- How to use the Super Pump Bluetooth Earbuds:

- Charging: When charging, indicator light turns Red, it will turn to blue when completely charged.
- Volume Up or Next Track: Long press the "+" key to increase. Short press the "+" to play the next track.

- Volume down or Previous Track: Long press the "-" to decrease the volume. Short press the "-" to play the previous track.
- ON/OFF, Play/Stop, Answer/End Call: Short press to turn on the earbuds. When listening to audio, short press to Stop. Short press to Answer and incoming call. Double Press to refuse a call (A voice will trump ON/OFF actions as a confirmation).
- **How to connect with Bluetooth:**
 - Press the ON/OFF Button for about 4 seconds or until the LED Indicator flashes blue and red. A voice will prompt "Power ON", then you will hear a voice prompting "Bluetooth Mode" after few seconds. Once connected, voice will trump "connected".
 - In your selected Bluetooth enabled device, select "Super Pump" from the pairing list. Once selected, the devices are now paired, and are ready to use.
- **SAFETY INSTRUCTIONS:**
 - Keep out of reach of children.
 - Do not attempt to repair. Seek professional consultation if the headphones aren't working properly.
 - Do not insert objects into ports that are not USB cables.
 - Do not charge and use device at the same time.
 - Keep away from flame, water, or out of extreme temperatures.

FCC Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference.

(2) This device must accept any interference received, including interference that may cause undesired operation.

2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirements. The device can be used in portable exposure conditions without restriction.
