Frequency	20-20khz	Battery	Polymer 70mAh

Important safety precautions

Please note the following precautions before initial use. Failure to comply may be dangerous and cause damage to your mobile devices.

- Fully charge the earbuds before initial use for best possible outcomes.
- Always recharge the earbuds in a well-ventilated area. Do not leave the earbuds in hot or cold places.
- Do not immerse the earbuds in water or expose it to moisture or weather conditions.
- Do not drop, knock, or shake the earbuds. Rough handling can damage the internal precision component and its boards.
- Keep the earbuds away from children, this device is not a toy.
- While charging, the earbuds casing may become warm, which is normal as the charging and discharging processes generate heat.
- Keep the earbuds away from fire or other sources of heat. Exposing the earbuds to high temperatures may cause it to explode.
- Do not short-circuit the earbuds, as this may cause damage to the unit.
- Unauthorized changed or modifications may void your right to use this product.

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: 1) this device may not cause harmful interference, and 2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
