USIM PINs

● **PIN**
4 to 8-digit code used to prevent unauthorized 832P use.
　• PIN can be changed.
　• When *PIN Authentication* is *ON*, PIN entry is required each time handset is turned on (with USIM Card inserted).

● **PIN2**
Required to clear call times/costs or set maximum cost.
　• PIN2 can be changed.
● **PIN Lock & Cancellation (PUK)**
PIN Lock or PIN2 Lock is activated if PIN or PIN2 is incorrectly entered three times. Cancel PIN Lock or PIN2 Lock by entering the PIN Unblocking Key (PUK/PUK2).
　• If PUK/PUK2 is incorrectly entered ten times, USIM Card is locked and handset is disabled. Write down PUK/PUK2.
　• For procedures required to unlock USIM Card, contact SoftBank Customer Center, General Information.

Passwords

● **Phone Password**
4 to 8-digit number required to use/change some handset functions.
　• Enter number within 15 seconds.
　• __ appears for each digit entered.
　• Phone Password (*9999* by default) can be changed on handset.
● **Center Access Code**
4-digit number specified at initial subscription; required to access Voice Mail via landlines or subscribe to fee-based information.
● **Security Code**
4-digit number specified at initial subscription, required to restrict handset services.
　• Enter number within 15 seconds.
　• If entered incorrectly three times, Call Barring settings lock; Security Code & Center Access Code must be changed. Reach SoftBank Customer Center, General Information for details.
