# Calling/Network Services

Making/Receiving Calls

Making a call

1 **From the application list screen, "Phone"**

2 **"Dial"**
- Tap "Favorites" to display contacts saved to Phonebook as favorites. → P.76

3 **Enter the phone number**
- If you enter a wrong number, tap ⌫ to delete the number.

■**Setting caller ID notification manually**

▶ ≡ ▶ "Caller ID notification" ▶ "Notify"/"Not notify"
- Alternatively, you can enter "186"/"184" before the number to notify/not notify your number.
  *For that call only.

■**Using Koe-no-Takuhaibin (P.79)**
▶ "Koe-no-Takuhaibin"

4 **"   📞   "**

5 **When the call is finished, "📞"**

NOTE

- Using an earphone/microphone or using the speaker for the other party (P.73) is recommended for calls.
- Touch and hold "＊" to enter a push signal (pause).

■**Emergency call**

Emergency call	Phone number
Police emergency	110
Fire brigade/Ambulance emergency	119
Maritime distress call	118

- The terminal supports "Emergency Location Report".
  Calls made to emergency service organizations (e.g. by dialing 110, 119 or 118) disclose information on the caller's location to the organization receiving the call. Depending on your location and signal conditions, the organization may not be able to accurately confirm your location.
  The location information and phone number are not disclosed when, before each individual call made, "184" or another blocking prefix is dialed first. If the information is deemed necessary for the protection of life, etc., this information may be acquired by the organization being called.

Locations/timing planned for adoption of this feature vary according to the status of the preparations by the relevant emergency service organizations.

● When calling 110, 119 or 118 from the terminal, first say you are calling from a mobile phone, give your number, and state your location clearly, because the police or fire department may call you back for confirmation.

Also, do not move around when making the call. Do not turn off the power immediately after ending the call, but leave it turned on for ten minutes or so, so that you can receive a call.

● Depending on the area you are calling from, you may not be connected with the nearest police or fire department, etc.

NOTE

● When you have locked the screen, you can make an emergency call without drawing screen unlock pattern and entering the lock number for each screen. On each screen, tap "Emergency call". The "Emergency Dialer" screen appears; you can make phone calls only to the emergency phone numbers.

● In Japan, the 110, 119, and 118 emergency numbers cannot be dialed from the terminal when the miniUIM is not set to it.

● In Japan, the 110, 119, and 118 emergency numbers cannot be dialed by tapping "Emergency call" from the PIN code input screen on startup. For details on PIN code, see "Security codes used with the terminal" (P.99).

Making an international call (WORLD CALL)

WORLD CALL is an international phone service that can be used from DOCOMO mobile phones. Customers who have subscribed to the FOMA service would also have automatically subscribed to "WORLD CALL" at the same time (excepting those who have declined it).

● For details on WORLD CALL, refer to DOCOMO "International Services website".

● Using international dial assist → P.160

❶ From the application list screen, "Phone"

❷ "Dial"

❸ Touch and hold "0"
• A plus sign "+" appears.

❹ Enter the country code ▶ area code (city code) ▶ recipient's phone number ▶ " 　　📞　　 "

NOTE

● If the area code begins with "0", omit "0". However, "0" may be required for calling some countries or areas, such as Italy.

Receiving a call

❶ When a call is received, "Activate" ▶ "Accept"

■ **Declining a call**
▶ "Activate" ▶ "Reject"

■ **Putting an incoming call on hold**
▶ ☰ ▶ "On hold"
• The call is connected and immediately placed on hold.

❷ When the call is finished, " ☎ "

NOTE

● A call fee is incurred even for an incoming call placed immediately on hold.
● If you decline an incoming call when Voice Mail service or Call Forwarding service are set to Activate, the call is forwarded to the Voice Mail service center or the designated forwarding number.

In-call operations
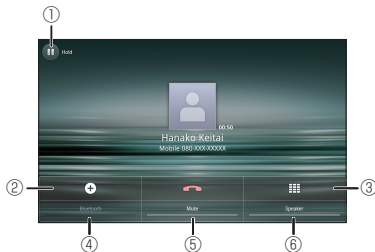

① Place on hold/take off hold.
② Place on hold and make other call. → P.83
③ Display dial pad.
④ Use Bluetooth function. Toggle on/off with each press. Available when connected to Bluetooth device compatible with a headset or handsfree.
⑤ Mute yourself to the other party. Toggle on/off with each press.
⑥ Hear the other party through the speaker. Toggle on/off with each press.

■ **Adjusting the volume**

Raises the volume

Lowers the volume
