CHARGING POCO

To charge Poco, plug the micro USB wire into the charge socket at the back of Poco.

You can connect the USB wire to any USB plug or computer for power. The red light under the power icon will double blink to indicate charging. When charging is complete the light will go off.

TURNING ON / OFF

To turn on Poco, press the > button for one second and then release. Poco will only power up once the button is released and will start to vibrate after a short delay.

To turn Poco off, simply hold down the same > button for two seconds.

SELECT YOUR VIBE

MANUALLY:

Use the arrow buttons on Poco to cycle through the vibes and use the plus and minus buttons to change the intensity manually.

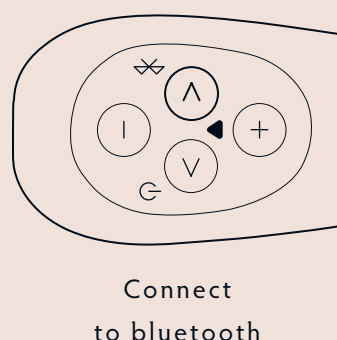

VIA THE APP:

Press and hold the < button for two seconds.

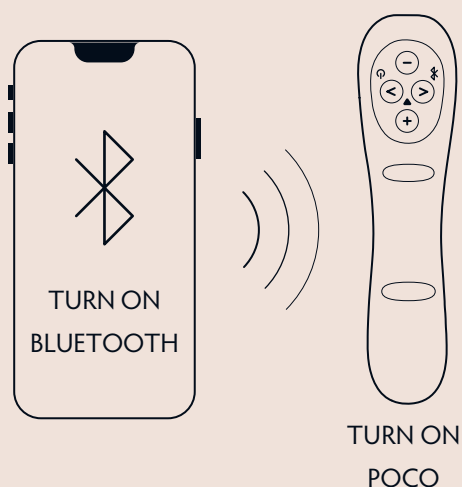

When ready for connection, Poco will vibrate twice and the blue light under the bluetooth icon will blink fast.

The app will then connect seamlessly with Poco. Once you have connected Poco to the app, you can use it to control Poco remotely up to a distance of 10 metres away. With an active bluetooth connection the blue light will blink occasionally.

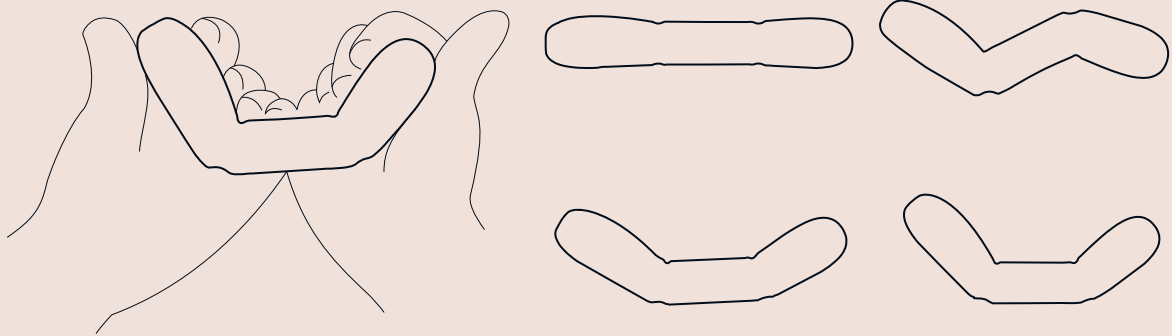

You can create and download new vibes on the app. Swipe up from the home screen to control Poco remotely or swipe down to go to the vibe library. Poco can hold up to 12 vibration patterns in memory on the vibrator. You can view, rearrange or swap them for different ones from the app.

You can see a video demonstrating how to use the app here: <https://youtu.be/itjt-xgbSpU?t=94>.

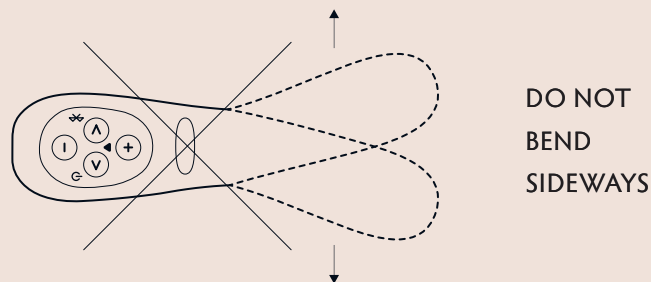

USING POCO

Poco is designed to be all about you - your body, your pleasure, your way (pocket sized). Simply bend Poco with your hands to take any shape your body desires. Use it for solo or couples play. Explore and discover new heights of pleasure - on the go.

To avoid damaging Poco, bend gently and make sure not to bend sideways.

Download our *MysteryPlaybook* at mysteryvibe.com/play and discover new ways to play with Poco.

WASH AND CARE

We recommend cleaning Poco before the first and after every use, either with soap and water, or a specialised toy cleaner. You can safely run Poco under the tap but we don't recommend completely submerging it in water as this may damage it.

REGISTERING YOUR WARRANTY

Register your Poco at MysteryVibe.com/register to activate your warranty and get exclusive discounts and offers.

Your warranty is valid for a year from the day you receive delivery.

SUPPORT

We really hope you enjoy your Poco. However, if you have any problems using it or if you have any questions or feedback then we would love to hear them so that we can help you. Please contact us on [**support@mysteryvibe.com**](mailto:support@mysteryvibe.com) and we will get back to you as quickly as possible.

We are always looking to improve our products so please let us know what you think of Poco - good or bad - and we will use this to make Poco even better in the future.

A Sensational Soar

Soar like an eagle with this spread eagle position using Poco to stimulate your clitoris while your partner penetrates you. With your legs spread wide, rest Poco against your vulva. Ease the tip inside on top of your partner's penis or dildo to create an extra "filled" sensation - just enough for a climactic landing.

Lone She-Wolf

Howl into the night as you use Poco to tease your clitoris. This lone position will have you ravenous for more... Multiply your orgasms with even more Poco sensation in alternative erogenous zones. Try roaming the vibrations over your nipples, across your neck, or curve it inside to reach your G-Spot. With this position, you can just lean back and enjoy seeing those orgasmic stars.

Hit The h-Spot

Forming an “h” with your bodies in doggy-style, upgrade the move with Poco stimulating the clitoris while the penetration of the penis or dildo hits the G-Spot at just the right angle. With the sumptuous vibrations on the external clitoris, the added internal sensations may even result in a body-shuddering combined orgasm.
