### **Attestation of future FCC user manual amendment**

This is to confirm the following user manual amendment will be immediately incorporated into Palm's Tunsten W (FCCID# 03W710000) manual:

We will add the following into the FCC statement currently in our manual:

“use only with the specific Palm accessories that this phone has been tested for compliance with” or “SAR compliance for body-worn operating configurations is limited to the specific belt-clips/holsters/accessories tested for this filing”.

Replacing the following statement”

“ Use of accessories not provided by Palm”.

If there is any question with this, please contact me immediately.

Best regards,

David Woo
