RADAR function

The radar feature provided in the APP gives you a visual image on your smartphone showing the distance and movement of the object that you want to keep track of.

TAG DISTANCE

Remote shutter (SELFIE) function

Enter Remote Shutter function, you can use the 'smartag' button for photo taking.

Changing Battery

It is using CR 2016 standard battery. Pull out the battery door, remove the old battery and replace it with a new one. Please make sure the pole is correct. Slide in the battery door carefully and press/hold the button for 2 seconds to turn on the tag.

Care and maintenance Instructions:

When cleaning the unit, use only a dry soft cloth to wipe the unit. Never allow water or any other liquids to get inside the unit while cleaning. Do not use any cleaning agents containing alcohol, ammonia, benzene, or abrasives as this may harm the set.

Trouble Shooting

Symptom	Possible problem and solution
Cannot pair successfully	Check whether the tag is in power on and searching mode. Check whether there are too many Bluetooth receivers around your Bluetooth device. Turn them off to avoid any disturbance. And pair again.
The sound is small or distorted	Check the battery in your tag.
No sound from the tag when pressing the search button on the APP.	Check the bluetooth is connected and the battery is in good condition. Please reset the tag and pair again.
