A4 PRINTS

MONO

UP TO 30 USERS

B6000
Series

Outstanding features Outstanding value

The B6000 Series provides high printing performance with the value added support of OKI Printing Solutions' in-box utilities. Perfect for workgroups of up to 30 people, it delivers fast, quality mono printing, combined with versatility and rugged dependability. The extra performance and value of the B6000 Series will be enjoyed by the corporate world, service industries, distribution companies and indeed any business with demanding mono print needs and a desire for productivity.

QUICK OVERVIEW

UP TO 30 USERS

EASY TO USE

In-box utilities + automatic duplex available

FAST

Up to 43ppm with first page time of just 8 seconds

RELIABILITY

High volume printing with media flexibility

PRINT QUALITY

True 1200 x 1200dpi high print quality

SECURITY

Password-protected printing with Secure Print

Three models and various configurations to suit the needs of any workgroup

B6250

A hardworking A4 mono printer that satisfies the needs of the most demanding small workgroups. The B6250 prints a quick 30 pages per minute (ppm) and not only has a class-leading combination of high standard memory (128MB) and fast processing power, but also offers two input trays as standard for flexible media handling.

This model is also fully compatible with PCL/PostScript and its true 1200 dots per inch (dpi) resolution ensures pin-sharp output every time – a must for all customer-facing documents and output. The B6250 can also be fully networked by means of a user-installable network card.

There are also additional paper tray input options (up to 1,500 pages) for large capacity storage of multiple paper types and an optional offset catch tray feeder that speeds up mail shots or mail merges.

B6300

Boasting all the flexibility and options of the B6250 and more, this superb A4 mono printer takes on all printing tasks with relentless efficiency.

Ideal for extremely busy medium-size workgroups requiring larger volume capability, at 34ppm, the B6300 offers a superior level of productivity for the price. Its high standard memory of 128MB and super fast processor speed ensure rapid turnaround of larger documents and reports.

The B6300 can offer a total paper capacity of up to 1,800 pages for busier workgroup environments.

Its true 1200dpi resolution produces razor-sharp images, giving you the perfect tool for creating leaflets, mailers, manuals or corporate reports.

B6500

This ultimate workgroup model offers a class-leading print speed of 43ppm among its many compelling features. The B6500 boasts the highest duty cycle in this series, of up to 200,000 pages a month, increasing the printers durability.

As with the other two models, the B6500 is fully networked by means of an optional user-installable network card and for additional flexibility in paper handling, duplex printing is also available as an option.

The B6500 offers a very high capacity toner of 22,000 pages for more cost effective printing and less user intervention.

EASE OF USE AND CONTROL

Simple to install, use and monitor

- Easy to install without the assistance of an IT Manager
- With PrintSuperVision, network administrators can remotely monitor all networked printers and verify toner status
- Plug-in files enabling full support within HP Web Jetadmin software – ensuring compatibility with existing systems
- Secure Print password-protected printing provides control over usage
- Easy to use mono printer with invaluable support of Ask OKI, which can be accessed via the printer driver for online advice, and other free in-box utilities
- Template Manager provides easy to use templates for non-standard media such as envelopes and address labels

VERSATILITY

A powerful printer full of features and options

- Can be easily upgraded to meet every user need
- Supports a wide range of paper sizes and weights to meet the majority of printing requirements
- Excellent paper handling volume – up to 700 sheets as standard – increasing time between refills
- Optional 550-sheet 3rd & 4th trays to increase capacity up to 1,800 pages and hold a variety of paper sizes and heavyweight papers up to 216gsm
- Option of automatic duplex (standard on B6250dn, B6300dn and B6500dn) for easy, economical, double-sided printing
- Optional Hard Disk Drive (HDD), allows storage of data and templates for future use, and Compact Flash™ memory card for extra data storage, e.g. fonts, logos

RELIABILITY

Keeps on working, day after day

- Hard-working printer that keeps on performing day after day
- Reliability helps to maintain office productivity
- High duty cycle of 150,000 - 200,000 pages per month, reducing need for user involvement

PERFORMANCE

Class leading mono printing to enhance business efficiency

- Fast class-leading mono print speed of 30-43ppm
- Competitively priced, so great value for money
- True 1200x1200dpi print quality for crisp lines and razor-sharp images

UTILITY SUITE

Unlock printing power and maintain business control

The B6000 Series Utility Suite is a unique set of software designed to help users get the most out of their investment. Below are some of the advanced utilities that deliver increased printing power and management control. For a complete list of utilities refer to the product specification tables.

PrintSuperVision*

This system allows IT support staff to monitor all business printers within the firewall, regardless of printer make. Access is given to networked printer data for monitoring, reporting and managing networked printers. The user interface is via a standard web browser and no additional software is required.

HP Web Jetadmin**

Plug-in files to enable full support for our printers within HP Web Jetadmin. Ensures compatibility with existing systems and total business efficiency.

Secure Print***

A useful feature when a confidential document has to be printed on a shared network printer. A Personal Identification Number (PIN) can be assigned to each print job sent to the printer. The user then enters the PIN number into the printer's operator panel to print the document. To use the Secure Print feature, the printer must have an internal HDD installed.

Ask OKI

With Ask OKI, help is close at hand for advice, hints and tips. The Ask OKI tab in the printer driver connects users to a web site specifically tailored to their particular OKI Printing Solutions model. This gives simple, step by step instructions for optimal printing – be it banners, double-sided sheets or booklets – as well as ideas to help users make the most of their printer.

PDF Print Direct

This utility allows PDF files to be sent directly to the printer without having to open the actual application, saving the user time. To use PDF Print Direct, the OKI Printing Solutions driver needs to be installed and the printer requires a HDD or Compact Flash for optimum performance.

Template Manager*

This powerful software program makes life easier in the office by providing ready-made templates for many kinds of stationery and promotional materials such as labels and business cards. The unique Editing Suite allows the freedom to create new templates for specific media or industry specific documents and to make it even easier the software automatically matches the document with the correct media. These templates can also be shared across networks for design/brand consistency.

* Utility available with Microsoft Windows only

** Only available up to and including Version 9

Consumables Information: For the protection of your printer, and in order to ensure that you benefit from its full functionality, this model has been designed to operate only with genuine OKI Printing Solutions toner cartridges. These can be identified by the OKI trademark. Any other toner cartridge may not operate at all, even if it is described as "compatible", and if it does work, your printer's performance and print quality may be degraded.
