orbi ™

Quick Start Guide

NETGEAR®

Outdoor Orbi Overview

Before placing your Orbi outdoors, sync your Orbi indoors in an area near your Orbi router. You can move your Orbi outdoors after it syncs with your router.

You can place the Orbi a flat surface using the stand, or you can wall-mount it. For information about attaching the Orbi to a stand or wall-mounting it, see the other side of this document.

1. Top LED
2. Bottom LED
3. LED On/Off button
4. WPS On/Off button
5. Reset button
6. Power LED
7. Power On/Off button
8. DC Power connector

Manually Sync Your Outdoor Orbi With Your Orbi Router

1. Place your Orbi indoors in an area near your Orbi router.

   You can move your Orbi outdoors after it syncs with your router.

2. Connect your Orbi to a power source.

   The Power LED on the back of the Orbi lights. If the Power LED does not light, press the **Power On/Off** button.

3. Press the **WPS On/Off** button on the back of your Outdoor Orbi, and within two minutes, press the **Sync** button on the back of your router.

   The Orbi router's bottom LED turns off after the setup is complete.

Outdoor Orbi Sync LED Colors

The bottom LED on the Outdoor Orbi lights white while it attempts to sync with your Orbi router. After the bottom LED lights white, it lights one of the following colors for about three minutes and then turns off:

● **Blue**

The connection between the Outdoor Orbi and Orbi router is good.

● **Amber**

The connection between the Outdoor Orbi and Orbi router is fair. Consider moving the Orbi closer to the Orbi router.

● **Magenta**

The Outdoor Orbi was unable to connect to the Orbi router. Move the Outdoor Orbi closer to the Orbi router.
Package Contents
