

Quick Start Guide

NETGEAR Orbi App

Use the NETGEAR Orbi app to set up your Orbi network.

To find the app, scan a QR code or search for NETGEAR Orbi in the Apple App Store or Google Play Store. Launch the NETGEAR Orbi app on your mobile device and follow the onscreen instructions.

Note: If you don't own a mobile device, launch a web browser and visit orbilogin.com to set up your Orbi network.

Orbi Satellite LED Colors

After the satellite is powered on, the satellite's ring LED lights white while the satellite attempts to sync with the router, lights one of the following colors for about three minutes, and then turns off:

- **Blue**
The connection between the router and satellite is good.
- **Amber**
The connection between the router and satellite is fair. Consider moving the satellite closer to the router.
- **Magenta**
The satellite was unable to connect to the router. Move the satellite closer to the router.

Note: If the ring LED still lights magenta after about one minute, press the **Sync** button on the router and on the satellite. If the satellite successfully syncs with the router, the satellite's ring LED lights white then lights blue to indicate a good connection, and then turns off.

Support

Thank you for purchasing this NETGEAR product. You can visit www.netgear.com/support to register your product, get help, access the latest downloads and user manuals, and join our community. We recommend that you use only official NETGEAR support resources.

For the current EU Declaration of Conformity, visit http://support.netgear.com/app/answers/detail/a_id/11621/.

For regulatory compliance information, visit <http://www.netgear.com/about/regulatory/>.

See the regulatory compliance document before connecting the power supply.
