

PETKIT

Smart Pet Leash

Intelligent system

Managing dog-walking time:
you can plan your daily dog-walking time
simply by connecting your PETKIT App on
your cellphone to PETKIT GO via bluetooth
and choosing the dog walking mode.

Prompt of incoming calls:
when a call comes in, the handle will vibrate.

Sharing of dog-walking route:
your dog-walking route each time can be
tracked and recorded via the App, and you
can share the map of route with the others
at any time.

Comfortable sense of grip

TPE soft rubber technique is used in internal side of
the handle, and ergonomic principle is adopted to
couple with curve of hand, conveying comfort to
the palm.

Replaceable rope

PETKIT provides various series of ropes,
and you can achieve personalized and
functional needs by changing them.

Lighting system

Lamp band:
It provides safety warning and illumination at night.
When you walk your dog at night, you can enable
this function through the App.

Function of Flash Light:
Provides illumination at night or at a dark location
while walking your dogs.

C Product Specification

Product Name: Smart Pet Leash
Model Number: P210
Connection Type: Bluetooth 4.0
Manufacturer: Shanghai PETKIT Network Technology Co., Ltd.

FCC Warning:
Any Changes or modifications not expressly approved by the
party responsible for compliance could void the user's authority to
operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is
subject to the following two conditions: (1) This device may not
cause harmful interference, and (2) the device must accept any
interference received, including interference that may cause
undesired operation.

RF exposure statement

This equipment complies with FCC radiation exposure limits set
forth for an uncontrolled environment. The device has been
evaluated to meet general RF exposure requirement. The device
can be used in portable exposure condition without restriction.

Note: This equipment has been tested and found to comply with the
limits for a Class B digital device, pursuant to part 15 of the FCC Rules.
These limits are designed to provide reasonable protection against
harmful interference in a residential installation. This equipment
generates, uses and can radiate radio frequency energy and, if not
installed and used in accordance with the instructions, may cause
harmful interference to radio communications. However, there is no
guarantee that interference will not occur in a particular installation. If this
equipment does cause harmful interference to radio or television
reception, which can be determined by turning the equipment off and on,
the user is encouraged to try to correct the interference by one or more
of the following measures:
—Reorient or relocate the receiving antenna.
—Increase the separation between the equipment and receiver.
—Connect the equipment into an outlet on a circuit different from that to
which the receiver is connected.
—Consult the dealer or an experienced radio/TV technician for help.

For support

B Quick Start

1 Pairing with mobile phone

Start pairing mode by pressing the GO key for 5
seconds until the hand-held vibrate 3 times, and the
indicator flashes. Download app from iOS or Android
app market, search for PETKIT. Start the app, and create
your account. Follow the instructions from the screen to
connect with the device (if the device does not response,
please check if battery is sufficient).

2 Insert the rope

Take out the rope, and insert into the rope buckle from
the hand-held when you hear the "click" sound.

3 Entering Dog-walking Mode

Press and hold the GO key till the handle vibrates,
and enter into dog-walking mode coupling with operation
of PETKIT App.

C Guide on working state

1. Flash Light function: click GO key to enable/disable flash light.
2. Lamp band function: enter APP setting to enable/disable lamp
function.
3. Prompt of incoming calls: when there're incoming calls, the handle
will vibrate to alert (* ensure that the device is connected normally
to the mobile phone). * Vibrations times and types can be adjusted
on app.
4. Charging: connecting the micro-USB cable, the indicator will
light up, and turn off after fully charged.
