***Quick Guide***

EN DE FR IT ES NL PT SW DK TU PL GR RU FI TC

**Model No.: MBT-H120**  
**FCC ID: HWF-MBTH120**

**CE0678**

**FC** Tested To Comply With FCC Standards  
FOR HOME OR OFFICE USE

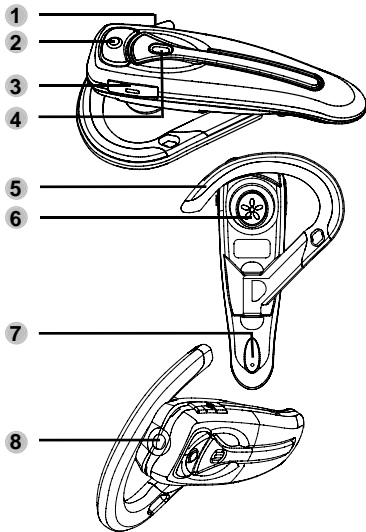

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference.
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the authority to operate equipment.

**BLUETOOTH HEADSET GETTING STARTED**

1. Volume Up / Pairing Button
2. Power / Talking Button
3. Volume Down
4. Indicator LED  
Red : Power Off  
Blue : Power On  
Red+Blue : Pairing mode
5. Earhook
6. Earphone
7. Microphone
8. DC-IN jack

### First time use:

Please charge the built-in Li-ion battery for **24** hours before the initial use.

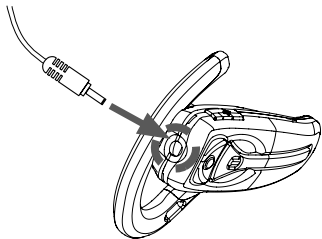

### Low battery:

When the battery is low, the indicator LED will **flash red**. Please charge the battery for approximately **2.5** hours.

### How to charge:

1. Connect one end of the supplied AC Adapter (**5V/0.5A**) to the DC IN jack on the headset and the other end to the wall outlet.
2. The indicator LED will **light red** when charging.
3. After fully charging the battery, the indicator LED will **light out**.

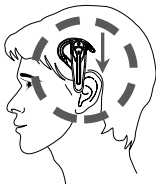

4. Remove the AC Adapter from the DC IN jack of the headset and the wall outlet.

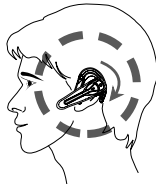

You can wear the headset on either ear with the reversible earhook.

### To wear on your left ear:

1. Wear the headset vertically on your left ear. *(Please refer to Figure 1)*
2. Rotate the headset toward the rear of your ear and point the microphone toward your mouth. *(Please refer to Figure 2)*

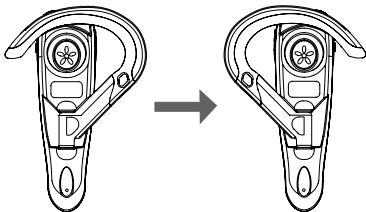

(Figure 1)

(Figure 2)

### To wear on your right ear:

1. Reverse the earhook to change its direction, and then follow the steps above to wear it on your right ear.

### **To power your headset on:**

Press the **Power** button for approximately **2** seconds until the indicator LED starts to **flash blue**. Then you can start to operate your headset.

### **To power your headset off:**

Press the **Power** button for approximately **2** seconds until the indicator LED starts to **flash red**. Once the indicator LED **stops flashing**, the power is **OFF**.

Before operating your headset with a Bluetooth phone, you must execute “Pairing” process to create a link between the devices.

To pair with a Bluetooth phone, please follow the instruction below:

- 1.** Ensure the headset is **ON** and enters the standby mode with **flashing blue LED once rapidly every 3 seconds**.

( **Note:** When powered on, the headset will attempt to connect to an available Bluetooth device. Please press the **Power** button to switch to the standby mode. )

- 2.** Press the **Volume Up** button for approximately **4** seconds until the indicator LED starts to **flash red**

**and blue alternately**, and enters the **EN** pairing mode.

- 3.** Search for Bluetooth devices by following the phone’s operating instruction.
- 4.** Select “**MBT-H120**” from the searched devices list and confirm it.
- 5.** Enter the passkey “**1234**” and confirm it.
- 6.** After finishing the pairing process, the indicator LED will **flash blue**.

( **Notes:**

- 1)** The operable range without obstructions is up to **10 meters (approximately 33 feet)** between your headset and the Bluetooth devices.
- 2)** Your headset can save the pairing information of up to **8** phones, but connect to only **one** phone at a time.

*If you have entered the passkey without previously pairing with another phone, the phone will be the “**default phone**” for your headset.*

*If you want to use another Bluetooth phone with your headset, please switch the headset off, then disconnect it from the previous phone. Next, pair with another phone once restarted as described in **page 7.** )*

### To answer or end a call:

When receiving a call, you will hear a ring tone through the headset's earphone. Press the **Power/Talk** button to answer or end a call.

### To make a call:

There are two ways to make a call:

**1.** Using your phone's keypad:

Press the **Number** button you want to call in your phone's keypad to make a call.

**2.** Using the “**Voice Dialing**” function through your headset:

- 1)** Record “**Voice Tags**” in your phone address book in advance.
- 2)** Ensure this function is **ON**.
- 3)** Press the **Talk** button, then say

the voice tag through your headset's microphone.

- 4)** After recognizing the correct voice tag, the phone number will be dialed automatically.

( **Note:** This feature is only available with a phone that supports the ‘Voice Dialing’ function. For details, please refer to your phone's user guide. )

### To redial the last call:

- 1.** Press the **Volume Down** button for approximately **2** seconds when no call is in progress.

### To reject a call:

- 1.** Press the **Power** button for approximately **2** seconds to reject an incoming call.

**While plugging in the charger:**

Indicator LED	Headset
Light Red	Charging
Light Out	Full Charge

**While unplugging the charger:**

Indicator LED	Headset
