Network Indicators

Your 4G LTE wireless device will display one of the following network indicators to let you know which of AT&T's wireless networks you are connected to.

-  : Connected to AT&T's 4G LTE network.
-  : Connected to AT&T's HSPA+ network.
-  : Connected to AT&T's EDGE / 2G network.

Limited 4G LTE availability in select markets. 4G speeds delivered by LTE, or HSPA+ with enhanced backhaul, where available. Compatible data plan required. LTE is a trademark of ETSI. Learn more at att.com/network.

A network indicator does not necessarily mean that you will experience any particular upload or download data speeds. Actual upload and download data speeds depend upon a variety of factors, including the device, network utilization, file characteristics, terrain, etc. Learn more at: wireless.att.com/learn/articlesresources/wireless-terms.jsp.
