

6 Attach the Cel-Fi Unit to the wall mounted bracket.

6b Optional: Attach the Cel-Fi Unit to a ceiling mounted bracket.

To ensure ceiling mounting is as secure as possible, confirm that the mounting bracket posts are firmly inserted, and in the correct position.

Mounting Instructions for Cel-Fi PRO

Network Unit

Coverage Unit

Each Cel-Fi Device may be supplied with mounting brackets and hardware to mount both (or either) the **Coverage Unit** and the **Network Unit**.

NOTE: The brackets come equipped with screws and inserts for mounting in standard drywall. Before you install the mounts, make sure there are no wires or other objects, or metal plates, behind the drywall layer that will interfere with the inserts, screws, or mount, or mounted units.

NOTE: The **Network Unit** only has mounting holes on the back. The **Coverage Unit** has mounting holes on the bottom and on the back. The holes on the bottom of the **Coverage Unit** can be used for mounting the **Coverage Unit** on a ceiling. (See 6b)
