

FCC Information that must be included in the User's Manual.

Omron is responsible for the design, manufacturing and FCC Type approval certification. The "Wireless Control Module" (WCM):

WCM Model #: 11541997

is tested and met the FCC requirements. It is FCC requirement that the following information be included in the user's manual.

"This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation."
