## INTRODUCTION

This CD-R/RW drive features 32x speed reading and 4x speed writing (8x speed writing with CD-R disc) technology. CD-RW disc is compact disc memory that you can rewrite digital data on the area many times and read with this CD-R/RW drive.

This drive unit uses CD-RW discs which bear the following mark.

This drive unit uses CD-R discs which bear the following mark.

This drive unit uses CD-ROM discs which bear the following mark.

Only compact discs having this mark can be used with this unit.

## CHAPTER 1 PRECAUTIONS WHEN OPERATING

### 1.1 PRECAUTIONS WHEN TRANSPORTING

To avoid damage

- \* Keep the original packing materials for the drive unit.
- \* Before you transport the drive unit, remove the disc from the drive unit and repack the drive unit in its original packing.

### 1.2 INSTALLATION LOCATION

Do not place unit in the following environments.

- \* High-temperature, high-humidity, extreme temperature changes.
- \* Dusty
- \* Excessive vibration/ sudden shock.
- \* Inclined place.
- \* Direct sunlight.

### 1.3 PRECAUTIONS FOR USE

- \* Never push objects of any kind through the Cabinet slots, never spill liquid of any kind on the unit.
- \* Do not place objects on the product.
- \* Do not attempt to service this product yourself.
- \* Do not open or remove covers.
- \* Do not place foreign objects in the disc insertion slot and attempt to operate.
- \* Do not use CD-R/RW drive when vertically installed.

### 1.4 PRECAUTIONS FOR OPERATION

To avoid error

- \* Do not move the drive unit during operation.
- \* Do not operate the unit directly after a sudden increase in temperature.

#### NOTE :

A great proportion of problems are usually caused by the following.

- ① Dust or Finger-prints on the surface of the CD-disc.
- ② Random Electrical Noise.
- ③ Scratches and Defects on the surface of the CD-disc.

### 1.5 PRECAUTIONS WHEN HANDLING DISCS

- ① Hold the disc by the edges, do not touch the surface of the disc.

- ② To remove dust or fingerprint, use a clean, soft, dry cloth. When cleaning, wipe gently in a radial direction.

- ③ Do not write on the recording / reading side, or paste paper to the surface of the disc. When labelling a disc for identification purposes, write only on the premarked label side using a soft, felt tip marker.

- ④ Do not store the disc in a place where the temperature is high.

- ⑤ Do not use benzine, thinners and cleaners, etc. A very mild soap and water solution should be used to clean the disc.

- ⑥ Do not make the center hole larger.

- ⑦ Do not bend the disc.

- ⑧ Do not drop the disc, or subject it to shock.

- When the drive is not in use, keep the tray closed to protect against dust and dirt.
- Do not press down hard on the tray when loading a disc, since this may result in damage to or malfunction of the tray.

- In case of emergency, eject the tray manually  
If for some reason the tray will not eject automatically, press the eject-bar (for example, insert a straightened paper clip minimum straight length = 45mm, Diameter = 1~ 1.5mm) into the emergency eject hole to manually eject the tray. (Before proceeding with this emergency step, make sure that the power is switched OFF.)
