Response

There is no hardware change in RRH from UMTS application to LTE application. Therefore, the document, *Alcatel-Lucent Remote Radio Head 2x60W – 850, 1900 MHz Site Preparation*, submitted in the initial FCC certification application under the AS5ONEBTS-26 for UMTS application, which was granted on March 26, 2012, is still usable for LTE application, though the equipment, including 850 2x60W RRH and BBU, needs to be for LTE technology.
