

CAUTION-ELECTRICALLY OPERATED PRODUCT:
NOT RECOMMENDED FOR CHILDREN UNDER 8 YEARS OF AGE.
AS WITH ALL ELECTRIC PRODUCTS, PRECAUTIONS SHOULD BE
OBSERVED DURING HANDLING AND USE TO PREVENT ELECTRIC
SHOCK. INPUT: 120V AC 60Hz 250mA. OUTPUT: 14.4V DC 500mA.

OWNER'S MANUAL

Please read and understand all precautions prior to use.

Thank you for choosing a premium New Bright product.

Model / Modèle No. GR2

USA & Canada
30-Day Limited Warranty

New Bright Industries warrants to the original purchaser that this product will be free of defects in materials and workmanship for thirty (30) days from the date of purchase. In the event of such defect within the warranty period, New Bright will repair or replace the product at our sole discretion. This warranty does not cover damage resulting from unauthorized modifications, accident, misuse or abuse.

Should your item have a defect covered under this warranty, first call the toll free number listed below. Most problems can be resolved in this manner. If necessary, you will be issued a Return Authorization (RA) number and instructions on how to obtain a Product Return Form. The Product Return Form is to be used when returning a product to us (postage pre-paid and insured by the consumer).

When returning a defective product, please package the product, the Product Return Form and a copy of the dated sales receipt as proof of purchase. Be sure to mark the RA number on the Product Return Form. If the product is returned without a dated sales receipt it will be excluded from coverage under this warranty. Please allow 4 to 6 weeks for delivery of repaired or replacement vehicles (depending on your location).

New Bright Industries' liability for defects in materials and workmanship under this warranty shall be limited to repair or replacement at our sole discretion. In no event shall we be responsible for incidental, consequential or contingent damages (except in those states that do not allow this exclusion or limitation).

Valid only in the USA & Canada.

Battery Pack

Charging the Battery

IMPORTANT!

The included 12.8V Lithium Ion battery pack is only PARTIALLY CHARGED prior to shipment and it is recommended the battery be fully charged before first use.

1. Plug the Charger into a standard indoor electrical outlet.
2. Insert the 12.8V rechargeable battery pack securely into the charging cradle (as shown above). Be sure the arrows are properly matched.
3. When battery pack is properly inserted and charging unit is plugged into the outlet, the charging status light will turn on, indicating the battery is charging. After approximately one hour of charging the light will turn off, indicating that the battery is fully charged.
4. Charge will last approximately 15-20 minutes depending on terrain and driving style.

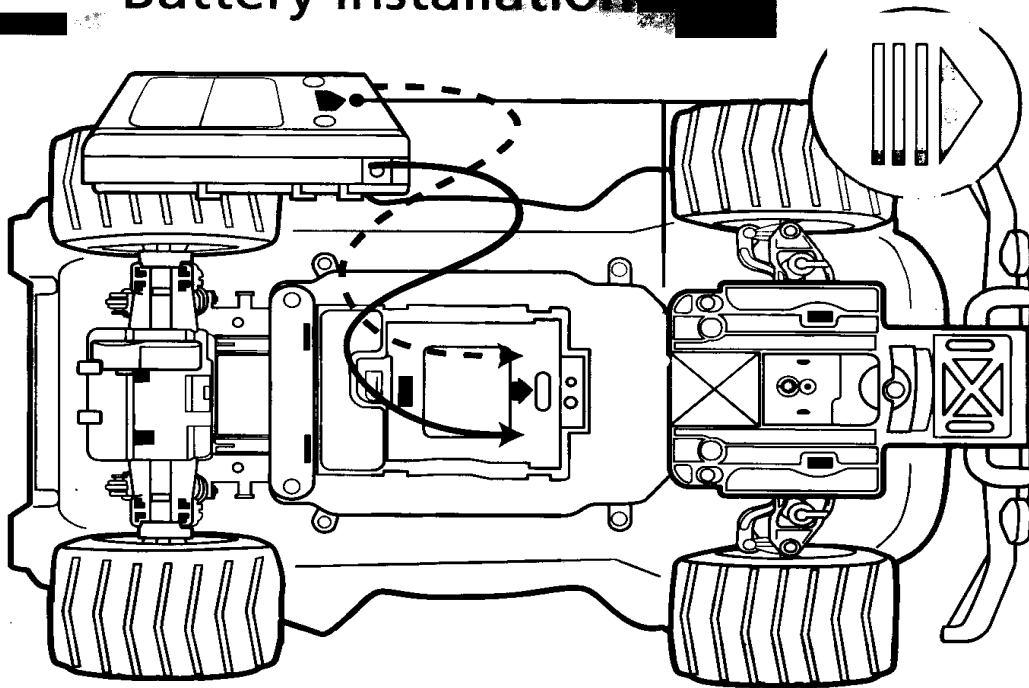

IMPORTANT: It is normal for the battery pack to become warm after charging and/or use. Be sure to allow the battery pack to cool before using or recharging. Recharging a warm battery pack will greatly reduce the battery life.

ATTENTION PARENTS:

- The Battery Charger & Battery Pack need to be periodically examined for potential hazards. Any potentially hazardous parts need to be repaired or replaced.

Vehicle

Battery Installation

Locate and align arrow on battery pack with arrow inside battery compartment.
Place battery pack in battery compartment and slide battery forward in direction of arrow.
Once in place, turn locking tab to keep battery pack secure.

If battery pack is not completely in place locking tab will not fully turn.

Vehicle

Features and Functions

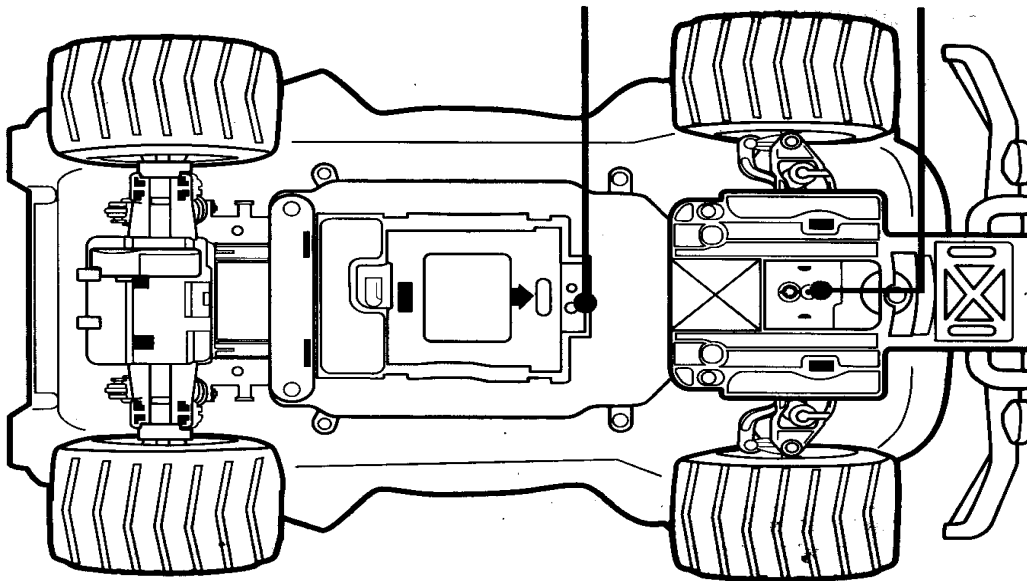

Power Button:

Press the ON/OFF switch button (on the bottom of vehicle) until light blinks.

Power Button
(See Section 7)

Wheel Alignment*
(Steering Trim)

- * If vehicle pulls to the left or right during forward driving the Steering Trim may need to be adjusted. The Steering Trim is located on bottom of chassis between the front wheels.
- * Vehicle will Automatically shut down after 30 minutes of inactivity to save battery life.

Transmitter

Battery Installation

1. Locate and remove the Battery Compartment Cover which is located on the front face of the Transmitter.

2. Insert 2 "AA" size batteries.
Make certain the positive (+) and negative (-) markings on the batteries are in the same position as the positive (+) negative (-) markings inside the Battery Compartment.

3. Replace Battery Compartment Cover making certain that the Battery Compartment tab has "snapped" into the locked position.

Note: When replacing Transmitter batteries:

Do not mix old and new batteries.

Do not mix alkaline, standard or rechargeable batteries.

Use alkaline batteries only.

Transmitter

Features and Functions

Left/Right Steering

ON/OFF Switch

Battery Compartment

Forward/Reverse

Speed Control

Throttle Trim*

- * Locate the vehicle's ON/OFF switch on the underside of vehicle near the battery compartment. Move the ON/OFF switch to the "ON" position. If the vehicle's wheels move, the Throttle Trim may need to be adjusted. Turn the Throttle Trim dial on the transmitter until the wheels come to a stop.

Vehicle

Body Shell Removal

3

Locate the body pins on top of vehicle body.
Pull pins as shown and set aside.

Lift and remove body shell.

Proper Use

Precautions and Care

9

Switch vehicle OFF when not in use.

Brush areas where dirt gets trapped.

Wipe body with a soft rag or cloth.

Do not use chemicals or water to clean

Support

Trouble Shooting & Support

0

Problem - Vehicle does not move or moves slowly.

- Has the Battery Pack been installed in the vehicle?
- Has the rechargeable Battery Pack been fully charged?
- Are the metal contact tabs touching, rusty or dirty in the battery compartment?
- Make certain there are fresh alkaline batteries in the transmitter and that they have been installed in the correct position.
- Are the (+) and (-) markings on the alkaline batteries in the same position as the (+) and (-) markings in the Transmitter Battery Compartment?
- Are the (+) and (-) markings on the Battery Pack in the same position as the (+) and (-) markings in the Battery Compartment?
- Make certain the LED next to the ON/OFF switch under chassis is blinking.

Problem - Vehicle moves by itself or exhibits reduced range from the transmitter.

- Make certain there is no outside radio interference in your area. The best way to test this is to take the vehicle as far away from radio towers, electrical lines or tall buildings as possible to ensure no further radio interference will occur.

FCC CAUTION:

The manufacturer is not responsible for radio interference caused by unauthorized frequency modification to this equipment. Such modifications could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

New Bright

Cautions

Do not recharge Battery Pack if it is hot or warm to the touch. Allow Battery Pack to cool before recharging. Recharging a hot or warm Battery Pack will shorten the life of the Pack.

Do not recharge a Battery Pack if it appears to be damaged or leaking.

Always unplug Charger when not in use.

Always remove Battery Pack from Battery Compartment when not in use.

Do not dispose batteries in fire. Leakage, explosion and personal injury may occur.

Dispose of Lithium Ion Battery Pack properly.

Do not attempt to disassemble Battery Pack or Charger.

Do not use Battery Charger for any use other than instructed in this booklet.

Only an adult should charge Batteries.

Do not attempt jumps or tricks with this vehicle.

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.
