

Portable Bluetooth Speaker
USER MANUAL

Warning

- Never remove the casing of this apparatus.
- Never lubricate any part of this apparatus.
- Never place this apparatus on other electrical equipment.

Notice for the USA and Canada

This device complies with Part 15 of the FCC Rules and RSS standard of Industry Canada. Operation is subject to the following two conditions:

1. this device may not cause harmful interference, and
2. this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules and ICES-003 of Industry Canada. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Relocate the receiving antenna.
- Increase the separation between equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

RF Radiation Exposure Statement: This equipment complies with FCC's and IC's RF radiation exposure limits set forth for an uncontrolled environment. The antenna(s) used for this transmitter must be installed and operated to provide a separation distance of at least 20 cm from all persons and must not be collocated or operating in conjunction with any other antenna or transmitter. Installers must ensure that 20cm separation distance will be maintained between the device (excluding its handset) and users.

NOTE : This model is designed for use with Bluetooth wireless devices compatible with the **HFP, HSP, A2DP** and **AVRCP** streaming audio profiles. Refer to your Bluetooth device's user manual or technical support to determine if your Bluetooth

This product bears the selective sorting symbol for waste electrical and electronic equipment (WEEE).

This means that this product must be handled pursuant to European Directive 2002/96/EC in order to be recycled or dismantled to minimize its impact on the environment. For further information, please contact your local or regional authorities. **Electronic products not included in the selective sorting process are potentially dangerous for the environment and human health due to the presence of hazardous substances.**

Maintenance

- Place the unit on a level surface away from sources of direct sunlight or excessive heat.
- Protect your furniture when placing your unit on a natural wood and lacquered finish. A cloth or other protective material should be placed between it and the furniture.
- Clean your unit with a soft cloth moistened only with mild soap and water. Stronger cleaning agents, such as Benzene, thinner or similar materials can damage the surface of the unit.

WARNINGS & CAUTIONS

To reduce the risk of fire or electric shock, do not expose the BSP-002 to rain or moisture. The BSP-002 should not be exposed to dripping or splashing, and objects filled with liquids, such as vases, should not be placed on or near it. Do not use near bathtubs, washbaths, kitchen sinks, laundry tubs, in a wet basement, near a swimming pool, or anywhere else that water is present. As with any electronic products, use care not to spill liquids into any part of the product. Liquids can cause a failure and/or a fire hazard. The power supply must be used indoors only. It is neither designed nor tested for charging outdoors, in recreation vehicles, or on boats. Make no modifications to the product or accessories. Unauthorized alterations may compromise safety, regulatory compliance, and system performance, and will void the warranty. Do not place any flame sources, such as lighted candles, on or near the BSP-002. The BSP-002 contains small parts that may be a choking hazard and is not suitable for children under age 3. Before use, fully charge the battery by connecting the unit to computer or universal USB mobile charger through the provided USB cable. Do not continue charging the battery if it does not reach full charge within the specified charging time. Overcharging may cause the battery to become hot, rupture, or ignite. If you see any heat deformation or leakage, properly dispose of the battery. Do not attempt to charge the battery in temperatures outside the range of 32°-104°F (0°-40°C). If the battery begins to leak, do not allow the liquid to come in contact with your skin or eyes. If contact has been made, wash the affected area with plenty of water and seek medical attention immediately. Do not expose the product or battery to excessive heat, including direct sunlight or fire and storage or use inside cars in hot weather, where it can be exposed to temperatures in excess of 115°F (60°C). Doing so may cause the battery and power supply to generate heat, rupture, or ignite. Using the product in this manner also may result in a loss of performance and a shortened life expectancy. Extended exposure to direct sunlight may damage the external appearance and material qualities.

WARNINGS & CAUTIONS

Do not step on, throw, or drop batteries or the power supply or device, or expose them to a strong shock. Do not pierce, crush, dent, or deform the batteries or power supply in any way. If either becomes deformed, properly dispose of it. Do not short-circuit batteries. Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way: such as power supply cord or plug is damaged; liquid has been spilled or objects have fallen into the BSP-002; the BSP-002 has been exposed to rain or moisture, does not operate normally, or has been dropped. Do not attempt to service the BSP-002 yourself. Opening or removing covers may expose you to dangerous voltages or other hazards and will void the manufacturer's warranty. To prevent risk of fire or electric shock, avoid overloading wall outlets, extension cords, or integral convenience receptacles. Do not place your BSP-002 on high surfaces such as shelves. During music playback the BSP-002 may vibrate and move which could cause the speaker to shift and fall off of the edge. Your Bluetooth device (mobile phone, music player, tablet, laptop, etc.) must support the A2DP Bluetooth profile in order to work wirelessly with your BSP-002 speaker. The A2DP profile is supported by most recent mobile products with built-in Bluetooth capability. Please refer to your device's user manual for details and instruction regarding the Bluetooth profiles it supports.

Getting Start

BSP-002 has a built-in rechargeable Li-Polymer battery. To charge the unit, please use the USB cable provided and connect it to a computer or a universal USB mobile charger. The red CHR indicator turns on while the battery is charging. The red indicator will turn off when the battery has fully charged (around 2 hours).

Controls and Indicators

1. module area
2. Function switch
3. Bluetooth indicator
4. Charge/ Aux in socket
5. Wrist Strap hole
6. Charge/ Aux indicator
7. Speaker Driver
8. Changeable Decoration ring

Listening to Bluetooth Music

In order to use this unit for music playback through Bluetooth, the unit must first be paired with the Bluetooth device.

Pairing:

1. Slide the **Function Switch** to **BT** mode. The blue BT indicator will flash for 20 seconds to search the last linked device. Then, the unit will search for Bluetooth devices within range. While in search mode, the Red and Blue BT indicator will flash alternately. (searching will stop when no device is found to be in range within two and a half minutes, the unit will go to sleep mode)
 2. Following the instructions on your device's user manual, activate Bluetooth on your device and search for devices. Once you have found "BSP-002", pair to the speaker. A pass code is not required.
 3. Once connected, the Bluetooth indicator will flash slower than before.
 4. Every time you power on this unit, it will pair with the last linked device when that device is in range.
- NOTE: If no device is found in range or no device is paired or connected for 5 minutes. The unit will go to sleep mode.**

Playing Bluetooth Music

1. Once your device and this unit are paired you can start to play music through this speaker using the Bluetooth function.
 2. Press the **▶|| Button** on your device to play your music.
 3. Press the **▶|| Button** again to pause play; press again to resume playback.
 4. Press the **Skip Button** on your device to Skip the track forward / Backward.
 5. Press the **Volume Button** on your device to adjust the volume level up or down.
- NOTE: This unit must be in Bluetooth mode to pair and use a Bluetooth-enabled device.**

Listening to other portable audio devices

You can connect an MP3 player or other portable audio device through this speaker via the Aux-in Jack.

1. Plug in the 3.5mm jack plug into the headphone or line-out jack on your device and plug in the micro USB jack into the unit.
2. Slide the **Function Switch** on the unit to **AUX** mode so that the green indicator for Aux-In mode turns on.
3. Turn on and play your device.
4. Adjust the volume level on your device.

To preserve power, remember to turn off the speaker when not in use.

Change the Decoration Ring

Turn the Decoration Ring anti-clockwise, you can release the Decoration Ring. Turn it clockwise to lock the ring.

Federal Communications Commission (FCC) Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: Changes or modifications made to this device not expressly approved by

ONTOP TECHNOLOGY LTD may void the FCC authorization to operate this device.

Note: The manufacturer is not responsible for any radio or tv interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.
