

# Quick Start Guide for Connector Mini Bridge

Product  
Certification

Mini Bridge allows user to link their motorized shutters, blinds, and curtains into Wi-Fi network, enabling control via smart APP and interaction with other IoT products.

## Step 1 Download APP

Please scan below QR code.

## Step 2

Please scan below QR code to learn more about link up Mini Bridge with home Wi-Fi router, setup Connector APP, and establish connection with other IoT applications.

### Program / Pairing:

Press and hold program button for about 2 seconds, then release until the LED blinks purple.

### Reset:

Press and hold program button for about 10 seconds, then release until the LED blinks red.

## Product Parameter

### Indoor use only

Wi-Fi: 2.4GHz (802.11b/g/n)

### Power Input:

DC 5V/1A (USB Type-A )

Radio frequency: 433.92MHz

Working temperature: 0°C ~ 40 °C

Dimension(mm): L83.8 \* W30.7 \* H13.9

## Status Indicator

### Color

— Constant Blue

— Slow Flashing Red

— Slow Flashing Yellow

•••• Quick Flashing Red

— Slow Flashing Purple

— Slow Flashing Green

### Meaning

Working fine

Wi-Fi is disconnected

Wi-Fi is connected

Bridge reset

Pairing underway

Upgrade in progress

### Duration

Constant

Continuously till status change

Continuously till status change

## Declarations

### U.S. Radio Frequency FCC Compliance

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

*Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.*

### ISED RSS Warning:

This device complies with Innovation, Science and Economic Development Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device. Le présent appareil est conforme aux CNR d'ISED applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes: (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

**FCC SAR Warning:**

RF Exposure Information (SAR): The SAR limit of USA (FCC) is 1.6W/Kg averaged over one gram of tissue.

Product Type: Connector (FCC ID: VYY1554A00) has also been tested against this SAR limit. The device was tested for typical body-worn operations to keep the Connector at least 5mm from the body. When worn on body must be correct back clip for this product, use of non-approved accessories may result in exposure levels which exceed the uncontrolled environmental RF exposure limits.

**ISED SAR Warning:**

The SAR limit of IC is 1.6W/Kg averaged over one gram of tissue.

Product Type: Connector, model number: DD1554 and RF (IC: 21396-DD1554) has also been tested against this SAR limit. The device was tested for typical body-worn operations to keep the Connector at least 5mm from the body. When worn on body must be correct back clip for this product, use of non-approved accessories may result in exposure levels which exceed

the uncontrolled environmental RF exposure limits.

Type de produit: Connecteur, numéro de modèle: DD1554 et RF (IC: 21396-DD1554) a également été testé par rapport à cette limite SAR. L'appareil a été testé pour des opérations typiques portées sur le corps afin de maintenir le connecteur à au moins 5 mm du corps. Lorsqu'il est porté sur le corps, le clip arrière doit être correct pour ce produit, l'utilisation d'accessoires non approuvés peut entraîner des niveaux d'exposition qui dépassent les limites d'exposition aux RF environnementales non contrôlées.
