SAFETY AND WARNING !!! PLEASE READ !!!

INSTRUCTIONS PERTAINING TO A RISK OF FIRE, ELECTRIC SHOCK OR INJURY TO PERSONS

THE LIGHTING FLASH WITH ARROW SYMBOL WITHIN AN EQUILATERAL TRIANGLE IS INTENDED TO ALERT THE USER TO THE PRESENCE OF UN-ISOLATED DANGEROUS VOLTAGES WITHIN THE PRODUCTS ENCLOSURE THAT MAY BE OF SUFFICIENT MAGNITUDE TO CONSTITUTE A RISK OF ELECTRIC SHOCK TO PERSONS.

THE EXCLAMATION POINT WITHIN AN EQUILATERAL TRIANGLE IS INTENDED TO ALERT THE USER TO THE PRESENCE OF IMPORTANT OPERATING AND MAINTENANCE (SERVICING) INSTRUCTIONS IN THE LITERATURE ACCOMPANYING THE APPLIANCE.

IMPORTANT SAFETY INSTRUCTIONS SAVE THESE INSTRUCTIONS

WARNING - When using electric products, basic precautions should always be followed, including the following:

- Read all instructions before using the product.
- Do not use this product near water, i.e. a bathtub, sink, wet basement, or swimming pool.
- This product, in combination with other headphones and speakers, may be capable of producing sound levels that could cause permanent hearing loss. Do not operate for long periods of time at a high-volume level or any level that is uncomfortable. If you experience any hearing loss or ringing in the ears, consult a doctor.
- The product should be located away from heat sources such as radiators, heat resistors, or any other product that produces heat.
- The product should be connected to a designated power supply described in these instructions.
- The power supply cord should be unplugged when left unused for a long period of time.
- Care should be taken so that objects do not fall or liquids are not spilled into the enclosure through its openings.
- The product should be serviced by quality personnel when:
 1. The power supply cord or plug has been damaged
 2. Objects have fallen, or liquid has been spilled in the product
 3. The product has been exposed to rain
 4. The product does not appear to operate normally or exhibits a marked change in performance
 5. The product has been dropped, or the enclosure damaged
- Do not attempt to service the product beyond that described in the user-maintenance instructions. All other servicing should be performed by quality service personnel.

CAUTION

- Instructions are intended to alert the user to the risk of injury or material damage, should the unit be used improperly.
- Material damage refers to damage or other adverse effects caused with respect to the home and all its furnishings, as well as to domestic animals or pets.

**FCC STATEMENT**

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause interference, and
- (2) this device must accept any interference, including interference that may cause undesired operation of this device.

This transmitter must not be co-located or operated in conjunction with any other antenna or transmitter. The Bluetooth antenna cannot be removed (or replaced) by user. This equipment complies with FCC/ IC radiation exposure limits set forth for an uncontrolled environment and meets the FCC radio frequency (RF) Exposure Guidelines and RSS-102 of the IC radio frequency (RF) Exposure rules.

This equipment has very low levels of RF energy that it deemed to comply without maximum permissive exposure evaluation (MPE). But it is desirable that it should be installed and operated keeping the radiator at least 20 cm or more away from person's body (excluding extremities: hands, wrists, feet and ankles). Alteration or modifications carried out without appropriate authorization may invalidate the user's right to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help
