

The Ultratide, by Nixon. The World's smartest Surf watch.

An evolution in time and technology, Nixon's Ultratide is the product of official partnership with Surfline—the world's preeminent source for surf reports and surf forecasting—delivering real-time conditions for your favorite breaks via Bluetooth® technology. Tide, wave height, swell direction, wind direction and speed, water and air temperatures; all data provided by Surfline, so you'll never not know.

MOVEMENT: Custom-built digital module, with data provided by Surfline. It features a high resolution display that stays continuously updated with current Surfline forecast data for your favorite surf spots around the world. Choose from the thousands of surf spots in the Surfline network, and get 10 Surfline forecast data points displayed in easy to read format directly on the watch. Surfline Forecast data points are: Current Surfline rating, current surf height, current swell height(s), forecasted swell height(s), current swell direction(s), forecasted swell direction(s), current water temperature, current air temperature, current sky condition, and 48hrs of tide data with predicted time and height details in both imperial and metric values. All kept updated via Bluetooth connection to the Ultratide app on your smartphone.

CASE: 45mm wide, 100 meter, custom solid stainless steel case core with co-molded custom injection molded polyurethane and silicone casing, integrated pushers, and a prominent solid stainless steel bezel to protect the hardened mineral crystal.

BAND: 30-25mm tapered custom injection molded silicone band with water flow texture on bottom side, patented locking looper, and stainless steel buckle with stainless steel screw bar.

FEATURES:

NO CHARGING REQUIRED:

Throw away those pesky cables, the lithium coin cell battery requires no charging so you're ready for every session whether you planned on it or not.

ULTRA COMFORT:

Whale belly pattern on the back side of the band helps channel the water off your wrist.

PATENTED LOCKING LOOPER:

In a 400 year-old industry Nixon was the first watchmaker to patent a locking looper to make sure your watch stays on your wrist and not at the bottom of the ocean.

BLACK OR WHITE?

Easily invert between positive or negative display screens at your preference.

HIGH RESOLUTION DISPLAY:

Super crisp digital read out.

STRONG:

The solid stainless steel case and bezel means your Ultratide is rugged, tough and can withstand whatever Mother Nature throws at it.

POWERED BY SURFLINE

The global leader in surf forecasting for over 30 years

10X MORE LOCATIONS

The Ultratide features more locations for tide data than any other watch. The Nixon Supertide features 270 locations while the Ultratide features 2700 locations.

AUTO-GEOLOCATE

The Ultratide automatically locates the nearest surf spot to your current location.

CUSTOM SURF ALERTS

Create custom surf alerts for your favorite spots, and your Ultratide will alert you when the surf is good (or just how you like it) at your selected spots. Never miss an epic session.

ONE AND DONE

Use one touch setup to sync the watch to your phone. Easy companion app makes things simple and seamless.

SHARE YOUR SESSION

Find, follow, share. Tell your 1,000 (or more if you've got 'em) closest friends about your sessions with the Ultratide app.

CAUTION

**RISK OF EXPLOSION IF BATTERY IS REPLACED
BY AN INCORRECT TYPE.
DISPOSE OF USED BATTERIES ACCORDING
TO THE INSTRUCTIONS**
