MOTOROLA TALKABOUT® EM1000 TWO-WAY RADIO SERIES

The Motorola Talkabout® EM1000 is the ideal emergency preparedness communication tool for outdoor enthusiasts and active families. With a range of up to 20 miles*, an emergency alert feature and flashlight, the EM1000 radios provide a convenient total emergency preparedness communication device — perfect for active outdoor excursions or life's every day adventures. Take a pair on your next trip to the mountains and stay connected without missing important emergency or weather alerts.

TOTAL EMERGENCY PREPAREDNESS

The EM1000 includes an emergency alert feature, allowing you to enjoy your escape to the great outdoors with confidence that others can be informed of any dangers that may come your way. When the alert button is activated, the radio transmits an alert siren followed by transmission of spoken or incidental sounds. This allows you to send the signal to other radios and warn of impending danger. The EM1000 also features a built-in LED flashlight for peace-of-mind during evening adventures or unexpected emergencies and power outages.

NOAA WEATHER CHANNEL

Want to keep in touch with changing weather conditions during your family camping adventure? No need to stop the fun — weather alerts will provide your group with warnings of incoming storms or dangerous conditions. And, by tuning in to one of 7 NOAA channels (National Oceanic and Atmospheric Administration) on your EM1000, you will always know what to pack with continuous local and regional weather broadcasting.

FULL-FEATURED PRIVACY

The Talkabout® EM1000 has full 22-frequency capacity with 121 privacy codes to reduce interruptions. The Motorola QT (Quiet talk) functionality allows the radios to be set so they can communicate with other compatible Motorola products, adding yet another level of distinction from the other manufacturers.

HANDS-FREE COMMUNICATION

When you are hiking up a steep mountain trail, you really need to keep your hands free to brace the rocky terrain. With iVOX acting like a speakerphone and allowing hands-free communication, you can keep on moving without stopping to answer a call.

EASY CHARGE - 4 WAYS TO CHARGE

Designed to fit every lifestyle, the EM1000 allows you the convenience of charging four distinct ways. Use the provided desktop charger at home or a mini-USB car cable on your way to soccer practice. Pack a mini-USB wall cable for recharge in the hotel during your family vacation or simply charge from your PC when no power outlet is available using a mini-USB PC cable. (Mini-USB car, wall and PC cables are sold separately.)

PRICING

MSRP for EM1000R is \$69.99 per pair.(NiMH)
Also available: Model EM1000AA with MSRP \$59.99 per pair (Alkaline).

FOR ADDITIONAL MEDIA INFORMATION, CONTACT: COLLEEN PHILBRICK, CPHILBRICK@BELLSOUTH.NET OR SAM LUEDER, S.LUEDER@HAUSERGROUP.COM AT HAUSER GROUP, OR CALL (404) 222-0600. FOR DEALER OR CONSUMER INQUIRIES, PLEASE CALL 1-800-638-5048.

*How far can I expect my radios to communicate? The communication range quoted is calculated under optimum conditions, with an unobstructed line of sight. Actual range will vary depending on terrain and conditions, and is often less than the maximum possible. Your actual range will be limited by several factors including, but not limited to, terrain, weather conditions, electromagnetic interference and obstructions.
