READING WITH E-BOOK

The device allows reading books in FB2, FB2.zip, TXT, PDF, RTF, HTML, PRC, CHM, DJVU, DOC, EPUB, TCR. Preliminary steps

Download a book in memory PocketBook 603

Connect your device to a computer using micro USB-cable. The internal device memory and micro SD card will appear in the computer as two new disk. Using Windows Explorer or other programs, copy books in the correct folder in the device memory or on SD card.

View the book in the "Reading"

To open the book, go to the "Library". Press the "OK" click on the desired book. In case this is one of the last open book, you can open it from the main menu (I understand that from the Widget "Last open book" in the main menu). If you open a book before, it will be opened on the page on which it closed the last time. At the bottom of the screen will display a page where you are, the total number of pages, the current time and battery power. Immediately after the opening of some formats are counting the number of pages. Before the end of conversion in the bottom of the screen instead of the current page number and number of pages in the book will burn "...", while some functions will be temporarily unavailable.

Main Features

- Paging
- Changing the font size
- Go to the links in the book
- Office notes
- Exit from the book
- Go to the page
- Manage Bookmarks
- Find the translation in the dictionary
- Changing the size and text display modes
- The transition to structured content
- Settings in the "Reading"
- Changing the screen orientation
- Search word or phrase in the text books

Paging

To move forward one page, click "Right" or "Forward". To scroll back - button "Left" or "Back". Long press the buttons allows you to skim in an accelerated mode (10 pages).

Change font size

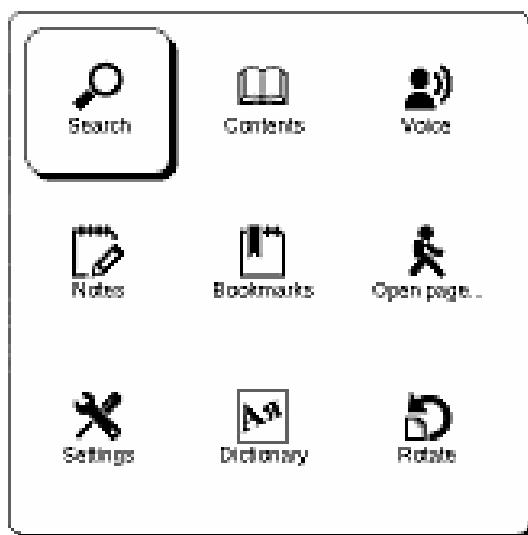

While reading, you can switch between the 5-th available size font for text books. To do this, press the "Up". More fine-tune the font can be done in the "Settings" menu shortcuts.

Note: For books in a format DJVU change the font size is not available. Instead You can then use the "Zoom" in the menu shortcuts. For PDF format font size can be changed only in mode "Reflow".

Go to the links in the book

Some formats allow you to quickly click on links inside the book. To follow a link, click "Down" to select the link, use the buttons "Left, Right, Up, Down"

SHORTCUTS

The menu is called "OK" in the mode of reading the book. It offers the following items:

OPEN PAGE IN THE BOOK

This menu item opens a window for selecting pages. Enter the desired page, then "OK", or you can rapidly move to the first or last page of the book using the buttons "<<" or ">>".

Important: Changes or modifications to this product not authorized could void the EMC and wireless compliance and negate your authority to operate the product. This product has demonstrated EMC compliance under conditions that included the use of compliant peripheral devices and shielded cables between system components. It is important that you use compliant peripheral devices and shielded cables between system components to reduce the possibility of causing interference to radios, televisions, and other electronic devices.

FCC Compliance Statement

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-Reorient or relocate the receiving antenna.

-Increase the separation between the equipment and receiver.

-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement

This equipment complies with FCC RF radiation exposure limits set forth an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

The device was tested and complies to measurement standards and procedures specified in FCC OET Bulletin 65, Supplement C
