

ROCKET™ HUB

QUICK START GUIDE

3G25W-R
Internet only

Hardware Installation

1. Insert your Rogers SIM card (until you hear a click) into the SIM slot.
2. Attach the supplied antenna to the connector labeled 3G Antenna on the rear panel.
3. Connect the power adapter to the Power Socket on the back of the Rocket™ hub.
4. Plug the power adapter into the wall and power on.
5. Wait approximately 60 seconds for the Rocket™ hub to power up.

Connecting via cable

1. Connect the supplied yellow Ethernet cable to one of the LAN ports at the back of the Rocket™ hub.
2. Connect the other end of the yellow Ethernet cable to your computer.
3. Wait approximately 30 seconds for the connection to establish.
4. You will now be connected to the internet.

Connecting Wirelessly

1. Ensure wireless networking is enabled on your device (computer/laptop/smartphone).
2. Scan for wireless networks and connect to the network name that matches the Wireless Network Name found on the wireless security card (included in the box).

Wireless Network Name (SSID):

Nom de réseau sans-fil (SSID):

XXXXXXXXXXXXXXXXXXXXXXXXXX

Wireless Security Key (WPA):

Clé de sécurité sans-fil (WPA):

XXXXXXXXXXXXXXXXXXXXXXXXXX

ROCKET™ HUB / CENTRALE SANS-FIL
WIRELESS SECURITY CARD / CARTE DE SÉCURITÉ SANS-FIL

3. When prompted for your wireless security password, enter the Wireless Security Key listed on your wireless security card.
4. Wait approximately 30 seconds for the connection to establish.
5. To connect additional devices, repeat steps 1-4.
