔋	battery (charging)
📢	speakerphone active	🔋	battery (full charge)
⏰	alarm set	🔄	Google™ sync active

To get the most out of your battery, touch Menu ⊞ > **Settings** > **Battery Manager** > **Battery Profile**, then choose:

- **Performance Mode** for constant data transfer and battery use.
- **Battery Saver Mode** when your battery is low.
- **Smart Mode** if you want to set **Battery Profile Options** that limit your data and wireless connections during off-peak hours.

Be aware that the following could reduce battery life between charges:
- recording or watching videos, listening to music or taking pictures.
- widgets that stream information to your home screen, like news or weather.
