- * Never push objects of any kind through the Cabinet slots, never spill liquid of any kind on the unit.
- * Do not place objects on the product.
- * Do not attempt to service this product yourself.
- * Do not open or remove covers.
- * Do not place foreign objects in the disc insertion slot and attempt to operate.
- * Do not use CD-ROM drive when vertically installed. (Horizontal installation type only)

1.4 PRECAUTIONS FOR OPERATION

To avoid error

- * Do not move the drive unit during operation.
- * Do not operate the unit directly after a sudden increase in temperature.

NOTE :

A great proportion of problems are usually caused by the following.

- ① Dust or Finger-prints on the surface of the disc.
- ② Random Electrical Noise.
- ③ Scratches and Defects on the surface of the disc.

1.5 PRECAUTIONS WHEN HANDLING DISCS

- ① Hold the disc by the edges, do not touch the surface of the disc.

- ② To remove dust or fingerprint, use a clean, soft, dry cloth.

- ③ Do not write on, or paste paper to the surface of the disc.
Should not paste a large or thick label to the outer back surface (the label side) of the disc, or it generates drive vibration due to imbalance of the disc.

- ④ Do not store the disc in a place where the temperature is high.

- ⑤ Do not use benzine, thinners and cleaners, etc.

- ⑥ Do not make the center hole larger.

- ⑦ Do not bend the disc.

- ⑧ Do not drop the disc, or subject it to shock.
