

QUICK START GUIDE

WELCOME!

Thank you for choosing NVIDIA® SHIELD™.

The following equipment is included in the SHIELD box.

To charge your SHIELD, connect the included USB cable to the micro-USB port on the back side of the device.

TIP: For the fastest charging time, NVIDIA recommends using the included USB cable and AC adapter.

SETUP

1. Press the **NVIDIA button** to power on your SHIELD.

2. The SHIELD device tutorial will walk you through some basic button and overview functions.

3. Once you finish the SHIELD device tutorial, follow the instructions in the Android setup wizard to connect to your Wi-Fi and log-in to your existing Google account. If you don't have an existing Google account, you have the option to create one.

TIP: Use either the **touch screen display** or the **physical controls** to navigate and type.

TEGRAZONE

After setup is complete, you can press the **NVIDIA button** at any time to launch TegraZone to play SHIELD games, find new games, and stream games from your GeForce GTX PC.

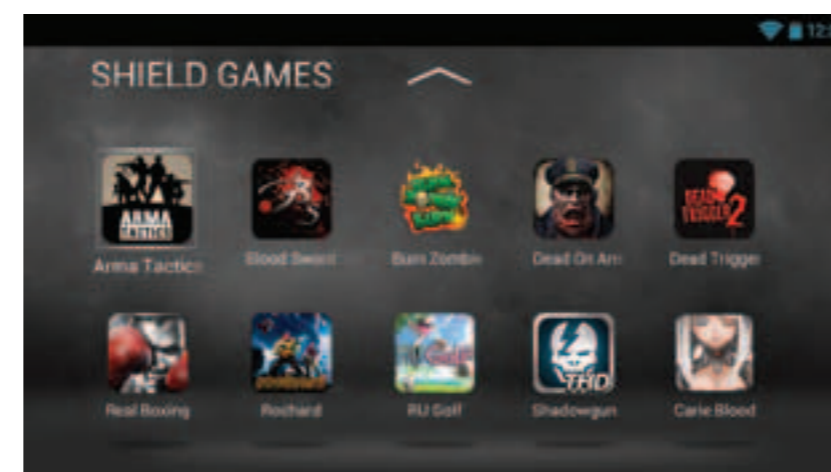

TIP: Navigate through TegraZone using the **d-pad** or **left stick**. Jump to each section using the **bumpers**.

1. **SHIELD GAMES:** Recently played and downloaded SHIELD-optimized games will appear here.

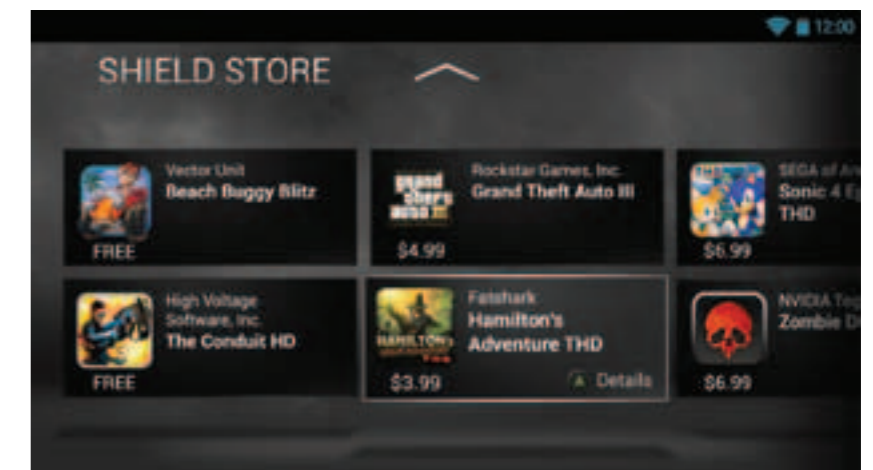

Press down **✓** to see all your installed SHIELD-optimized games.

2. **SHIELD STORE:** Browse and download the latest SHIELD-optimized games.

Press down **✓** to see the complete library of available SHIELD-optimized Android games.

3. **PC Games:** Connect to your GeForce GTX PC here to stream PC games.

TIP: For GeForce game streaming system requirements and setup information, please visit shield.nvidia.com/pc.

Compliance

The NVIDIA SHIELD is compliant with the following regulations:

- ▶ Federal Communications Commission (FCC)
- ▶ Industry Canada (IC)
- ▶ Underwriters Laboratories (UL , cUL)

UNITED STATES

Federal Communications Commission (FCC)

FCC ID: VOB-P2450A.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- ▶ Reorient or relocate the receiving antenna.
- ▶ Increase the separation between the equipment and receiver.
- ▶ Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- ▶ Consult the dealer or an experienced radio/TV technician for help.

! WARNING: The FCC requires that you be notified that any changes or modifications to this device not expressly approved by the manufacturer could void the user's authority to operate the equipment.

Canada

Industry Canada (IC)
7361A-P2450A

CAN ICES-3(B)/NMB-3(B).

This device complies with RSS 210 of Industry Canada. Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Ce dispositif est conforme à la norme CNR-210 d'Industrie Canada applicable aux appareils radio exempts de licence. Son fonctionnement est sujet aux deux conditions suivantes: (1) le dispositif ne doit pas produire de brouillage préjudiciable, et (2) ce dispositif doit accepter tout brouillage reçu, y compris un brouillage susceptible de provoquer un fonctionnement indésirable.
