Telecommunication Certification Body
RFI Global Services Ltd.
Pavilion A
Ashwood Park
Basingstoke
Hampshire
RG23 8BG
United Kingdom

FCC ID: UCE208008A

To whom it may concern,

The electronic equipment which is the subject of the above FCC certification request is a cellular mobile telephone which is manufactured exclusively for one Japanese cellular Network Operator.

The telephone is dual-mode UMTS/GSM design to allow international roaming use for Japanese customers when visiting overseas, and consequently the Japanese Network Operator has requested GCF and PTCRB certification. FCC certification is a pre-requisite of PTCRB certification.

As the telephone will only be sold in Japan, the User Manual is only written in the Japanese language with a short English language section containing Safety precautions/ regulatory information and a First Step guide.

Therefore we can not provide a full English language User Manual, but in the circumstances, request that you accept this statement along with the attached FCC Safety/ regulatory pages and First Step guide printed in English.

Yours Sincerely

Mike Hargreaves
Principal Engineer, Regulations and Approvals
Panasonic Mobile Communications (PMCDE)
