

Get Started

Welcome!

Thanks for choosing Sprint. This booklet helps you get started with your Sprint Spark™ capable* NETGEAR Fuse Mobile Hotspot. **ReadyNow** – For more help in getting up and running with your new device, take advantage of exclusive **Ready Now** resources at sprint.com/readynow. You can even schedule a one-on-one appointment at a Sprint Store near you. For ongoing support and resources, visit sprint.com/support. There, you'll find guides, tutorials, and more to help you get the most out of your device.

Note: Available applications and services are subject to change at any time.

* The Sprint Spark enhanced LTE network is available in select markets. Visit sprint.com/coverage for more information.

What's in the Box

Your Mobile Hotspot lets you set up and share an on-the-go Wi-Fi hotspot for up to 10 devices.

Before You Start

Insert the micro-SIM card and the battery

1. Remove the back cover using the thumb catch on the corner of the hotspot.
2. Insert the micro-SIM card.
3. Ensure that the micro-SIM card is seated securely.
4. Align the battery's contacts with those inside the battery compartment and gently press down until the battery is seated.
5. Replace the back cover.

Charge the Battery

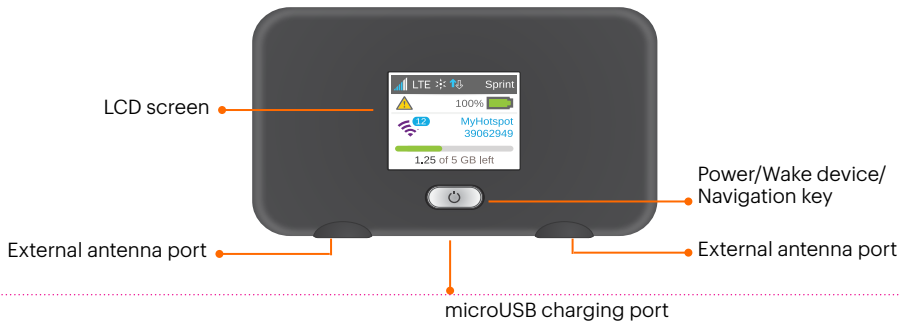

1. Insert the USB cable into the charging adapter.
2. Insert the small end of the USB cable into the microUSB charging port at the bottom of the hotspot.
3. Plug the charging adapter into a standard AC power outlet.

Get Ready

1. Make sure you are in an area covered by the Sprint network (not roaming).
2. Make sure the device you are trying to connect to your Mobile Hotspot has its Wi-Fi (wireless network connection) mode turned on.
3. Make sure your Mobile Hotspot is set up on your Sprint account. (Sign on to your account at sprint.com/mysprint to verify.)

Your Device

Get Connected

Power Up the Device

If the device is not powered on, press and hold the Power button on the front of the device for at least two seconds.

• The device will automatically activate.

Note: It can take several minutes for your device to connect with the Sprint network.

Connect to Your Device

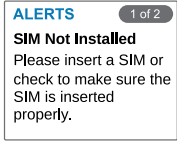

1. Turn on your Mobile Hotspot and your Wi-Fi enabled device.
2. Open the Wi-Fi application or controls on the computer or Wi-Fi enabled device that you want to connect to your Mobile Hotspot and find the Wi-Fi name.
3. When prompted, enter your Wi-Fi password to connect to the Internet.

Note: Your password appears on the Mobile Hotspot LCD display.

Main LCD Screens

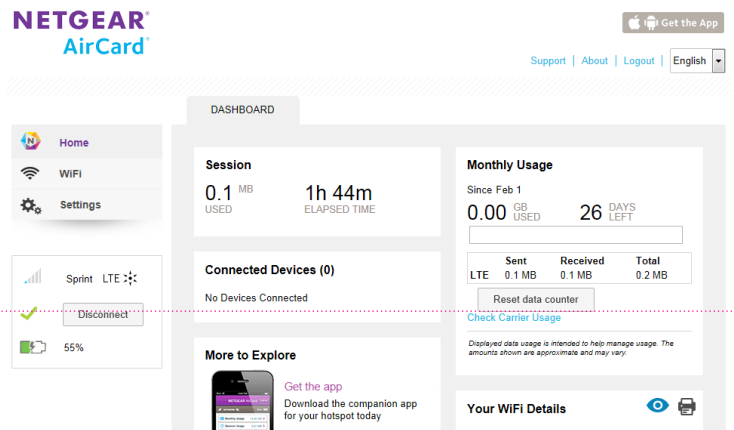

You can view basic settings and alerts on the LCD screen. Press the Navigation button to scroll through the following screens:

- WiFi name and password
- Alerts
- About your device

Web Interface

Manage, monitor, and customize your device settings by using the Mobile Hotspot Web-based interface.

1. On a computer connected to the Internet via the Mobile Hotspot, open a browser and type [final URL] or <http://192.168.1.1> into the address bar and press **Enter**. The Mobile Hotspot home page opens.
2. [Type your Mobile Hotspot Web Interface password in the Sign In field and click **Sign In** to display the home page.]
