

INSTRUCTION MANUAL FEDERAL COMMUNICATIONS COMMISSION INTERFERENCE STATEMENT

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation

Warning: To assure continued compliance, use only shielded interface cables when connecting computer to peripheral devices. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

Responsible Party: Matsushita Electric Corporation of America
 One Panasonic Way
 Secaucus, NJ 07094
 Tel No: 1-800-LAPTOP-5 (1-800-527-8675)

Notebook Computer Operating Instructions will include the following type user information regarding RF exposure when provided with GSM Module TX FCC ID: ACJ9TGCF-27GPRS:

Caution - To comply with FCC RF Exposure Requirements:

- Maintain minimum 2.2 cm spacing between computer mounted antenna and person's body during wireless mode of operation.
- Optional vehicle mounted antenna must not exceed 3 dBi antenna gain and should be professionally installed. Maintain minimum 20 cm spacing between vehicle mounted antenna and person's body during wireless mode of operation.
- This computer is provided with PCMCIA slots that could be used with wireless transmitters, which will be specifically recommended, when they become available. Other third-party wireless transmitters have not been RF exposure evaluated for use with this computer and may not comply with FCC RF exposure requirements.
