SoftBank

Introduction

Thank you for purchasing SoftBank 841P.

● For proper handset use, read User Guide (this guide).
● Accessible services may vary by service area, subscription, etc.

SoftBank 841P is compatible with both 3G and GSM network technologies.

Note

● Unauthorized copying of any part of this guide is prohibited.
● Guide content is subject to change without prior notice.

Using This Guide

Screenshots

Before reading this guide, make a note of the following:
- In this guide, SoftBank 841P User Guide, SoftBank 841P is abbreviated as 841P.
- "microSD Card" is referred to as "Memory Card" in this guide.
- Sample screenshots, etc. are provided for reference only. Actual handset windows, menus, etc. may differ in appearance.
- Key icons use simplified labels.
- Most operation descriptions begin in Standby.
- Pressing a key for more than one second is described as "Press and hold."

Handset, Battery, USIM Card, Charger (sold separately) & Memory Card (not included)

⚠ Danger

⊘ **Do not use or leave handset, battery or charger in locations subject to high temperature, such as near an open flame/heater, in sunlight or inside a car on an extremely hot day.**
Battery may leak, overheat, explode, catch fire, or deform handset and cause damage. Part of the casing may also become hot and cause burns.

⊘ **Do not use excessive force to attach battery or connect charger to handset. Battery or connector may be the wrong way around.**
Battery may leak, overheat, explode or catch fire.

⊘ **Do not disassemble, modify or solder handset.**
May cause accidents such as fire, bodily injury, electric shock or equipment malfunction. Battery may leak, overheat, explode or catch fire. Modifying handset is a violation of Radio Law and subject to prosecution.

🚫 **Do not get handset, battery and charger wet.**
If handset, battery or charger is left wet or battery is charged after exposure to liquids such as water or pet urine, overheating, electric shock, fire, injury or malfunction may occur.
Be mindful of location when using handset, battery and charger. Handle with care.

❗ **Use specified battery, charger (sold separately) and Desktop Holder (not included).**
Battery may leak, overheat, explode or catch fire, and charger may overheat, catch fire or cause malfunction.

⚠ Warning

🚫 **Do not place handset, battery or charger inside cooking appliances, such as microwave ovens or high-pressure containers, or on IH cooking heaters.**
Battery may leak, overheat, explode or catch fire, and handset and charger may overheat, emit smoke, catch fire or cause malfunction.

🚫 **Do not drop, throw or otherwise subject to strong force or impacts.**
Battery may leak, overheat, explode, catch fire, or cause electric shock or damage to handset.

🚫 **Do not allow liquids (water, pet urine, etc.) or conductive objects (pencil leads, metal pieces, necklaces, hair pins, etc.) to contact charger terminals, external port terminals or Memory Card slot.**
May cause fire or malfunction triggered by short-circuit.

❗ **Keep handset off and charger disconnected near propane gas, in filling stations or places where flammable gas is generated.**
Handset use in such areas may lead to fire.

❗ **If handset, battery or charger emits an unusual sound, smoke or odor, perform following steps:**
1. Unplug charger from outlet.
2. Turn off handset.
3. Remove battery. (Take care to avoid burns or injuries.)
May cause fire or electric shock.

⚠ Caution

🚫 **Do not place handset, battery or charger on an unstable surface.**
May fall, causing injury or malfunction. Take extra precautions while vibration alert is active or during charging.

❗ **Keep handset out of the reach of young children.**
May result in accidental ingestion or bodily injury.

❗ **If for use by child, guardian should teach proper handling and ensure handset is used as directed.**
May result in bodily injury.

Battery

⚠ Danger

See battery label to confirm battery type.

Label	Battery Type
Li-ion 00	Lithium-ion

🚫 **Do not throw battery into fire.**
Battery may leak, explode or catch fire.

🚫 **Do not pierce battery with a nail or other sharp object, hit it with a hammer, step on it, or subject it to strong shocks.**
Battery may leak, overheat, explode or catch fire.

🚫 **Do not touch terminals with metallic objects or carry/store battery with conductive objects (pencil leads, metal pieces, necklaces, hair pins, etc.).**
Battery may leak, overheat, explode or catch fire.

❗ **If battery fluid gets into eyes, do not rub; flush with clean water and see a doctor immediately.**
Failure to do so may cause blindness.

⚠ Warning

❗ **If battery fluid comes into contact with your skin or clothing, stop using handset immediately and rinse it off with clean water.**
Battery fluid is harmful to your skin.

❗ **If battery does not charge after specified time, stop charging.**
Battery may leak, overheat, explode or catch fire.

❗ **If battery emits an unusual odor, overheats, discolors or deforms, immediately remove battery and move it away as far as possible from any flame or fire. Take care to avoid burns or injuries.**
Battery may leak, overheat, explode or catch fire.

⚠ Caution

🚫 **Do not dispose of battery with ordinary refuse.**
Place tape over the terminals to insulate battery, and take it to a SoftBank retailer or institution that handles used batteries in your area. Comply with local waste disposal regulations for recycling.

Handset

⚠ Warning

🚫 **Do not use handset while driving a vehicle.**
Doing so may interfere with safe driving and cause an accident.
Stop your vehicle to park in a safe place before using handset.
Drivers using handsets while driving are subject to prosecution.

🚫 **Do not aim the infrared port at eyes when using infrared communication.**
Doing so may affect eyes.

❗ **Turn off handset near high-precision electronic devices or devices using weak electronic signals.**
Handset may cause these devices to malfunction.
*Electronic devices that may be affected: Hearing aids, implantable cardiac pacemakers, implantable cardioverter defibrillators, other medical electronic devices, fire alarms, automatic doors and other automatically controlled devices.

❗ **Turn off handset aboard aircraft.**
Handset signal may interfere with aircraft operation.
When in-flight handset use is permitted, follow airline instructions for proper use.

❗ **If you have a weak heart, take extra precautions when setting functions such as Vibration or Ringer Volume for incoming transmissions.**
May affect heart.

❗ **In a thunderstorm, immediately turn off handset and seek shelter.**
There is a risk of being struck by lightning and suffering electric shock.

⚠ Caution

🚫 **If handset affects car electronics, stop use.**
Handset use may affect electronics in some models. In this case, stop use; could impede safe driving.

🚫 **Do not place a magnetic card near or in handset.**
The stored magnetic data in cash cards, credit cards, telephone cards and floppy disks, etc. may be erased.

🚫 **Do not swing handset by its strap, etc.**
Handset may strike you or others, or strap may be broken resulting in injury or damage to handset or other property.

🚫 **Do not place your ear too close to the speaker while ringer sounds or sound files play.**
May impair hearing.

🚫 **Do not use One-push Open button to open handset near your or another person's face.**
Handset may cause accident and injury.

❗ **Handset may become hot while used in a hot environment.**
Avoid prolonged skin contact that may result in burns.

❗ **Make sure not to trap fingers or objects when opening/closing handset.**
May result in injury or damage to display.

❗ **Watch TV with adequate lighting and distance from Display.**
May damage eyesight.

❗ **Do not turn up the volume unnecessarily high when using earphones.**
Using earphones with volume turned up for an extended period may impair hearing or injure ears.

⚠️ **If skin abnormality occurs, immediately stop use and seek medical treatment.**
Handset contains metals. Handset use may cause itching, rashes, eczema or other symptoms depending on the user's physical condition.

Charger (sold separately)

⚠ Warning

🚫 **Do not cover or wrap charger during charging.**
May cause overheating, fire or malfunction.

🚫 **Always use the specified power supply/voltage.**
Using incorrect voltage may cause fire or malfunction.
AC Charger: AC100V-240V (household AC outlet only)
In-Car Charger: DC12V, 24V (vehicles with a negative earth only)

🚫 **Use In-Car Charger in vehicles with a negative (-) earth. Do not use In-Car Charger if vehicle has a positive (+) earth.**
May cause fire.

🚫 **Do not use charger in thunderstorms.**
There is a risk of suffering electric shock.

🚫 **Do not handle charger with wet hands.**
May cause electric shock or malfunction.

❗ **If In-Car Charger fuse blows, always replace it with specified fuse.**
Using the incorrect fuse may cause fire or malfunction. Refer to the respective manuals for information on the correct fuse specifications.

❗ **If dust accumulates on plug, unplug charger and wipe with a dry cloth.**
May cause fire.

❗ **When plugging charger into outlet, keep conductive materials (pencil leads, metal parts, necklaces, hair pins, etc.) away from Desktop Holder terminals or charger plug/terminals and plug charger firmly into outlet.**
May cause electric shock, short-circuit or fire.

🔌 **Unplug AC Charger during periods of disuse.**
May cause electric shock, fire or malfunction.

🔌 **If liquid such as water or pet urine get into charger, unplug it immediately.**
May cause electric shock, smoke emission or fire.

⚠ Caution

❗ **Pull charger (not cord) to unplug charger.**
Pulling on the cord may damage the cord and cause electric shock or fire.

🔌 **Always unplug charger before cleaning it.**
May result in electric shock.

Near Electronic Medical Equipment

⚠ Warning

This section is based on "Guidelines on the Use of Radio Communications Equipment such as Cellular Telephones and Safeguards for Electronic Medical Equipment" (Electromagnetic Compatibility Conference, April 1997) and "Report of Investigation of the Effects of Radio Waves on Medical Equipment, etc." (Association of Radio Industries and Businesses, March 2001).

If you use an implantable cardiac pacemaker or cardioverter defibrillator, keep handset more than 22 cm away from the implant at all times.
Handset radio waves may affect implantable cardiac pacemaker or cardioverter defibrillator operations.

Persons using electronic medical equipment outside medical facilities should consult the vendor about possible radio wave effects.
Handset radio waves may affect electronic medical equipment operations.

Observe the following in medical facilities. Handset radio waves may affect electronic medical equipment.
• Do not take handset into operating rooms, Intensive Care Units or Coronary Care Units.
• Turn off handset inside hospital wards.
• Turn off handset even outside hospital wards (in hospital lobbies, etc.); electronic medical equipment may be in use nearby.
• Where a medical facility has specific instructions prohibiting the carrying and use of mobile phones, observe those instructions strictly.

Turn off handset in crowded places such as rush hour trains; implantable cardiac pacemakers or cardioverter defibrillators may be in use nearby.
Handset radio waves may affect implantable cardiac pacemaker or cardioverter defibrillator operations.

Handling Precautions

General Notes

- **SoftBank is not liable for damages from accidental loss/alteration/repair of handset/Memory Card information (Phone Book entries, image/sound files, etc.). Back-up important information.**
- **Handset transmissions may be disrupted inside buildings, tunnels or underground, or when moving into/out of such places.**
- **Use handset without disturbing others.**
- **Handsets are radios as stipulated by the Radio Law. Under the Radio Law, handsets must be submitted for inspection upon request.**
- **Handset use near landlines, TVs or radios may cause interference.**
- **Read Memory Card manual beforehand for proper use.**
- **Beware of eavesdropping.**
  Digital signals reduce interception, however transmissions may be overheard. Deliberate/accidental interception of communications constitutes eavesdropping.
  "eavesdropping" means radio communication is received by another receiver deliberately or accidentally.
- **Be cautious of unsafe websites. Take extra precautions especially when posting personal information on websites.**

Electromagnetic Waves

- **For body worn operation, this mobile phone has been tested and meets RF exposure guidelines when used with an accessory containing no metal and positioning the handset a minimum 15 mm from the body. Use of other accessories may not ensure compliance with RF exposure guidelines.**

FCC Notice

- **This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:**
  (1) This device may not cause harmful interference, and
  (2) this device must accept any interference received, including interference that may cause undesired operation.
- **Changes or modifications not expressly approved by the manufacturer responsible for compliance could void the user's authority to operate the equipment.**

FCC RF Exposure Information

Your handset is a radio transmitter and receiver. It is designed and manufactured not to exceed the emission limits for exposure to radio frequency (RF) energy set by the Federal Communications Commission of the U.S. Government.

The guidelines are based on standards that were developed by independent scientific organization through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons, regardless of age and health.

The exposure standard for wireless handsets employs a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit set by the FCC is 1.6 W/kg. The tests are performed in positions and locations (e.g. at the ear and worn on the body) as required by the FCC for each model.

The highest SAR value for this model handset as reported to the FCC when tested for use at the ear is 0.887 W/kg, and when worn on the body in a holder or carry case, is 0.643 W/kg.

Body-worn Operation; This device was tested for typical body-worn operations with the back of the handset kept 1.5 cm from the body. To maintain compliance with FCC RF exposure requirements, use accessories that maintain a 1.5 cm separation distance between the user's body and the back of the handset. The use of beltclips, holsters and similar accessories should not contain metallic components in its assembly.

The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided. The FCC has granted an Equipment Authorization for this model handset with all reported SAR levels evaluated as in compliance with the FCC RF emission guidelines. SAR information on this model handset is on file with the FCC and can be found under the Display Grant section of http://www.fcc.gov/oet/ea/ after searching on FCC ID UCE209025A.

Additional information on Specific Absorption Rates (SAR) can be found on the Cellular Telecommunications & Internet Association (CTIA) website at http://www.phonefacts.net.

European RF Exposure Information

Your mobile device is a radio transmitter and receiver. It is designed not to exceed the limits for exposure to radio waves recommended by international guidelines. These guidelines were developed by the independent scientific organization ICNIRP and include safety margins designed to assure the protection of all persons, regardless of age and health.

The guidelines use a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit for mobile devices is 2 W/kg and the highest SAR value for this device when tested at the ear was 0.375 W/kg*. As mobile devices offer a range of functions, they can be used in other positions, such as on the body as described in this user guide**. In this case, the highest tested SAR value is 0.472 W/kg. As SAR is measured utilizing the devices highest transmitting power the actual SAR of this device while operating is typically below that indicated above. This is due to automatic changes to the power level of the device to ensure it only uses the minimum level required to reach the network.

The World Health Organization has stated that present scientific information does not indicate the need for any special precautions for the use of mobile devices. They note that if you want to reduce your exposure then you can do so by limiting the length of calls or using a hands-free device to keep the mobile phone away from the head and body.

*The tests are carried out in accordance with international guidelines for testing.

** Please see Electromagnetic Waves on page xviii for important notes regarding body worn operation.

Declaration of Conformity

CE0168

**We, Panasonic Mobile Communications Development of Europe Ltd., declare that SoftBank 841P conforms with the essential and other relevant requirements of the directive 1999/5/EC.
A declaration of conformity to this effect can be found at http://panasonic.net/pmc/support/index.html**

- **This product is only intended for sale in Japan.**
- **Compliance to the European RTTE directive applies to: SoftBank 841P handset, Battery (PMBAT1) and AC Charger (SoftBank ZTDAA1).**

Handset Care

- **841P is not waterproof. Avoid exposure to liquids and high humidity.**
  - Do not expose handset to precipitation.
  - Air conditioned air may cause condensation, resulting in corrosion.
  - Do not put handset in damp places like bathrooms.
  - On the beach, keep handset away from sun and surf.
  - Perspiration in handset may cause malfunction.

- **If handset is left with no battery or an exhausted one, data may be altered/lost. SoftBank is not liable for any resulting damages.**
- **Use handset within temperatures of 5°C to 35°C and humidity 35% to 85%. Avoid extreme temperatures/direct sunlight.**
- **Handset may become warm during use or charging. This is not malfunction.**
- **Battery may swell as service life nears end; this is not a problem.**

- **Exposing lens to direct sunlight may damage color filter and affect image color.**
- **Soiled terminals may cause poor connection. If the terminals are dirty, use a dry cloth or cotton swab to wipe them clean.**
- **Clean handset with dry, soft cloth. Using alcohol, thinner, etc. may damage it.**
- **Avoid forceful rubbing or scratching handset Display.**
- **Do not subject handset to excessive force.**
  - Do not sit down with handset in a back pocket.
  - Do not place heavy objects on a bag with handset inside.
- **Do not remove nameplate from handset; doing so invalidates warranty.**
- **Always turn off handset before removing battery. If battery is removed while saving or sending mail, data may be altered or lost.**
- **LCD is manufactured with high precision technology, however, some pixels may appear darker/brighter.**
- **Connect only specified products to External Port.**
- **While walking, moderate earphone volume to make sounds around you audible and help avoid accidents.**
- **When holding handset in use, do not cover Speaker.**

Function Usage Limits

These functions are disabled after handset replacement/upgrade or service cancellation: Camera; Digital TV; Media Player; S! Appli. After a period of disuse, these functions may become unusable.

Mobile Camera

- Be sure to observe proper etiquette when using the camera.
- Do not expose the camera lens to direct sunlight. Concentrated sunlight through the lens may cause the handset to malfunction.
- Be sure to try taking and previewing pictures before using the camera on important occasions like wedding ceremonies.
- Do not commercially use or transfer pictures taken with the camera without the permission of the copyright holder (photographer), except for personal use.
- Do not use the camera in locations where taking photos and recording videos are prohibited.

Copyrights and Others

Right of Portrait

Portrait right is the right of an individual to refuse to be photographed by others and protects from the unauthorized publication or use of an individual's photograph by others. Right of personality is a portrait right applicable to all citizens and right of publicity is a portrait right (property right) designed to protect celebrities' interests. Be careful when taking pictures with the handset camera. Photographing, publicizing and distributing photographs of citizens and celebrities without permission are illegal.

Copyrights

Sounds, images, computer programs, databases, other copyrighted materials, their respective works and copyright holders are protected by copyright laws. Duplicated materials are limited to private use only. If duplications (including conversion of data types), modifications, transfer of duplicates or distribution on networks are made without permission of copyright holders, this constitutes "Literary Piracy" and "Infringement of Copyright Holder Rights" and a criminal action for reparations and criminal punishment may be filed. If duplicates are made using handset, please observe the copyright laws. Materials captured with handset camera are also subject to the above.

The software contained in 841P is copyrighted material; copyright, moral right and other related rights are protected by copyright laws. Do not copy, modify, alter, disassemble, decompile or reverse-engineer the software, and do not separate it from hardware in whole or part.

Specific Absorption Rate (SAR)

841P meets the government's requirements for exposure to radio waves.

These requirements are based on scientific basis to assure that radio waves emitted from mobile phones and other handheld wireless devices do not affect human health. They require that the Specific Absorption Rate (SAR), which is the unit of measurement for the amount of radiofrequency absorbed by the head shall not exceed 2 W/kg*. This limit includes a substantial safety margin designed to assure the safety of all persons, regardless of age or health, and meets the international standard set by International Commission on Non-Ionizing Radiation Protection (ICNIRP) in cooperation with World Health Organization (WHO).

All mobile phones, prior to product launch, must be certified as compliant with government requirements as stipulated by the Radio Law.

841P has been granted Technical Regulations Conformity Certification by TELECOM ENGINEERING CENTER. Its highest SAR value is 0.566 W/kg. This value was obtained by TELECOM ENGINEERING CENTER as part of the certification process. SAR tests were conducted with handset transmitting at its highest certified power level in accordance with testing methods set by the government. While there may be differences between the SAR levels for various handsets, they all meet the governmental requirements for safe exposure. The actual SAR level of the handset while operating can be well below the highest value. This is because the handset is designed to operate at multiple power levels so as to use only the power required to reach the Network.

Additional information on SAR can be obtained on the following Websites:

Ministry of Internal Affairs and Communications

USIM Card

About USIM Card

Universal Subscriber Identity Module (USIM) Card is an IC card containing customer and authentication information, including handset number, and limited Phone Book entry and SMS message storage. USIM must be inserted to use handset or Network services (calling, messaging, Internet, etc.).
Turn handset off before inserting/removing USIM Card.

USIM Card

IC
● Insert USIM Card into other compatible SoftBank handset to use information saved on USIM Card.
● Use SoftBank specified USIM Card only; non-specified USIM Cards may not function properly.
● Do not insert USIM Card into other IC card devices. SoftBank is not liable for any resulting damages.
● Keep IC portion clean.
● Do not damage, carelessly touch or short-circuit IC chip; doing so may result in loss of data or malfunction.
● Remove dust/debris with a soft, dry cloth.
● Do not place labels, etc. on USIM Card; may cause failure.
● If handset is dropped/subjected to shock, handset may return to Standby. This is not a malfunction. If **Insert USIM** appears, re-insert USIM Card properly then restart handset.

Important
● USIM Card is the property of SoftBank.
● Return USIM Card to SoftBank upon service cancellation.
● USIM Card will be reissued for a fee if lost or damaged.
● If USIM Card/handset with USIM Card inserted is lost or stolen, contact SoftBank Mobile Customer Center or Global Call Center (P.16-30).
● Back up USIM Card files. SoftBank is not liable for lost files.
● USIM Card specifications/performance may change without prior notice.
● Pre-installed S! Appli may be unusable while a different or replacement USIM Card is inserted into handset.
● Returned USIM Cards are recycled.

Note
● Some downloaded files may be inaccessible after upgrades/repairs, USIM Card/handset replacement.

USIM Card Installation

● Remove battery (ﾏP.1-12) then follow steps below.

Inserting

1 With IC chip down, insert USIM Card

Notch
Removing

1 Slide out USIM Card gently
Note
● Do not force USIM Card into or out of handset; may damage handset/ USIM Card.
● Be careful not to lose the removed USIM Card.
● Avoid touching USIM Card terminals or IC chip; doing so may hinder performance/USIM Card recognition.

USIM PINs

There are two USIM Card security codes: PIN & PIN2
● PIN and PIN2 are set to 9999 by default.
● PIN/PIN2 can be changed (ﾏP.10-3).

PIN	4 to 8-digit code used to prevent unauthorized handset use. ● When PIN Certification is ON (ﾏP.10-2), PIN entry is required each time handset is turned on (with USIM Card inserted).
PIN2	Required to clear call costs or set maximum cost (ﾏP.15-10).

PIN Lock & Cancellation (PUK/PUK2)
PIN Lock or PIN2 Lock is activated if PIN or PIN2 is incorrectly entered three times. Cancel PIN Lock or PIN2 Lock by entering the PIN Unblocking Key (PUK/PUK2) (ﾏP.10-3).
● For information on PUK/PUK2, contact SoftBank Mobile Customer Center, General Information (ﾏP.16-30).

Note
● If PUK/PUK2 is incorrectly entered ten times, USIM Card is locked and handset is disabled. Write down PUK/PUK2.
● For procedures required to unlock USIM Card, contact SoftBank Mobile Customer Center, General Information (ﾏP.16-30).

Parts & Functions

Handset
Using Microphone/Earphone
Connect Earphone Conversion Cable (sold separately) to External Port to use Microphone/Earphone. Stereo Earphone Conversion Cable (PMLAJ1) is also compatible with 841P.
● Do not press answer button on microphone/earphone when connecting. Doing so may cause microphone/earphone to malfunction. In that case, pull out earphone/microphone, and connect again.

About Battery

Before Charging

Charge battery before use or after a period of disuse (AC Charger sold separately).

Charging Time & Operating Time Estimates

		3G	GSM
Charging Time		150 minutes*	
Standby Time		430 hours*	340 hours*
Talk Time	**Voice Call**	230 minutes*	250 minutes*
	Video Call	100 minutes*	–

* Approximate value

● 3G Mode/GSM Mode: ☞P.2-9

● Charging time is an average measured within temperatures of 5°C to 35 °C.

● Talk Time is an average measured with a new, fully charged battery, with stable signals.

● Standby Time is an average measured with a new, fully charged battery, with handset closed without calls or operations, in Standby with stable signals.

● Talk Time and Standby Time may vary by environment (battery status, temperature, etc.).

About Battery

● Clean handset, battery & charger with dry cotton swab.
● Replace battery if operating time shortens noticeably.
● Charge battery at least once every six months.
● Use a case when carrying battery separately.

Charging

● Battery must be installed to charge it.
● It may take longer for charging when handset is on.
● Move charger away from TV/radio if interference occurs.

Battery Time

● Using handset in poor conditions may shorten battery time.
・ Extreme temperatures
・ Impaired handset, battery or Charging Terminals
・ Signal is weak/handset is out-of-range
・ Handset is left mid-operation (not in Standby)
・ Playing music or using S! Appli, etc.
● Extending battery time
Example:
・ Select shorter Display backlight time; select **OFF** or shorter time for
Keypad Backlight (ｃP.15-6).
・ Select **Silent** for Key Tone Volume (ｃP.15-3)

When Battery Runs Out

● **Unless a Call is in Progress**
A message appears and warning tone sounds. Handset power turns off
automatically after two minutes; press 🔚, ⓨ or 🔲 to cancel
warning tone manually. Charge or replace battery.
・ If Manner Mode is active/Warning Tone **Off**, nothing sounds.

● **During a Call**
A message appears and warning tone sounds via Earpiece or Speaker.
After 90 seconds, call ends and handset shuts down in 30 seconds.
Charge or replace battery.

Battery Strength Indicator

● Battery Strength indicator changes as remaining usage time decreases.
Charge or replace battery when battery level is low (ｃP.1-9) or a
message appears on Display.

Digital TV

5

Basics

841P supports One Seg terrestrial digital TV broadcasting.

> **One Seg**
> One Seg is a digital TV broadcasting service for mobile phones.
> For more information, visit The Association for Promotion of Digital Broadcasting Website:
> [PC] http://www.dpa.or.jp/
> [Handset] http://www.dpa.or.jp/1seg/k/
> (Japanese only)

Features

Watch TV Programs (☞P.5-5)	Watch One Seg Digital TV on handset.
View Data Broadcast (☞P.5-7)	Access a variety of program-related information.

Precautions

● Digital TV is available only in Japan.
● Incoming calls/messages may affect TV image or audio quality while TV is activated.
● Digital TV may be disabled if USIM Card is not installed or SoftBank subscription is terminated.
● SoftBank is not liable for damages from accidental loss/alteration of handset information.
● Data saved to handset (TV Links, Channel List, etc.) cannot be restored after repairs or handset replacement. Back up important information.

Signal Reception Areas

TV signal reception may be poor in the following conditions:
- Too far from or close to broadcasting stations
- Mountain areas or near tall buildings
- In moving vehicles, underground, in tunnels, etc.
- Near high-voltage wires, neon lights, wireless base stations, railroad tracks or highways
- Areas with numerous signal obstructions or areas where signal reception is blocked

When Battery is Running Out
- Warning tone sounds and warning message appears if Digital TV is activated with low battery.
- When battery runs low while programs are on, confirmation appears.
- Watching TV while charging may shorten battery life.

Incoming Transmissions

TV pauses for incoming calls. Resume TV after call ends.

Broadcast Storage Area

Information entered in a Data Broadcast site is saved in Broadcast storage area, and used by network-affiliated TV stations.
Saved information may include personal information such as membership number, sex, age, occupation, etc.
Previously entered information may appear in Data Broadcast window or be sent to TV broadcast stations.
- Delete Information saved in Broadcast Storage Area (☞P.16-15)
