

## 2-Pack 1:14 Scale Jeep & Hummer

Thank you for purchasing your 2-Pack 1:14 Scale Jeep & Hummer from **RadioShack**. Each vehicle has a different frequency - 27MHz for the Hummer, 49MHz for the Jeep - so you and a friend can drive together. The headlights turn on as you drive forward and the taillights turn on in reverse.

### what's included

|                          |                 |
|--------------------------|-----------------|
| <b>Hummer</b>            | <b>Jeep</b>     |
| Vehicle Antenna Tube (2) | Transmitter (2) |
| Transmitter Antenna (2)  | User's Guide    |

Please read this user's guide before installing, setting up and using your new product

### RF emission information

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult your local **RadioShack** store or an experienced radio/TV technician for help.

If you cannot eliminate the interference, the FCC requires that you stop using your product. Changes or modifications not expressly approved by **RadioShack** may cause interference and void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

The carrier frequency .....27.145MHz/49.86MHz  
 Field Strength ..... <80 dBµV/m at 3m

Only use the antenna supplied with this product.

This radiocommunication device complies with all the requirements of Industry Canada Standard RSS-310.

Ce dispositif de radiocommunication rencontre toutes les exigences de la norme CNR-310 d'Industrie Canada.

### driving your vehicle

**1** Thread each vehicle's antenna wire through the supplied antenna tube. Then, insert the tube into the antenna tube holder on the vehicle's body.

**2** Screw each antenna into its transmitter. Extend to full height during use.

1. Slide **ON/OFF** on bottom of chassis to **ON**.
2. Use the transmitter's control levers to steer your vehicle, as shown at left.
3. Slide **ON/OFF** on the vehicle to **OFF** when you finish driving.

### Wheel Alignment

If your vehicle does not drive in a straight line when you release the right stick, adjust **WHEEL ALIGNMENT** on bottom of chassis. Push to L if the vehicle is pulling to the right or to R if the vehicle is pulling to the left.

### installing the batteries

#### In Your Transmitter

Insert one 9V battery (not supplied) in the battery compartment matching the polarity symbols (+ and -) marked inside.

#### In Your Vehicle

Turn off your vehicle. Insert six AA alkaline batteries (not supplied) in the battery compartment matching the polarity symbols (+ and -) marked inside.

### battery notes

- If you do not plan to use your vehicle for a week or more, remove the batteries. Batteries can leak chemicals that may damage electronic parts.
- Dispose of old batteries promptly and properly. Do not burn or bury them.
- Use only fresh batteries of the required size and recommended type.
- Do not mix old and new batteries, or batteries with different capacities or different chemistries.
- If your vehicle does not respond, drives slowly, or the range reduces, replace the batteries in your vehicle.

### safety and care

- Do not use your vehicle near devices with transmitters using the same frequency (27 or 49 MHz).
- If someone uses a CB nearby, it might interfere with the control of your vehicle. If this happens, move the vehicle away from the CB.
- Never play with the vehicle in the street.
- Be careful when you use the vehicle to avoid high-impact collisions with people and objects.

### limited go-day warranty

This product is warranted by **RadioShack** against manufacturing defects in material and workmanship under normal use for ninety (90) days from the date of purchase from **RadioShack** company-owned stores and authorized **RadioShack** franchisees and dealers. For complete warranty details and exclusions, check with your local **RadioShack** store.
